Moore Seed Co.'s 1918 Wholesale Price List of Seeds for Market Gardeners and Florists

To the Professional and Beginner:

**HOW TO MAKE MARKET GARDENING PAY**

The Professional Market Gardener and the one about to begin Market Gardening are alike anxious to make market gardening pay.

**TO MAKE MARKET GARDENING PAY** and how to do it, is just as important to the professional as to the beginner. To both we say, the prime essential is to procure the best seeds that money can buy. Buy the best varieties. Select the earliest, the most productive, the best carriers and the best sellers. Don't hesitate a moment to plant the best—the price is of little consequence providing you get just what you are seeking for, and secure the highest prices; the market will invariably pay well for the best produce that is brought to it. Poor seeds will never produce good crops, nor vegetables of first quality. It is foolish and fruitless to attempt to produce anything of high quality and always insures highest market prices. Best quality and highest market prices spells success to every market gardener who grows for the home or distant market.

Many thousands of market gardeners throughout the United States have found by actual experience that the best seeds obtainable are only to be had from The Moore Seed Company, 125 Market Street, Philadelphia, Pa., who have made it a life long study and work to produce the best varieties and strains of seeds calculated to insure the most profitable and abundant crops and that will command the highest prices on any market, no matter where sold.

We ARE CAREFUL to only recommend the best varieties.

We ARE CAREFUL to use the utmost care and caution in selecting our seed stocks as well as in growing our seed crops.

We ARE CAREFUL to use the greatest care in preventing growing and handling the seeds while harvesting.

We ARE CAREFUL to send out no variety we have not tested in the most exhaustive manner in many localities, as to its suitability for earliness, size, color and general adaptation for the market intended.

We ARE CAREFUL not to send out any seeds we have not given a good and thorough test for germination. Our tests in this respect are very thorough and are conducted both in greenhouses and in the open ground as occasion requires.

**IN CONCLUSION.** We wish to acknowledge our many thanks to our customers for their loyalty and patronage. It affords us great pleasure to receive your orders and receive your kind expressions of satisfaction, for it indicates that our efforts to please and assist you have been successful. We have tried harder this year than ever before to offer you in this catalogue new and better varieties than last year, as well as a larger assortment and at prices that will induce every market gardener who seeks the greatest profits to send in an order.

**OUR BUSINESS RULES**

- **ABOUT WARRANTING SEEDS, ETC.**—The Moore Seed Co. give no warranty, express or implied, as to description, quality, productiveness or any other matter of any seeds. Bulbs or Plants they send out, and they will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms, they are at once to be returned.

- **REMIT MONEY WITH ORDER.**—Money can be sent safely by Post Office Order, Express Money order, Registered Letter, Bank Draft or Check.

- **OUR PRICES** include bags, boxes and free cartage to depot. Bags are free excepting on Clover, Timothy and Millet.

- **ERRORS.**—We exercise the utmost care in filling orders, but in the rush of our busy season errors will sometimes occur, in which case we shall appreciate being advised of the fact at once and proper correction will be made. Please keep copies of your orders for reference.

- **Please WRITE your NAME, POST OFFICE, COUNTY and STATE as distinctly as possible, especially the name. Many orders reach us lacking either or both; customers when writing about unsigned orders will aid us in identification by mentioning the articles ordered and quantity.

- **GIVE FULL SHIPPING INSTRUCTIONS** on each and every order you send. To avoid chance of error, never write letters on the same sheet as your order.

- **IF GOODS ARE WANTED C. O. D., 25 per cent. of the amount must accompany the order.**

- **WE SELL ½ pounds at pound rates, ¼ pecks at peck rates, ½ bushels at bushel rates except where noted.**

**A WORD TO OUR CUSTOMERS**

It will be Money in Your Pocket to
Buy the Best Seeds

**MANY THOUSANDS** of the most successful Market Gardeners and Florists throughout the United States use no other

**WHY WE ARE MOST RELIABLE.**—Because we are the only seedsmen in the United States who grow seeds, *especially for Market Gardeners and Florists.* All our time and energy is devoted exclusively to producing the purest and best qualities of seeds possible for the market, garden and florist trade. We send out only such strains as are adapted to the wants of the most critical, and offer nothing that should disappoint those engaged in this important business.

The weight limit in the local and second zone is 50 lbs., all other zones is 20 lbs.

**IMPORTANT**—In remitting postage always add it to the foot of the order as a separate item—this will help to avoid mistakes.

The local postmaster will inform you what zone you are in from Philadelphia, Pa., at your request. You can add for postage accordingly.

**IMPORTANT**—When sending money to cover cost of postage allow for weight of box or packing material. For example, allow for two pounds’ postage on one pound of Beans or other seed as the package when ready for mailing will weigh over one pound. One quart of Peas or Beans weighs about two pounds; remit postage for three pounds.

Total amount of order,
ASPARAGUS

We have over 1,000,000 Strong Two-year-old Roots ready for our Customers

Buyers of 10, 50, 75 or 100-lb. lots of any variety of Asparagus Seed will be quoted special prices upon application.

STARKEY'S MAMMOTH EARLY PROLIFIC ASPARAGUS

THE BEST AND MOST PROFITABLE SORT TO GROW

This highly valuable new variety has been grown early for a number of years by one of Philadelphia's most successful market gardeners, who invariably cut the largest and handsomest asparagus ever sent to this market, from ten to two weeks earlier than his neighbors and upon which he always realized very high prices. This asparagus has attracted much attention from dealers and commission merchants generally throughout the State, all anxious to get it. The color is notably different from either the famous Barr's Philadelphia Mammoth or Palmetto, while the stalks are more tender and succulent. Its mammoth size can be realized from the fact that in whole crops these stalks will average a pound in weight, and it requires much less labor in cutting and bunching, thus lessening the expense of marketing. One who sees the handsomest variety pronounces it many times superior to any other known sort. It is on the one hand the finest, longest, earliest and most profitable for the market gardener to grow. Stalks frequently measure two inches in diameter, and even when twelve to fifteen inches long are perfectly tender. The quality is exceedingly fine, growth rapid and remains in good, tender condition several days after being ready to cut. It is very productive, throwing up a perfect mass of very large sized stalks of medium green color and very handsome appearance, and in variously commands a much higher price than any other variety. Our customers advise us that it never suffers from rust. In every case, most thorough and extensive trials, Starkey's Mammoth Early Prolific has been found immensely superior to the Palmetto and other varieties for Southern planting. We request our customers to place their orders with us as early as possible.

Prices of seeds: Pkt. 10c., oz. 20c., lb. 50c., 1,000 seeds $1.75; two-year-old roots, per 100 $1.00, 1,000 $5.00.

Conover's Colossal. Prices of seed: Oz. 10c., 1 lb. 50c., 10 lb. $1.25; two-year-old roots, per 100 85c., 1,000 $3.50.

Donald's Elmira. Prices of seed: Oz. 10c., 1 lb. 25c., 10 lb. 75c. Two-year-old roots, per 100 $1.00, 1,000 $5.50 (500 roots furnished at 1,000 rate). Palmetto. True stock. Oz. 10c., 1 lb. 25c., 10 lb. 50c., 5 lbs. 2.25; very strong two-year-old roots, per 100 85c., 1,000 $5.00.

A Royal French variety. Oz. 10c., 1 lb. 25c., 10 lb. 25c. Two-year-old roots, by express or freight, $1.00 per 100, $6.00 per 1,000.

ARTICHOKE

SUTTON'S SELECTED LARGE GREEN GLOBE. Pkt. 10c., oz. 25c., lb. $1.00.

ARTICHOKE ROOTS. The best and cheapest artichoke known.

Its yield is so enormous, bordering on the fabulous. Farmers who have given them a thorough trial past year report yields from 10 to 20 bushels per acre. They need not be dug in the fall; the hogs should be turned in on them, and will help themselves by rooting for them. They are also said to prevent cholera and other hog diseases; also highly recommended for milch cows, increasing the yield of milk and improving their condition. They are well adapted to any soil where corn or Potatoes can be grown. They should be cut the same as Potatoes, one eye to a cut being sufficient, planted in rows 3 feet apart and 1 foot in the rows, and covered about three inches deep. They are not injured by freezing while in the ground. 1 lb. 5c., 3 lbs. $1.00, postpaid. By freight or express, qt. 30c., pk. $1.30, bn. $4.00, bbl. (enough for 1 acre) $10.00.

PERFECTION DRILL AND GARDEN SEEDER

Our Perfection Hand Drill is an ideal seed drill for the hodden, hot-house and open ground. It is a fine and labor saver adapted to all kinds of small flower and garden seeds. One man with a Perfection Drill andSeeder can do as much seeding as five or six men would do in the same time by hand. The seed is saved at just the right depth, at the proper equal distance apart, and with the correct amount of seed in each spot.

This handy tool is much ahead of hand sowing as a corn planter is ahead of planting corn by hand. Built to last a lifetime. It avoids the tedious process of shelling out that so often occurs in hand seeding. Soon pays for itself in seed saved. Simple directions with every machine. Price $2.50 each, by mail, postpaid, $2.25.

GREAT SEED FOR KNOW.

For the Professional and Amateur Gardener
BEANS DWARF OR BUSH GREEN-PODDED

No market gardener, trucker or shipper should plant any but our German, French, or King of the Early Market stringless varieties. They always sell at fancy prices. Other green-podded sorts never do.

MOORE'S GERMAN STRINGLESS

This superior variety is a prolific and continuous bearer and absolutely stringless. Very tender and of a distinct and delicious flavor. Very hardy, extremely early.

This most excellent variety was introduced into cultivation in 1905, and is a distinct improvement in green beans, and at once becomes popular wherever known. The rich dark green pods are produced in marvelous abundance, being thick long, very uniform in size, solid, meaty, stringless, very brittle and tender. It is almost a continuous bearer, and is among the first to give edible pods in the spring. The yield is enormous, and it is very early, and the handsome rich green pods remain tender a long time. It is likewise an excellent sort for full planting. It is exceedingly popular wherever grown. It is of very thrifty growth and practically mild and rust proof.

Moore's German Stringless

It bears tremendous crops.

Moore's German Stringless

stringless quality until late into maturity. It has a delightfully delicious flavor exclusively of its own. It is a fine shipper and the most profitable green bean ever grown. It produces such Beautiful tender pods; besides it is the most delicious shelled bean for winter use.

Moore's German Stringless

I ever ate. It is simply the finest bean on earth, and has created quite a sensation among my German, French, or King of the Early Market stringless varieties. They always sell at fancy prices. Other green-podded sorts never do.

EARLY FRENCH STRINGLESS

Extra Early, Exceedingly Prolific. Long, Straight, Dark-Green Pods

Retains its delicate tenderness even when a little old. This new variety recently introduced at this Garden, bears to us the fame of all the bean-growing sections of our country. At Paris, where we first saw it growing, it has surpassed nearly all other sorts on account of its admiration and tenderness, being a new seed too highly for the early gardeners of this country, for it simply sells on sight. It is a true, stringless, round-pod bean, surpassing many varieties for earliness and productivity. The yield being simply prodigious. The pod is of the same length, in color a very distinctive green, and is succeeded by any other sort for tenderness and fine flavor. We unhesitatingly recommend it to our many thousand market garden friends throughout the United States as being one of the best and most profitable green-podded beans obtainable. Pkt. 10c., qt. 50c.; lb. $1.95, pk. $3.55.

French Stringless

Beans sold for $2 a hamper, while my Valentines and Refugees only netted $1.40. The pods are long, straight and smooth and without strings. I will never plant another Valentine if I can help it.

French Stringless

was the first to pick with me. Every bean was fairly loaded with long, beautiful green pods, solid, tender and of delicious flavor, and showed nothing whatever until quite old. They retain their color and tenderness longer than either the Valentines or Refugees, sell more readily and at a higher price.

MOORE'S ENGLISH STRINGLESS (Newington Wonder)

Extremely Early, Unusually Hardy, Wonderfully Productive, Finest Quality

Our early varieties with long, very rich colored, delicious flavor, wonderfully tender, remarkably early. Enormously productive, continues a long time in bearing, valuable for private gardens. This bean was introduced by us in 1905, and has grown steadily in popularity ever since. The bean is stringless, all string is tender, earliness, and extreme earliness. No market gardener, shipper or amateur gardener should plant any but our special strains of beans. All other sorts are obsolescent. Profitable to market gardeners. Pkt. 10c., qt. 50c.; lb. $1.00, pk. $3.50, bu. $5.00.

Moore's English Stringless

is a long, stringless pod of the finest quality, a true, round, light green pod of the best of the market. The market returns were about 89 percent better.

The Newington Wonder or English Stringless and French Stringless Beans have been given me the very best results, and my neighbor-gardeners good satisfaction, they are the best selling sorts we ever had. We find them the best for either the first or last plantings. We intend to try your Moore's German Stringless next year, and see what it will do. We have about ten bushels.

KING OF THE EARLY STRINGLESS

Ready for picking in 40 days from planting. A grand variety for the Market Gardener. Full round meaty pods. Distinct from all other sorts.

It is fully a week earlier than the Valentine or Refuge, Beautiful, Chinese, and Prussian. The pods are larger and of better shape. They yielded the past season over one-third more per acre on the same soil. The delicate green color of the pods is retained after cooking, which adds greatly to its attractiveness when served. Fine market sort. A continuous yield, and very profitable to grow. Pkt. 10c., qt. 50c., lb. $1.00, bu. $14.00.

EARLY SIX WEEKS (Round Pod)

This excellent variety is a great improvement over the old type, being ONE-THIRD LONGER THAN THAT VARIETY, PODS PERFECTLY ROUND, LIGHT GREEN AND STRAIGHT, and fully as early. This lengthens the addition of the bean, and makes it extremely hardy. It will withstand early and late frosts which kill other varieties. A most desirable sort for the market gardener's fall crop, owing to its enormous yielding qualities, flavor and handsome appearance, and superior to either Red Valentine or Refuge, being extremely early in comparison with either. Pkt. 10c., qt. 30c., lb. 50c., pk. $3.50.

IMPCTED STRINGLESS, Green Pod

DWARF HORTICULTURAL,
LONGFELLOW, Round pod.

JAMES H. MOORE,
Round pod.

EXTRA EARLY RED VALENTINE. Improved round pod strain. A great improvement over the old RED VALENTINE.

IMPROVED EXTRA EARLY REFUGE. Round pod.

REFUGEE or 1000. To 1. Round pod. Qt. 50c.

BLACK VALENTINE.

We will mail postpaid any 3 one cent packets of Vegetable Seeds for 25c., or 7 for 50c.
Our Beans Are Great Money Makers
FOR ALL WHO PLANT THEM

King of the Early Stringless

Ready for picking in 40 days from planting. A grand variety for the Market Gardener. Full round, meaty pods. Distinct from all other sorts.

A very hardy and productive bush bean, with strong vigorous bushes, which hold the pods well up from the ground. It is fully a week earlier than the Valentine or Refugee, Bountiful, Giant Potted Valentine, Longellow, or Mohawk varieties. The pods are larger and of better shape, handsome, solid and tender, and make a very attractive appearance on the market. They yielded the past season over one-third more per acre on the same soil. The delicate green color of the pods is retained after cooking, which adds greatly to its attractiveness when served. Fine market sort. A continuous yielder, and very profitable to grow. All who wish a profitable early bean for market or home use should plant this variety. Pkt. 10c., pt. 55c., qt. 60c., pk. $2.35, pk. $4.75.

California Pink Bean
A MOST EXCELLENT WINTER SHELL BEAN

This is an enormously productive green-podded variety, valuable alike as a snap or dry-shelled bean. Enormous quantities of these beans are annually grown in California, where they are highly esteemed for their richness and flavor known to no other variety for cooking in a dry state. Any surplus one may grow can easily be sold at from $1.00 to $2.00 per bushel above white beans. The pods are large and usually contain from six to eight beans of a very pleasing shade of pink. An average of forty-five bushels per acre is not uncommon. It will stand wet weather perfectly, while white seeded sorts will be rendered unsalable. All who wish a truly good winter shell bean should plant this variety. It is a very sure cropper and a good snap bean when very young. Pkt. 10c., pt. 30c., qt. 55c., pk. $3.75, bu. $14.50.

French Dwarf Horticultural

Vine very productive, compact, upright, with large leaves. Pods very numerous, of medium length, cylindrical, curved, with splashes of bright red on a yellowish ground. They become fit for use as green-shelled beans very early and in this condition the beans are very large, of fine flavor, easily shelled and are about equal to, and many consider them superior to the Lima in quality. They make a delicious snap bean when young. Seed large, oval, plump, dark colored and nearly covered with splashes of bright red. This is a most excellent winter shell bean when fully grown. As a baked bean they are truly delicious. It is a remarkable heavy yielder as our illustration shows, and it should be planted by all who relish a delicious, satisfying snap or shelled bean. Pkt. 15c., pt. 40c., qt. 75c., 1 qts. $2.50, pk. $4.75, bu. $18.50.
NEW CALIFORNIA RUST-PROOF BLACK WAX

The Handsomest and Most Productive Flat Potted Wax Bean Ever Grown

In this new very early variety introduced by us, we have one of the best wax sorts offered to market gardeners and private families. It will sell twice as well and at a higher price than many other flat potted sorts. The pods are longer, broader and of a brighter yellow color than any other sort, very superior quality, tender and stringless. The vines are of vigorous growth, leaves dark green, hardy, and yield enormous quantities of handsome, flat, meaty pods, borne well up from the ground, and has not shown any disposition to rust, no matter where grown. It is from eight to ten days earlier than the Davis or Flaggol Wax or any other flat pod wax sort. It is very hardy and will stand more cold weather more easily than any other wax sort we have recommended. We most positively recommend this valuable new sort to all our market garden friends. Pkt. 10c., pt. 40c., qt. 75c., 1 pt. $2.75, pk. $4.75, bu. $8.00. Special prices for 2 bu. and upwards will be made upon application.

THE MOST VALUABLE.—Gentlemen: I have been growing beans for twenty-four years, and I find your California Rust-Proof Wax the most valuable ever introduced. I picked 1,995 lb. baskets from one plant of seed. J. H. Weaver, Glenoak, Pa.

MOORE'S KING OF THE WAX

This is a first-class wax bean in every respect, having originated with one of our Philadelphia market gardeners, who never sold the seed to his neighbors for less than $10.00 per bushel. Plant of robust, branching habit, should be planted thinly, so as to allow plenty of space for branching. The pods are round, long, and of a beautiful, bright, golden transparent yellow color, very tender, stringless and entirely free from rust, and remain tender a very long time. Pods are long, thick, very attractive, very meaty and hang in remarkable profusion, and continue to bear a very long time. It will mature fully as early as our now famous California Rust-Proof Wax. As a market sort, it invariably brings the "top hotel" price. We commend it to all our market garden friends. Pkt. 10c., pt. 40c., qt. 75c., 4 qts. $2.75.

We will mail postpaid one copy each of the above three valuable wax beans for 25c., or any seven 10c. pkts. for 50c., or 15 for $1.00.

PROLIFIC EVERBEARING WAX

The Most Productive, Delicious and Best Selling White-Seeded Wax Bean on the Market.

This is a first-class wax bean in every respect. The pods are nearly round, of a beautiful bright yellow color, long and hang in perfect clusters well up from the ground; very early and hardy and continues a long while in bearing, and this combined with immense productivity and handsome appearance and most delicious quality, has made it a favorite with market gardeners everywhere. As a dry bean for winter use it is the best we have ever eaten. Pkt. 10c., pt. 40c., qt. 75c., pk. $1.75, bu. $3.00. DAVIS, KIDNEY WAX. Crop failed.

HODSON WAX. Crop failed.

CURRIE'S RUSTLESS WAX. Crop failed.

DWARF BEANS FOR SHELLING

BISMARCK GREAT GERMAN SOUP BEAN. Everybody relishes a good bean soup, but ninety-nine out of one hundred varieties of beans are too large and lack that rich delicacy of flavor that a soup bean should have. Now the German nation is great for good soup. They are known the world over for that, and a bean soup is one of their great specialties. We know while traveling in Germany that everywhere bean soup was served, and the rare delicacy and flavor thereof called for both praise and remarks from every traveler. We learned that the only thing they used was a small soup bean. The size of the bean is smaller than a small pea, is magnificently flavored and just the article required to make a magnificent bean soup. A pint of beans will grow sufficient beans to supply a good-sized family all winter, while for baking, there is no bean this kind that will pass to it in quality and richness of flavor. Pkt. 10c., pt. 40c., qt. 65c., pk. $1.75, bu. $3.00.

BLACK TURKEY SOUP BEANS. If cooked in the form of a soup until the bean and skin be soft, they will have the exact taste of soup made from the famous Diamond Back Turtle. Pkt. 10c., pt. 40c., qt. 65c.
MOORE'S SUPERB NEW BUSH LIMA BEANS

Moore's Profit-Making Lima Beans—Every Market Gardener Should be Careful to Plant Our Specially Selected Varieties

MOORE'S NEW GIANT

Both pods and beans are twice the size of Kummerle, Thorburn or Dreer's Bush Lima. It is of sturdily erect habit. It branches freely with all the branches held upright, and the pods high above the ground, no pods or beans discolored from resting on the ground.

Moore's New Giant Bush Lima. The beans are ready for use as early as those of the Burpee Bush Lima; bears tremendous crops and furnishes the most delicious beans for table earlier than most pole varieties. The pods contain four to five handsome large deep-green beans of the most luscious quality and owing to the fact of the beans being so closely packed they shell very easily.

Moore's New Giant Bush Lima is a true won-der bean I ever saw. It is far ahead of Kummerle or Dreer's Bush variety. It has been a seven days' wonder with all the market gardeners in this locality; it created a veritable sensation with everyone who saw it. It is big in every way—big beans, big pods and crops, and big prices. I had least I brought big prices to get $1.25 per basket for your GIANT BUSH, while it was hard to move the Kummerle, Thorburn or Dreer's Bush at 80c. The beautiful appearance of the dark green pods insures ready sale any time. I planted Moore's New Giant Bush Lima in my garden and picked the first full-size pods July 15th. One bush yielded me 117 pods by actual count and I believe very few less than this.

Z. V. PATTEN, Richmond, Va.

Moore's New Giant Bush Lima not only produces immense crops but has additional merit over all other sorts of the "Pointo Lima" type both tall and bush. Every one of full size the beans are tender, juicy and sweet of flavor when cooked. This cannot be said of the Challenger, Dreer's or Potato Lima sorts. On account of its close, compact and upright habit it can be planted one third closer than the old Burpee, Kummerle or Burpee's Bush type. Pkt. 15c., 1 oz. 40c., qt. 75c., 4 qts. $2.25, pk. $5.50.

MOORE'S NEW BIG POD BUSH LIMA

In this we offer you the EARLIEST, LARGEST and BEST of all LARGE BUSH LIMAS. The pods are truly enormous in size, filled with beautiful luscious green beans larger than any bush limas ever produced before. The pods are longer but not as thick as our New Giant Bush Lima.

The plants are uniformly upright. The plant has heavier leaves, and is of more vigorous growth than our IMPROVED LARGE BUSH LIMA or BURPEE'S BUSH LIMA and will outyield the Burpee Bush Lima for family gardens and we hope all having such will plant it liberally, as it thrives well in all parts of the United States and Canada. It makes a delightfully heavy yield. Moore's New Big Pod is generally matures from 50 to 80 well-filled pods. Pkt. 15c., 2 pks. 25c., pt. 40c., qt. 75c., postpaid. By express or freight, pt. 40c., qt. 75c., 4 qts. $2.25.

BUSH BUTTER LIMA

A Marvel in Yield! Outyielding all of the Earlies and equaling the heaviest cropping Last in number of pods.

Our tests show it to be earlier than any of the Pole or Bush Lima varieties and highly delicious when roasted and served with a butter sauce. It is enormously productive (see our illustration), bearing continuously throughout the summer until first frost. Our customers will find it a delicious and one that will please them in both quality and quantity, being tender, juicy and buttery. It is a true bush variety growing about 15 inches high, requiring no stakes or other support whatever. Our Bush Butter Lima is especially adapted for family gardens and we believe it will be a great favorite, making a heavy yield. Moore's Bush Butter Lima generally matures from 50 to 80 well-filled pods. Pkt. 15c., 2 pks. 25c., pt. 40c., qt. 75c., postpaid. By express or freight, pt. 40c., qt. 75c., 4 qts. $2.25.

Fordhook Bush Lima. (True Stock). A new variety of much merit. Pkt. 15c., pt. 40c., qt. 75c., 4 qts. $2.50, pk. $5.50.

Henderson's Improved Bush Lima

Of hardy growth and very prolific, bearing continuously until the end of the season. Very extensively grown in some sections. Pkt. 35c., qt. 60c., $1.25.

Plant Moore's Old Duke of York Tomato. (See page 62.)
POLE LIMA BEANS

WILKIE'S PERFECTION PRIZE LIMA

The Standard Pole Lima Bean. A Grand Acquisition

This world famous variety originated and the seed was grown by a noted Philadelphia market gardener who desires us to distribute it to all those who wish to grow the most profitable and delicious of Pole Limas. Mr. Wilkie was over 25 years perfecting this truly valuable variety and which is unhesitatingly pronounced to be the best large Pole Lima Bean in cultivation by thousands of market gardeners throughout the United States. The beans shell easily, are large, very tender, sweet, and of a fine green color and enormously productive. Pods have been gathered from a single vine, single pods yielding from 5 to 7 large beans. The vines while young produce pods in great abundance and continue to grow and bear profusely the entire season. This is unquestionably the earliest, best and most profitable variety for the market gardener to plant; the beautiful green color and delicious quality of the beans always create a big demand for it wherever known. Pkt. 15c., qt. 35c., qt. 70c. 1 pk. $2.70, pl. $5.00, bu. $18.50.

READ WHAT OTHERS SAY:

IMMENSE CROP.—The Wilkie Prize Limas I bought from you last year were the wonder of the neighborhood for earliness, yield, and size of pods. In spite of the drought I had an immense crop.—William Sloyne, Willow Grove, Pa.

GRAND SUCCESS.—An old customer of yours persuaded me last season to plant the Wilkie Prize Lima. I planted 10 quarts and had grand success.—John Long, Pipersville, Pa.

PLANTED THEM ELEVEN YEARS.—I have planted your Wilkie Lima for the past eleven years, get-ting many others but failed to find one that I liked as well as yours. They are tried many others but usually return to your Lima. I believe it to be the earliest Pole Lima on the market, and the most profitable of its class.—Peter Laming, Market Gardener, Cape May, N. J.

PERFECTLY RELIABLE.—Your Wilkie's Per-fection Prize Lima and Walter's Thick Green Lima were planted by me last year for shipping to Newark, New York, and Boston in hampers, and I found them to be the most profitable sorts for my purposes. The beautiful dark green color of the large plum pods and beans seemed to take the eye of every buyer at the station. They always sold for from 50 to 60 cents more per hamper than any other Pole Lima brought to this station. The yield of both sorts was marvelous, right up to hard frost. Will be sure to buy all my seed from you another year.—L. O. Smith, Woolsey, N. J.

Walter's Prolific Thick Green Pole Lima

A grand selection, possessing great merit. Of most delicious quality. Will always command the highest market price.

Our illustration herewith, which was taken from a photograph, aptly illustrates the shape and compact habit of the bean. It originated and was grown for many years by Mr. Henry Walter, one of the most successful Lima bean growers of Gloucester Co., N. J., and who always jealously guarded his seed from "outsiders." By paying him an enormous price we finally induced him to sell his seed stock which we now offer to our many market gardener friends. This variety invariably com-mands a higher price in all markets than any other, and it will be found very profitable to grow by all who plant for profit. The distinctive improve-ments are its remarkable productiveness, delicious flavor, and the formation of the beans so closely united in the pod. Vines vigorous and productive, with painted leaves and white blossoms. Pods broad, straight and thick. Beans dark green, tender, sweet, and juicy, medium size, broad and much thicker and greener than any other type of Lima, and formed very close together in the pod. It bears an excellent sort for the family garden and the best of all sorts for canning purposes. Pkt. 15c., Qt. 40c., qt. 75c., i pt. $2.75, pk. $5.50, bu. $19.50.

KING OF THE GARDEN—Early and productive. Pkt. 10c., qt. 20c., 4 qts. $1.50, bu. $7.50.

GREEN SEEDED. An extremely valuable new variety which should be known to every Lima bean grower. Very early, wonderfully profuse bearer and vigorous grower. Beans large, pods borne in clusters of superb quality and immense size, and filled with immensely large beans of a beautiful green color, and always command fancy prices. Pkt. 15c., pt. 40c., qt. 75c., i pt. $2.50, pk. $5.50.

DREER'S IMPROVED or CHALLENGER. Thick, round bean of fine quality and a heavy yielder. Pkt. 10c., pt. 25c., qt. 70c., pk. $5.50.

FAMOUS SOUTHERN BUTTER LIMA. This variety of pole beans is a little larger, and it is earlier to mature than any of the other pole sorts. It is also remarkably prolific of delicious quality, a continuous bearer, easy to shell, and will prove to be decidedly a money maker for the market gardener. The pods are produced in clusters. We strongly recommend it to all our customers as a distinct, valuable and highly desirable pole Lima bean. All who have grown this bean prove its value. Pkt. 10c., pt. 25c., qt. 70c., pk. $5.50.
Early tender plants should be sown 2 weeks later than the Bush varieties. They should be enriched with well-rotted manure in the hills; from 8 to 10 seeds are planted in each hill.

**GOLDEN HORTICULTURAL STRINGLESS.** Exceeds in earliness, quality, handsome appearance and productive. In this new strain we have a wonder-fully compact grower. The pods are large, stringless, bright golden color when very young. The vines are vigorous and very prolific. The thick pods are handsome marked and hung in great clusters over the whole length of the vines. Taken at almost any stage up to absolute ripeness the pods are stringless and quickly cook to an almost jelly-like consistency. The quality is excellent, preferable to our taste to most of the dear of "snap" or butter beans. Pkt. 10c., 1 oz. 75c.

**SCARLET RUNNER.** Ornamental as well as useful. It grows 10 feet high, and produces bright scarlet flowers, followed by large shell beans.

**NEW GOLDEN LAZY WIFE'S POLE.** It is nothing unusual to pick 1 1/2 bushel to 3 pecks from a single vine. The pods are 6 to 8 inches long, broad, thick, heavy, a beautiful yellow, and entirely stringless, surpassing all other varieties in this respect, and retaining these important qualities until almost ripe. Exceptionally rich, buttery and fine flavored. The vines cling well to the poles. They commence bearing in great abundance when the vines are quite young, and continue to bear prolifically the entire season. The beans when dry are pure white in color, and make a fine shell or winter bean. Pkt. 10c., pt. 25c., qt. 40c., pk. $1.50.

**YARD LONG, or CUBAN ASPARAGUS BEAN.** Pods grow from 2 to 4 feet long and are produced in great abundance. In color they are a beautiful green, tender and delicious, so that they not only prove a great curiosity wherever grown, but also a desirable variety as well. The pods are broken into suitable lengths while young, cooked and served with a drawn butter sauce, same as asparagus. Pkt. 10c., 3 for 5c.

**IMPROVED DUTCH CASE KNIFE.** Early, productive, and excellent, whether used green or dry. Vines vigorous, climbing well. Pkt. 10c., pt. 25c., qt. 40c., pk. $1.50.

**TENNESSEE WHITE CORN HILL BEAN.** It is undoubtedly the best variety ever grown for planting among corn, thus securing crops equally from the same ground with half the cultivation—this is practical wisdom. The seed is white, pod flat, light green, very meaty, and they are without doubt the most productive green pole bean in cultivation. As a green snap bean they are superior to any sort grown. While it is the earliest pole bean grown, it will continue to bear until frost if the pods are removed while yet young. Don’t fail to plant a dozen or more hills among your corn. Pkt. 10c., pt. 30c., qt. 45c., 4 qts. $1.00.

**FAMOUS SOUTHERN BUTTER LIMA.** Stringless pods hang in enormous clusters. Beans large, beautifully splashed and spotted with red, and of the highest quality. Is a capital pole bean, takes to the pole exceptionally well. Being stringless it makes and excellent snap bean at any stage of growth, and when ripened is unsurpassed for boiling or boiling. Pkt. 10c., pt. 25c., qt. 45c., $2.00.

**OLD HOMESTEAD OR KENTUCKY WONDER.** It is tremendously productive, the pods hanging in great clusters from top to bot. resemblance the popular Peruvian Bush Bean. Vine vigorous, climbing well, and very productive, bearing its pods in large clusters; pods grow very long, often reaching 5 or 10 inches, nearly round when young, and very crisp. An early and very profuse sort, with showy pods which are excellent for snap. Pkt. 10c., pt. 30c., qt. 50c., pk. $1.50.

We will send postpaid any three 10c. packets for 25c., or 7 packets for 50c.
THE MOST PROFITABLE Sorts for You to Grow—they are the kind that make money for those who sell them. You will be pleased with any or all of them.

New French Trevis. Positively the earliest dark blood beet red variety ever introduced and we recommend every one of our 95,000 market gardener friends to plant it as it will make big money for them all. It is as symmetrical as a small orange and is prime when about three inches in diameter. Skin very smooth, of violet red color; flesh of a dark blood color, leaf stalks long, slender and beautiful red color. It can be grown very close together and the Nutting's Extra Early Gem is well adapted for growing under sash. We doubt if any seedman will ever be able to produce an earlier beet than this. Marketable roots in thirty days is its record. Owing to its very rapid growth it will be found very profitable for late summer sowing. Pkt. 10c., oz. 25c., ½ lb. 75c., lb. $2.75, 5 lbs. $13.50.

Wesley's Earliest Market Beet. One of the most wonderful early dark beet roots of the century. A handsome dark red, fine grained, showy variety for first early, second early and late planting. The largest dark red early beet ever grown. Meets a long-felt want among beet growers. Every beet salable. Always brings the highest market price. This excellent beet is an improved form of the famous "French Early Red Beet," so extensively grown in the south of France for early shipment to the Paris and London markets where it is held in higher esteem than any other variety. It is a source of great profit to the French market gardeners, as well as to all others who grow it. Top of medium size, excellent flavor and will all who plant it. An enormous yielder. Pkt. 10c., oz. 25c., ½ lb. 75c., lb. $2.75, 5 lbs. $13.50.

I have planted your Wesley's Early Market Beet for fifteen years with the greatest satisfaction to myself and patrons. No trouble to sell them. L. W. Toles, Wilmington, Del.

Nutting's Extra Early Gem. Mr. Nutting's success and fame as an early beet grower has extended over a long period of years, and the giving of this grand new early beet to the public through us—we have purchased his entire stock—he considers the growing season lost. His patrons have frequently offered him fabulous sums for this seed, so highly do they prize it for its extreme earlyness, its enormous red color and fine quality. Its especial valuable features consists in its being two weeks earlier than the Dewings and Egyptian or Detroit strains, together with its beauty and growing under sash owing to its very few and small leaves, thus rendering it very profitable to the market gardener. It will invariably command the highest market price, and not infrequently sells at a higher figure than any other sort. For a general outdoor early crop it is unsurpassed. The quality is the highest, the beet being very tender, sweet and juicy, even when the leaves die off from age. It will also be found to be the ideal beet for hot-house forcing, as our numerous testimonials will show. Pkt. 10c., oz. 25c., ½ lb. 75c., lb. about 5 lbs. $13.50.

For upwards of 20 years your Nutting's Early Gem Beet has been my main crop for early planting. The quality is superb and the top small.

E. W. Lawrence, Jersey City, N. J.

Moore's Deep Crimson Globe Beet. A grand second early and main crop variety. This variety is quite distinct and has become remarkably popular among gardeners in all sections of the country, and needs no recommendation to those who grow beets. It is of medium size, generally about 3 inches in diameter, very handsome in shape, a little deeper than round with smooth, even surface. The leaves are rich crimson in color, born on slender stems, which grow quite compactly, and are thus easily removed. The flesh is deep crimson, ringed and zoned in varying shades. It is exquisitely tender and delicious in flavor. Though it grows quickly enough for very early use, it will remain tender for a very long period. Pkt. 10c., oz. 25c., ½ lb. 75c., lb. $2.75.

CROSBY'S IMPROVED EGYPTIAN. Very fine stock. Oz. 20c., ½ lb. 75c., lb. $3.00.

BASTIAN'S EARLY HALF LONG. True seed grown by Bastian. Very choice strain. Oz. 10c., ½ lb. 30c., lb. $1.00, 10 lbs. $9.00.

EDMUND'S EARLY RED TURNIP. Good second early. Oz. 15c., ½ lb. 45c., lb. $1.50.

DETROIT RED TURNIP. Our strain is extra good. Oz. 20c., ½ lb. 70c., lb. $2.25.

EARLY ECLIPSE. ½ lb. 70c., lb. $2.25.

EARLY MODEL. New. True stock from England. Early deep rich blood-red crimson. Oz. 25c., ½ lb. 75c., lb. $2.75.

MOORE'S LONG SMOOTH BLOOD. Late intense dark red. Oz. 25c., ½ lb. 75c., lb. $1.75.

FRENCH SWISS CHARD. (True Spinach Beet). The best and most profitable sort for market. Pkt. 10c., oz. 15c., ¼ lb. 45c., lb. $1.50.

Best All-Round Cabbage Ever Planted

"I have had three years' experience with Moore's Early Stonehead and I have found it by far the best all-round Cabbage I ever planted. It is a rapid grower, very hardy, and will head of at least 10 per cent better than any other variety I know. It makes a beautiful head, and surpasses all others I know in flavor. A certain acreage of mine was valued quite a number of new customers for one season simply because he handled Stonehead. By time of sowing seed and planting you can make early, medium and late of it." A. & H. Hansey, Scranton, Pa.
Something New and to the Point

This is one of the best early market beets in the world.

You Can Make Good Money Growing Moore's New All Season Beet on that Land of Yours

The public wants this beet and will pay fancy prices for it. It has all the desirable qualities to make big money for you all the year round, no matter whether you grow it for your home market or distant shipping, your profits will be big.

It is the Wonder Beet by All Tests

No matter whether you plant a quarter pound or one hundred pounds, you should not fail to include Moore's All Season Beet. It means big profits to all who plant it, either for an early or summer, fall or winter crop. Roots are perfectly smooth, a beautiful globe with intense blood red skin, fine grained and very sweet no matter what season in the year they are grown.

Hear What Your Neighbors Say:

As a winter beet for barrel or basket trade it has no equal. The size is just right.

Louis Gnomecker, Cincinnati, 0.
A great money maker. The ideal beet for home or market. I can recommend it to anyone.

Wesley Jones, Paterson, N. J., writes—"I pulled Moore's All Season beets five days ahead of Crosby's Egyptian and I found the All Season's a much sweeter beet."

John S. Wright, Buffalo, N. Y., writes—"My customers prefer your All Season Beet at all seasons of the year. I could not meet the demand. I sold my entire crop 25% above market price."

James C. Towlinson, Pittsburgh, Pa., writes—"Your All Season's Beet has met a long-felt want, no matter how long it remains in the ground it continues to be sweet, tender and juicy. All my customers prefer them to the Detroit or Egyptian."

None Better for the Home Garden

The all important feature that recommends this valuable beet for the home garden is its wonderful productiveness, ease of cultivation and its wonderful adaptation to producing fine flavored beets for the Spring, Summer, Autumn and Winter keeping qualities. The stringy or woody nature so noticeable in some varieties is entirely absent in this wonderful universal variety. Regarded by many as the most satisfactory early beet grown.

Plant it for early.
Plant it for second early.
Plant it for summer.
Plant it for fall.
Plant it for winter.
Pkt. 10c., oz. 30c., ½ lb. 85c., lb. $1.00.
BEETS—Continued

LUMP OF SUGAR
Early? Yes! It will mature fine specimens in 40 days from sowing. A prolific market gardener. A great acquisition. Color outlasts deep blood and light red alternates. The beets are bright and clean when cooked, fine grained and unsurpassed in quality. It continues to grow till late in the fall, attaining a large size, and making a good selling and eating beet for winter. Everybody who has tried it will want it a second time on account of its tender and sweet sugar flavor. It is a great money-maker, as its fine shape and size bring for it excellent prices wherever offered. Everybody is pleased with it. It matures friends everywhere. Its flavor is superb and the beet is never found wanting. Indeed, our Lump of Sugar is among the best of all for the family garden. They never get tough, unless stored improperly. It is always sweet as a Jamaica rum ball. A perfect beet for sowing for spring, summer and fall crops. It will never disappoint you, M. Market Gardener. Oz. 10c., 1 lb. 50c., lb. $1.75.

Strasburg Dark Blood Half Long
We have obtained our stock of this famous excellent sort from the originator, Mr. Johan Guza, one of France's most successful market gardeners. The shape is medium, but long, nicely shouldered and tapering gradually. It is very sweet, satisfactorily growing and a good keeper. Market gardeners will find it the best and most profitable half-long sort to grow. Pkt. 5c., oz. 25c., 1 lb. 60c., lb. $1.25, 5 lbs. $6.00.

SPECIALY GROWN FOR FEEDING PEDIOORE STOCK

Silver Asparagus Beet. This is a most delicious vegetable, with a very delicate flavor and slightly acidulous taste. The stalks and midriffs are cooked and eaten the same as asparagus, while the young leaves are cooked and eaten as baby spinach. They contain a most excellent stock of vitamins. It is as good as common spinach. It is a great favorite in England, France and Germany, where it is found in almost every garden. The culture is the same as ordinary beets. Plants should be thinned to 10 inches in the row. We earnestly recommend all our customers to grow this delicious vegetable. Pkt. 10c., oz. 25c., 1 lb. 75c., lb. $2.50.

Swiss Chard. Sometimes called spinach beet. Pkt. 5c., oz. 20c., 1 lb. 60c., lb. $2.00.

Moore's Superior Sugar Beets and Mangel Wurzels

In our opinion no crop is a better paying investment for farmers to grow than Mangel Wurzel Beets. The value of these for stock feeding cannot be over-estimated. The results from their use are wonderful, as is clearly shown in the improved health and condition of animals, the increased yield of milk in cows, and the great saving of hay. They can be raised at a very trifling cost and our selected seed will yield immense crops per acre. Certain wealth and prosperity is assured all stock or dairy farmers who feed the beet. Beets are a valuable food to give blood to during the winter. Beets in connection with grain keep the animals healthy, the hair glossy and the system cool. Fattening hogs like them as a change from corn and they keep the appetite up well. It is difficult to obtain a full yield of milk in winter without succulent feed, and mangels supply this to the dairy cow in a palatable form. Mangels help push the calves along during the winter. Plant an acre this spring.

New England Milk and Butter Sugar Mangel. The feeding of this variety will increase your dairy profits from 25 to 50 per cent. It contains less water and more sugar and nutritive matter than any other mangel. In England, where it is considered indispensable for dairy farming, large dairy farmers state that they are not only able to obtain a higher price per gallon for milk from cows fed on this mangel, but also that the cows produce fully one third more milk and better and are in much better condition fed on hay and the Milk and Butter Mangel, than if fed on hay alone. The largest yield of cattle food ever known has been obtained from this variety. Chemical tests show it to contain 20 per cent. sugar, while other sorts only analyze from 12 to 14 per cent. It is a compact grower, and if ground be well fertilized, this variety will stand closer cultivation than any other. The root and top is red and very smooth. Oz. 15c., 1 lb. 30c., lb. $1.00, 5 lbs. enough for one acre.

Danish Long-keeping Sugar Mangel. The flesh is deep golden yellow and is of high fattening value as well. Sheep and most stock have a preference for it over other varieties. It is the longest and best keeping of all mangels. The root will keep in perfect condition until June. The yield per acre under best cultivation is extremely enormous. It is especially suitable for calcareous soils. Oz. 10c., 1 lb. 30c., lb. $1.00.

SUTTON'S CHAMPION COLOSSAL LONG RED. Oz. 10c., 1 lb. 25c., lb. 30c.,
NEW LONG GIANT GOLDEN. 1 lb. 30c., 1 lb. $1.00, 5 lbs. $4.75.
CHICK CASTLE LONG RED. A very heavy grower, frequently producing 40 to 50 tons to the acre. Oz. 10c., 1 lb. 30c., 1 lb. $1.00, 5 lbs. $4.75.
LONG RED MANGEL. Oz. 10c., 1 lb. 25c., 1 lb. 50c.,
MAMMOTH RED GLOBE. Excellent for shallow soils. Oz. 10c., 1 lb. 25c., 1 lb. 50c., 5 lbs. $3.25.
GOLDEN TANKARD MANGEL. Hardy, and maturing earlier than other large sorts. Oz. 10c., 1 lb. 25c., 1 lb. 50c., 5 lbs. $4.25.

New Mammoth White Red Top Sugar. Wonderfully productive, very rich in food value, very nutritious. An enormous yielder. 50 tons per acre being an average yield. Oz. 10c., 1 lb. 30c., 1 lb. $1.00, 5 lbs. $4.75.

Mammoth Red Pancake Mangel. Valuable for or stiff, clayey soils. Grows entirely upon the surface. Highly esteemed in Germany. Oz. 10c., 1 lb. 30c., lb. $1.00.

BRUSSELS SPROUTS

Veitch's Flamed Favorite. Produces a very early crop of large, solid sprouts, delicious in flavor. Leaves small, crumpled, pale green in color, standing well out from the stem. Energetically productive and a sure header. The finest of all sorts. Especially grown for market gardeners. Pkt. 10c., oz. 35c., 1/2 lb. 60c., lb. $1.00.
SUTTON'S MATCHLESS. Pkt. 10c., oz. 35c., 1/2 lb. 60c., lb. $3.00.

Sutton's Snow-White. This valuable new sort is a decided acquisition. The immense large, close, snow-white heads are of splendid purity, alike valuable for a spring or fall crop and a sure cropper where cauliflowers are uncertain. Those who grow for market will find this variety unusually profitable to cultivate. Pkt. 5c., oz. 75c., lb. $2.50, 1 lb. $9.00, lb. $35.00.

EXTRA EARLY WHITE CAPE. Heads medium size close, of creamy white color. Pkt. 20c., oz. $2.00.
New Early Gem Cabbage

The Best First Early Cabbage

Procured only from

THE MOORE SEED CO., Philadelphia

A valuable new acquisition for all who grow early cabbage. Earliest hard heading cabbage known. A great boon to the market gardener.

All who plant EARLY CABBAGE should plant this. It means big money to all who plant it.

It has taken us ten years of hard, continuous labor to produce and perfect the New Early Gem Cabbage, which foregoes extreme earliness and hardiness of head, is the peer of early sorts. Everywhere cabbage is grown practically every grower has been struggling to combine a hard head with earliness and it must be conceded that until now all these efforts have failed and that the great desideratum has been left to us to accomplish. We feel confident that at last a truly valuable variety has been produced which combines extreme earliness with hardiness and good size. It has a delicious flavor, tenderness, sweetness and productiveness. This is another valuable feature which it possesses and should be taken into consideration by all, viz.: Its compactness of growth. Notwithstanding the large size of its head, the leaves are very few, small and set close to the head. So compact is its growth that 14,920 heads can be grown on any good ground sufficiently fertilized. This is a very unique feature, and it is the plant that produces a fine, hard head. We can recommend it to the market gardener, trucker and private planter, as it is a perfect first early cabbage in every respect. All are safe in planting it, and we especially recommend it to southern growers.

Pkt. 10c., 3 pkts. 25c., oz. 50c., lb. $1.15, lb. $5.50.

Boston Early Hard Head. No One Should Miss Planting This. This variety greatly equals Jersey Wakefield in earliness, and forming very much larger head. It is a very distinct type of cabbage and highly praised by hundreds of the market gardeners all over the country. Very uniform in shape and general appearance, fine grained, small short stump, with few loose leaves, thus allowing them to be set out near together; it also has a very valuable quality of remaining hard and tender, after full maturity, without cracking or bursting. It is likewise an excellent sort for winter, and is probably the heaviest of all the cabbages cultivated. It makes a fine basket cabbage. Try it. Pkt. 10c., oz. 50c., 1 lb. $1.00, lb. $3.50.

Moore's Selected Beauty Wakefield. This is the best type of strain is universally conceded to be the best type of Early Wakefield, which is the result of careful cultivation. The heads are remarkably hard, outer foliage small, and capable of being planted very close, and will mature all at once. It has always been our aim to have the very finest strain of this important variety and it pleases us greatly to have at last found one for our Market Garden friends and we hope they will avail themselves of the opportunity to get our extra stock of this valuable early variety. Pkt. 10c., 3 pkts. 25c., oz. 50c., 1 lb. $1.50, lb. $5.50.

New Early Copenhagen Market. It is undoubtedly without a rival as the finest large round headed early Cabbage in cultivation. The type is thoroughly fixed, the heads maturing all at the same time and being a great consideration to Market Gardeners, entailing less labor in harvesting the crop and allows the ground to be utilized at the first cutting. The heads average about ten pounds each in weight and of fine quality, and it may be stated as an early variety of the Early Oz-Heart or Charleston Wakefield, and will give a much heavier yield per acre than that popular variety. The plant is short-stemmed, the heads being perfect and of good size. The leaves are light green, rather small, saucer shaped, and always tightly folded. The plants, therefore, can be set closer than is usual with varieties of similar size. We have a fine stock of seed (all grown in Pennsylvania), which is very limited. For pkt. 10c., 3 pkts. 25c., oz. 50c., 1 lb. $1.50, lb. $5.50.

Large Early Oz-Heart. For many years past the true type of this valuable variety has not been offered by any American seedsmen. We are proud to say that we are now enabled to offer to our patrons the true type of this famous and valuable old sort. We pronounce it the very best early Oz-Heart Cabbage in existence. The heads are nearly twice as large as the Early Jersey Wakefield, often weighing fifteen pounds, and nearly as solid as our Boston Early Head, and of very compact growth. It also stands the cold better than many other sorts. Very few outer leaves, thus admitting of cabbages being marketed as early as January. It is also known as Early Oz-Heart or Charleston Wakefield, and will give a much heavier yield per acre than that popular variety. It is adapted to thin, light soils. This is a great acquisition, as every cabbage grower will at once recognize. Pkt. 10c., 3 pkts. 25c., oz. 50c., 1 lb. $1.50, lb. $5.50.

CHARLESTON LARGE EARLY WAKEFIELD. The uniformity and trueness of our strain is appreciated by all who use it. Pkt. 10c., oz. 40c., 1 lb. $1.35, lb. $5.00.

EARLY JERSEY WAKEFIELD. Our stock is well selected and has no equal. Pkt. 5c., oz. 10c., 1 lb. $1.25, lb. $5.00.

PHILADELPHIA EARLY WINNINGSTADT. Much superior to imported seed. Solid heads, with short stems. Pkt. 5c., oz. 10c., 1 lb. $1.25, lb. $5.00.

HENDERSON'S SUCCESSION. (True stock.) Our stock is unusually fine. Pkt. 10c., oz. 40c., 1 lb. $1.35, lb. $5.00.

PROOF OF QUALITY

"I used your cabbage seed for the first time last year. The Model Summer Cabbage was simply great, hundreds of heads weighing 15 and 20 pounds, and one that I putted a little for show purposes weighed 25 pounds. It will hold up in good condition twice as long as Early Success or Early Flat Dutch." - A. M. WARD, Gloucester Co., N. Y.

"I have been growing your New Early Gem Cabbage for over fifteen years. I have always found it to be the most profitable extra early cabbage I can get. It has never failed me, and it is a trade winner and a money maker." - ORLANDO S. JOHNSON, Pittsburg, Pa.
MOORE'S EARLY STONEHEAD CABBAGE (12000 HEADS) The best Cabbage Novelty in the last 10 years.

A highly interesting and valuable novelty for all who grow cabbage for home use or market or for long-distance shipping. We highly recommend it to all Southern cabbage growers. This superb new cabbage has created a veritable sensation wherever grown. It outyields and outsells any other early or second early flathead cabbage ever produced. Thousands say it is the best cabbage ever grown either for early, second early or late. It is justly said to be the most celebrated cabbage ever introduced. Moore's New Early Stonehead receives nothing but the most enthusiastic and highest praise from all who grow it, no matter where, North, South, East or West. It is the earliest flathead cabbage ever produced. 1000 pounds per acre is not an unusual yield. Moore's New Early Stonehead Cabbage will surely please all who plant it. A good distinct type all by itself. An early, very hard heading variety maturing from three to five days later than our Early Oxheart. Somewhat flat to globe shaped, small rubbed leaves, small, very close and of fine, delicate texture; can be planted very close, about 20 inches in the row. A money maker for market gardeners, and very suitable for the home garden. Heads medium size, heavy and hard—solid as a stone—our customers say. It is a sure solid header, always produces a crop, the heads though hard never burst. The superb hard heads are excellent for making sauerkraut, and owing to their great solidity keep well when stored for winter use. A fine type for selling in baskets. It is now extensively grown in all parts of the country and is universally pronounced a great success. Pkt. 10c., oz. 50c., 1 lb. $1.75, 10 lb. $6.50.

C. L. Wrigley, Harrisburg, Pa., writes: "I have been growing cabbage for 20 years and find nothing to equal Moore's Early Stonehead. It is great."

MOORE'S NEW EARLY STONEHEAD CABBAGE

The UNIVERSAL CABBAGE, NOWHERE IN THE WORLD WILL YOU FIND AS GOOD A CABBAGE AS

MOORE'S EARLY STONEHEAD

ALWAYS TRUE TO NAME

GENTLEMEN—I have been planting your cabbage seed for eight years and they have never failed to produce good crops under favorable conditions. Have always found them true to name and of high germinating qualities, and I have been especially pleased with your cabbage seed, which gave me a bumper crop this season. In ten acres I don't think there were more than twenty-five heads that went to seed. They proved far superior to seed bought elsewhere. Would not hesitate to recommend them to truck growers anywhere. Wishing you continued success, I remain, Yours very truly,

DAVID P. CURTIN, Syracuse, N. Y.

FINEST EVER SEEN

"My Moore's Early Cabbage Head Lettuce is the finest ever seen here." E. LEE, Box 43, Florida.

MADE BIG MONEY

"I have made big money every year by planting Moore's Early Stonehead Cabbage. Had in over five acres last year and seven acres this." THOS. S. MYERS, Madison, Wis.
MOORE'S ALLHEAD EARLY CABBAGE

The deep flat heads are remarkably solid and the most robust in color, form and size of any variety. The hard heads grow so free from spreading leaves that fully one thousand more heads than usually with large cabbage in color, can be obtained to the acre. It is a really tall-year-round cabbage, being equally good for winter. If planters everywhere only knew the excellence of Moore's Allhead Early Cabbage, even our large supply of this variety cannot be expected to meet the demand. It is undoubtedly the largest and finest variety yet introduced, being double the size with no tendency to run to seed or drop the leaves during hot summer days. We say, without exaggeration, that it is the finest in existence to-day, and for summer use it has no equal. It is the cabbage in every respect for the market gardener or private planter, being large in size, handsome in color and of the finest quality. To August 10th, and in ten of counties, our variety of summer cabbages have for many years been the acknowledged standard of excellence by every one. It will hold up in good condition longer than Early Drumhead or Early Flat Dutch. For compact growth and solidity and fine quality, it is without a peer; and as Mr. William S. Lippincott, of Morton, Pa., writes us: "It is the most rapid selling and satisfactory cabbage I ever gave." Pkt. 10c., 3 pkts. 25c., 1 lb. $1.25, 1 lb. $4.00, postpaid.

NEW MODEL SUMMER CABBAGE

The grandest large heading summer cabbage in existence. In the illustrations we display what we consider—as well as all those whom we sold it to last year—the finest type of seed for cabbage in existence. Summer crop or early fall or winter use. You will miss a wonderfully good thing if you don't plant it. We classify it as a medium sized, good compact heads or our Early Stonehead, much superior as a summer sort to succession, being double the size with no tendency to run to seed or drop the leaves during hot summer days. We say, without exaggeration, that it is the finest in existence to-day, and for summer use it has no equal. It is the cabbage in every respect for the market gardener or private planter, being large in size, handsome in color and of the finest quality. To August 10th, and in ten of counties, our variety of summer cabbages have for many years been the acknowledged standard of excellence by every one. It will hold up in good condition longer than Early Drumhead or Early Flat Dutch. For compact growth and solidity and fine quality, it is without a peer; and as Mr. William S. Lippincott, of Morton, Pa., writes us: "It is the most rapid selling and satisfactory cabbage I ever gave." Pkt. 10c., 3 pkts. 25c., 1 lb. $1.25, 1 lb. $4.00, postpaid.

NEW RUSSIAN ROUND GIANT

THE LARGEST HARD-HEADING CABBAGE IN CULTIVATION. SURE TO HEAD

This famous new cabbage was first introduced by us from Russia many years ago, where it is the most popular cabbage for winter eating. It is grown in Russia, and it is unsurpassed, and it well deserves the name Round Giant, for never before have we seen any cabbage that produces such uniformly large, solid heads, or any very large cabbage, in which the heads were so hard and solid. The New Russian Round Giant is uniformly true to type and sure to head hard—"solid as a rock"—and we recommend it to all our market gardeners. We know that our friends have found this cabbage as being a distinct winter cabbage, sure to please. It is an easy matter to grow this cabbage in good locations, and we offer only seed of the finest quality. From repeated trials, as well as from the experience of many customers, we are convinced that this strain surpasses in even growth and heading, as well as in uniform size and solidity of head, all other cabbages so-called of other strains. The large heads are nearly round in form, very hard, and solid; they keep in finest condition when buried through the winter and come out solid in spring. Pkt. 10c., oz. 45c., 1 lb. $1.25, lb. $4.50.

NEVER SAW ANYTHING LIKE IT

A. J. Linde, Astoria, Long Island, writes: "I have grown round cabbage for twenty-two years, yet I never saw anything like the New Russian Round Giant I received from you. Not a plant missed making very large, solid, tender and handsome in appearance. My entire crop of 47,000 heads rated as extra fancy and returned me $2.40 per hundred above regular good stock. Enclosed and money order for four pounds more."

LARGE DARK RED DANISH

(Danish Round Red). We enthusiastically pronounce this the best of all late Red Cabbage-producing cabbages of any type. It is a rich, deep red color, which extends to the centre of the head, and the best of all late sorts for market. Many of the heads average eleven pounds each, it also keeps longer than any other red variety, and never fails to head, and of course compact growth. Either for pickling or table use there is no variety to equal it for slaws, salads, etc. Cabbage growers will find this a very profitable sort for any market, and it is sure to head hard and go good red cabbage. Our seed is grown for us by a celebrated Danish market gardener, and will give the greatest satisfaction to all. Pkt. 10c., 3 pkts. 25c., oz. 55c., 1 lb. $1.60, lb. $5.75.

RED ROCK. An old American variety. Not so large nor solid as our Large Dark Red Danish Ballhead. Pkt. 10c., oz. 55c., 1 lb. $1.60, lb. $5.75.

BRUNSWICK NETTED SAVOY. The Hardest Heading, and Best Variety for Early or Late Crop. Heads large, very compact, solid and deliciously tender and sweet, and well adapted for either early summer or autumn winter and crock. Entire "pits" of it will keep in perfect condition until May. Wholesomeness, Pa., writes: "I have grown all the advertised kinds of Savoys, but found no other half so good a keeper, it being in good market condition on the 15th of May. It hardens tough heads as hard as a rock, standing late frost in the field better than the Lee or Marvin strains. Its rich, sweet flavor of surpassing excellence and firm, early, netted hook, causes it to outsell all other varieties. Equally valuable for canning. Very quick to develop. Pkt. 10c., 3 pkts. 25c., oz. 45c., 1 lb. $1.40, lb. $5.00.

Market Gardeners will know how difficult it is to get a good and satisfactory strain of Savoy Cabbage. You will have no trouble whatever if you buy our Brunswick Netted Savoy Seed.

SUREHEAD CABBAGE

We are headquarters for this famous cabbage which was first introduced in 1877, and our stock is as good as it ever was. It produces large round flattened heads of the Flat Dutch type, and is remarkable for its certainty to head. The heads are remarkably uniform, hard, fine in texture, 15 pounds only will fill 10 to 12 washers and little or no loose leaves. It is excellent for feeding to cows or pigs, and as a. The heads are vitamin rich. The heads are vitamin rich. For sale to farmers and gardeners, we have a very good stock of the Surehead variety. The Surehead cabbage is a very good variety for feeding to cows or pigs, and as a stock feed to cattle.
THE WORLD'S BEST CABBAGE SEED

IS GROWN BY AND CAN ONLY BE HAD FROM US

New Royal Danish Ball Head Cabbage

Procurable only from The Moore Seed Company, Philadelphia.

The True Danish Round Head Type. It is the best of all the Danish Cabbage. Early, hard headed, solid, and the best keeper of all. Always commands a higher price than any other type of Danish Cabbage. 40,000 pounds per acre is no unusual yield. The magnificent heads are nearly round, very hard and solid, and the best keeper of all the types of Danish or Holland Cabbage. A very robust grower, close outer foliage, never rots or blights in the field, and about two weeks earlier and shorter stem than the old type. The heads when trimmed a are of a beautiful, attractive, yellow-white. Pkt. 10c., oz. 35c., 1 lb. $1.00, 10lb. $8.50.

The Best Cabbage in New York State.—Gentlemen:—I am both a grower and a shipper of cabbage. I planted 23 acres of your New Royal Danish Ball Head, and all who saw it, asked for the round of the Haines' Perfection Round Head Cabbage in New York State. My crop averaged 185 lbs. per acre, and I did not lose one head from rot or blight. —S. J. Thomas, Ontario, N. Y.

The Earliest to Maturity.—I planted three kinds of cabbage, one being our new Haines' Late Beauty Ball Head, which was ready to cut within twelve weeks before the other. For solidity and long keeping it beats anything in my twenty years' experience.

Dealers Always Prefer It.—In answer to your inquiry, I find my customers decidedly prefer your Royal Ball Head, which is due to its great tenderness and delicate, sweet flavor. The heads remain firm and the leaves retain their crispness longer than the German Export, all Danish Round Headed Cabbage. A. L. Gage, New York City.

James Cusick, Annapolis, O.

Haines’ Perfection Late Beauty

1. It is the finest heading American variety of cabbage.
2. It is known to flourish on all soils, north, south, east or west.
3. It is the best for home gardens than any other American late sort.
4. It is almost proof against the destructive cabbage worm.
5. It is the best winter keeper for the smaller sizes.
6. It is the best to grow for home market.
7. It will produce the greatest money value per acre.
8. It is the best for the family garden.
9. It is the best to sell by the 100 heads or carload.
10. It is the best for drying.
11. It is sure to head solid.
12. It makes a crop where other sorts fail.
13. It is worth many times the price we ask for it.
14. It is the best American variety for making fine quality sauer kraut.
15. It is sure to please everybody.

Our attention was first called to this new late cabbage by the report of Mr. D. A. Haines, of Burlington Co., N. J., who found the variety kept in his own family and occasionally sold a little to his friends at $1.00 per 100. Many of those who grow it call it the “Greasy Head,” owing to the peculiar dark, smooth, oily appearance of its outer leaves. This feature renders it quite free from the attack of the cabbage worm. This feature alone is of incalculable value to all who plant it. Our seed stock, being obtained direct from Mr. Haines, can be relied upon as being absolutely pure.

Champion’s Late Flat Dutch Cabbage

We know this to be the finest strain of Late Flat Dutch Cabbage Seed ever offered. It is all head, always sure to head, and will produce a greater weight of cabbage from a given space than any other Late Flat Dutch or Drumhead sort. The heads have scarcely any outer leaves, are remarkably uniform, solid, of fine texture, have a short stem, and usually weigh from ten to thirteen pounds. It is very sweet flavored, keeps well, is an excellent shipper, withstands drought well and is without doubt the finest Late Flat Dutch Cabbage for the Market Gardener and Consumer that we ever saw during our thirty years’ experience. No variety of Late Flat Dutch can approach it for fine quality and uniform reliability to produce solid, firm heads of good size during the most unfavorable weather. Pkt. 10c., 3 pkts. 25c., 100 pkts. $5.00.

The Cabbage Worms Passed It By

John Smoot, Selby, Fla., writes:—“I am much pleased with your Haines’ Cabbage, while the worms here are very bad, they seemed to pass by it, while two other kinds I had were completely ruined by them.”

Got Big Dividends

Benjamin Teller, Richmond, Va., writes:—“I certainly got big dividends on the Haines’ Cabbage. Last year I bought a seed of this variety and made lots of money on it. Keep me ten pounds for my spring order; have made up a club to supply Sacramento, Cal.”

Killed Fine and Made Lots of Money

“2. I must say that I did it on a fine condition in May, and made lots of money on it. Keep me ten pounds for my spring order; have made up a club to supply Sacramento, Cal.”
CAULIFLOWER

ITALIAN GIANT EARLY SUREHEAD CAULIFLOWER

Italian Giant Early Surehead is the very best early Cauliflower in culture either for forcing under glass or for outdoor planting, not excepting any variety, and we challenge the world to produce a finer, handsomer, larger or earlier Cauliflower than our Italian Giant Early Surehead. It is remarkable for its extra earliness and certainty to produce fine, large, handsome, pure white, compact, heavy heads of finest quality. Many heads often measure twelve inches in diameter. It is the earliest of all Cauliflowers, and is also among the standard everywhere. Whether for forcing under frames, in greenhouses or open ground it is the surest header in existence—"it is a gem." On account of its very dwarf and compact habit, its short outer leaves it is peculiarly well adapted for forcing during the winter or early spring. Whoever essays to grow this most delicious vegetable, either for home use or market, should plant this variety. Of dwarf, compact habit and short leaves, enables it to be planted very close—20 inches apart each way. This sort has given the very finest results wherever planted, for a late crop. While we originally recommended it for an early crop, we, as well as hundreds of our customers, find it superior to all other sorts for a late or autumn crop. The heads are very compact and deep, closely set and heavy and entirely free from any yellow or purplish tinge, and very white. Thus insuring fancy prices. One grower, of twenty-nine years' experience, says he has "gotten fifty per cent. better satisfaction from it than from any other advertised early sorts." If you grow Cauliflower for home use, home market or to ship long distances, it is surely the best sort for you to plant. Spencer Cummings, Cramer Hill, N. J., writes: "I force four houses 20x100 of your Italian Giant Surehead Cauliflower every winter and find this variety decidedly more profitable than either Snowball or Snowstorm, and I have had both the later sorts from the introducers." Pkt. 25c., double pkt. 50c., 1 oz. $1.00, 1 lb. $5.00.

Moore's Earliest Perfection. One of the earliest and best for forcing. Pkt. 25c., oz. $3.50, 1 lb. $15.50, lb. $77.00.

Selected Early Dwarf Erfurt. Spins in a half leaved dwarf, for open ground, producing pure white heads of fine quality. Pkt. 25c., oz. $2.25, 1 lb. $7.70.

Gilt Edge Early Dwarf Erfurt. Excellent for forcing under glass as well as growing out doors and a great favorite with many critical growers. Produces very large heads. Pkt. 35c., oz. $1.35, lb. $5.50.

Improved Early Snowball. A really fine variety generally. Sure to head. We have the finest indoor strain of this prominent variety. Pkt. 25c., oz. $2.75, 1 lb. $10.00, 1 lb. $5.00.

Champion Dry Weather Cauliflower

This is an entirely new and valuable type of Cauliflower, producing large, solid, heavy, pure white heads a few days later than our famous Italian Giant Early Surehead. On account of it being very deep rooted, which insures abundance of moisture, and having unusually large leaves which furnish good protection to the heads, this sort is found to head perfectly in dry or warm weather. In localities subject to excessive dryness, this variety has produced beautiful large, heavy, tender heads when all other sorts failed. It will thrive anywhere in the United States or Canada. Many of our customers in Texas, Oklahoma and New Mexico write that heads of the finest quality, weighing from 10 to 15 pounds, are not uncommon with them. By the use of our new Dry Weather Strain and our Italian Giant Early Surehead, this delicious vegetable can be had at any season of the year. We may also say it is a grand good sort to plant for fall early. It thrives even better on rich moist soils. In growing any kind of cauliflower it is essential that it be well anchored and well cultivated during the growing season. Don't fail to give it a trial. It will surely please you. Pkt. 25c., double pkt. 50c., 1 oz. 75c., 2 oz. $1.50, oz. $2.50, 1 lb. $11.00, 1 lb. $5.00.

CHERVIL. Plant and uses similar to parsley. Pkt. 5c., oz. 10c., 1 oz. 25c., lb. 50c.

CORN SALAD—FETTICUS or LAMB'S LETTUCE

Large-Seeded Italian Broad-Leaved. (True.) The largest and most productive variety for market. Oz. 10c., 1 lb. 50c., lb. $1.00.

This remarkable variety is easily grown in any garden and combines the following good qualities: viz.: Earliness, size and prolificness. Makes valuable forage for stock. Color of nut is white; large and of rich flavor. Growers of the "peanut" have always found ready sale at remunerative prices for their product. It does not require a rich soil. Plant in April, two inches deep, cultivate same as potatoes. Pkt. 10c., pt. 25c., qt. 40c., postpaid.

COLLARDS. GEORGIA WHITE. Extra quality. Pkt. 25c., oz. 10c., 1 lb. 50c., lb. $1.00.

CRESS, or PEPPER GRASS FINE CURLLED. (Pepper Grass.) Pkt. 5c., 1 lb. 15c., lb. 40c.

Water Cress. One of the most appetizing, delicious flavored of all small salads. It does fairly well in very moist localities, but thrives best in shallow water, on edges of streams, where it grows most luxuriantly. Pkt. 10c., oz. 15c., 1 lb. $1.50, lb. $4.50.
CARROTS—Best Market Sorts

We have exercised the greatest possible care in selecting the best varieties of Carrots, and the careful manner in which the seed has been saved will ensure our customers the most satisfactory results from sowing our Carrot Seed. Market gardeners will derive great satisfaction from sowing our Carrot Seed.

Ox-Heart or Guercane. This intermediate to length between the half-long varieties (such as Danvers) and the short Horn Carrot, but much thicker than the latter, attaining at the top from three to four inches in diameter. Pkt. 5c., oz. 25c., 1 lb. 75c., $1.25.

American Luci Half Long. (See cut.) The color of this variety is a rich shade of orange-red, and in shape and size midway between the Perfection Rubicon and Long Red Surrey. Top small, considering the size of the head, which is smooth, and the skin smoothness; is early; without core, very tender and sweet. Admiredly adapted to either glass or open ground culture; excellent for early or late. Pkt. 5c., oz. 25c., 1 lb. 75c., $1.25.

New Perfection Rubicon or Model Carrot. (See cut.) In this new variety we have an entirely new and distinct American carrot; very symmetrical in shape and of a beautiful, deep golden orange color, without core. The stock is so finely bred, and the carrots have attained such uniform shape, that they are almost exact duplicates of each other. It is earlier than the Danvers; the leaves are smaller and thicker; lower and finer than this well-known sort; it is an excellent variety for growing under glass or outside, at any season of the year. It grows without neck; the crown is hollow; and it grows well under the ground. A vegetable of the utmost importance; its table qualities are unequalled, while its yield is enormous. Neither does it crack open like many other sorts. Pkt. 5c., oz. 30c., 1 lb. 85c., $2.50.

Chantenay. These are a little longer than the French Forcing, being thicker at the shoulder and hence more productive. Pkt. 10c., oz. 25c., 1 lb. 85c., $3.00.

American Red Altringham. A handsome cylindrical-shaped carrot of good size. It is of a rich, dark orange color, grows to a large size, small top, is smooth and the flesh very close in texture, with no core. It is a first-class carrot for all soils, and it is claimed that, under good cultivation, it will yield the greatest weight per acre with the smallest length of roots than any other known. For sowing in the autumn, under glass, it has been no equal. (See cut.) Pkt. 5c., oz. 25c., 1 lb. 75c., $1.00.

Danvers Pointed. A most excellent variety for either field or garden culture; large, symmetrical roots of a deep rich orange color, very straight and, free from roughness. The tops are small, considering the size of the roots. It will be found superior to the Danvers Stump Rooted variety as a market sort, and much more productive. Our customers will find this a very fine type of carrot, Pkt. 10c., oz. 25c., 1 lb. 75c., $2.25.

DANVERS HALF LONG. (Extra Stock.) Very smooth and fine in texture and easily dug. 1 lb. 75c., 1 lb. 85c., $2.60.

Long Red Surrey. A great improvement on the various types of Long Orange Carrot, obtained by a careful selection for successive years of the best-forming and deepest-colored roots; it is better flavored, of a bit is larger, better sized, and more certain to produce a crop than any type of long carrot; flesh very sweet and tender; very productive, and never becomes hard or woody at the heart. The roots grow very regular and smooth; they are of good size, being between six and eight inches and are rooted at the top, tapering gradually from the shoulder to the tip of the roots. In color, shade and size this is the ideal sort for a market gardener's late crop. Pkt. 10c., oz. 25c., 1 lb. 75c., $3.00.

MOORE'S CORELESS. (New.) Absolutely without woody core, delicately flavored root about 6 inches long, fine color, excellent for bunching. Pkt. 10c., oz. 30c., 1 lb. 85c., $1.00.

Reselected Danvers Half Long. (Kreussen's Stock.) Seed grown by a leading Philadelphia market gardener, very smooth, fine in texture, extra dark color, finest quality, best market stock and heaviest yielder. Pkt. 10c., oz. 30c., 1 lb. 100c., $2.00.

French Red Forcing. (See cut.) An excellent dark coreless variety, about 8 inches long, all very small, short top, very sweet and a long time after being fit to pull. Its remarkable rapid growth and very small top render it one of the best and most profitable sorts for sowing under glass during the autumn or early spring. Can be allowed to remain on the ground. Fine trade will pay an extra price for this variety. Pkt. 5c., oz. 45c., 1 lb. $1.25, 1 lb. $1.50.

CARROTS—For Stock Feeding

We rank Carrots as high as hay and grain for feeding live stock. One acre of good carrots equals 50 bushels of oats and an acre will produce from 20 tons up. The stables of the largest and best teams in Philadelphia and other large cities are given a day all winter feed Carrots. Many of our large stock growers and other stock give their stock a glass and add them in digesting grain. Carrots are also of great value in feeding. They are nutritive and contain a lot of iron, which is a benefit to dairymen, in that they greatly increase and prolong the life of their milk. All stock can eat carrots to dairymen, in that they greatly increase and prolong the life of their milk. All stock can eat carrots and have less grain and are of special value for feeding during winter months.

Large Red Belgian. This new variety is undoubtedly the best of all sorts for feeding. This attains the largest size, and will yield more in bulk and keeps better than any other sort grown. Uniformly smooth in form; they are easily harvested. The color is a dark orange; flesh rich, solid, crisp, and upturned. Carrots up to as high as twenty-five tons per acre, is adapted to all soils, and we predict that it will soon become a general favorite as a cattle feed and we pronounce it the best for all sorts for stock feeding. Pkt. 10c., oz. 30c., 1 lb. 85c., $3.00.

New Giant White Australian. This variety is undoubtedly the best for all the white sorts for feeding stock. It attains the largest size, and will yield more in bulk and keeps better than any other white sort grown. Uniformly smooth in form; they are easily harvested. Flesh rich. Pkt. 5c., oz. 25c., 1 lb. 60c., $2.25.

WHITE VOGES. This is a field carrot, and especially sustainable for soils that are not in very deep. Failure.
THOUSANDS of MARKET GARDENERS

Throughout the United States acknowledge our Celeries to be the finest in existence, and use no other

Moore’s Selected Boston Mammoth White Plume Celer——THE PURES AND BEST WHITE PLUME CERY IN THE WORLD

This is an entirely new strain, having originated with a highly successful market gardener near Boston, who sent it to us for introduction. It has now been in our possession for nearly ten years, and we have improved it remarkably by the most careful reselection every year. It is remarkable for its uniformity, as it grows unusually tall and thin. The ribbons are thick, long, straight, remarkably tender, crisp and rich flavored, and possess a beautiful pearly-white color, bitters at known to White Plume. This stock is also absolutely pure, contains no green whatever and will surely give extra satisfaction to all, as it is the finest type of White Plume Cery in the world. Market gardeners who plant it once, plant it always, because it always sells well. Pkt. 10c., oz. 50c., 1 lb. $1.25, lb. $5.00.

SOLD FOR AN EXTRA PRICE

“TI had the finest crop of Boston White Plume Cery last fall from your seed that was ever raised in this section. It was truly beautiful and so acknowledged by even one who saw it; had plenty of stalks, pure white, two feet long, crisp and of elegant flavor. I sold every stalk at an extra price.”

O. R. BANGERMAN, Jersey City, N. J.

MOORE’S NEW SILVER SELF-BLANCING CERY

Combines the grand qualities of the three most popular celeries grown: The sturdy, solid habit of our Californian Mammoth Solid Golden Self-Blanching, the exquisite color and each Boston Plume, and tellingly rich flavor of our Sweet Nut. This grand new celery is easily described as a Golden Self-Blanching plant with White Plume coloring. It possesses the robust, sturdy, compact habit of Golden Self-Blanching, the stalks being even thicker, more solid and heavy, with immense solid hearts and all brittle, crisp and tender, free from string or pithiness, and of delightfully rich flavor. The foliage is tipped and variegated with white, while the heart, inner stalks and leaves are naturally white. It may be easily and quickly blanched by boiling in the usual manner. Its extreme earthliness renders it valuable celery for the market gardener, and it does not “burn out” during hot, dry weather like other sorts. In side-by-side tests with White Plume and Golden Self-Blanching, it outclassed them all in earthiness, flavor, size and solidity of heart, and height of stalk and head, standing usually six inches higher than White Plume. Its foliage is green and white, its stalks are not stringy, tough or bitter, but tender, brittle, very sweet and of a nutty flavor. Leading Philadelphia market gardeners have it on the market June 25th. The seed can be sown sooner than any other sort without running to seed; this alone is a highly valuable feature to the market gardener. It is sure to bring fancy prices. Pkt. 10c., oz. 40c., 1 lb. $1.25, lb. $4.50.

Moore’s New Giant White Arrezzo Cery. We unhesitatingly pro-
nounce this the best and most profitable of all whites for winter use. It is of unusually vigorous, sturdy growth, making immensely thick and heavy stalks and large heavy hearts, all remaining a beautiful light green until blanched by earthing up or being stored for winter. It blanches to a clear white, when the stalks are extremely brittle, entirely stringless and exceedingly crisp and possessing flavor surpassingly rich and nutty. Any market gardener who wishes the best and most profitable winter cery he can get will find it in our Moore’s New Giant White Arrezzo. Pkt. 10c., oz. 35c., 1 lb. $1.00, lb. $3.50.

New Broad-Ribbed or Sweet Nut Cery. The most attractive eating cery ever introduced. It is the sweetest, crispest, tenderest, finest flav-
crared and most solid of all celeries. No other sort equals it in these valuable qualities. Again, it will not burn down in hot weather, and is one of the most important feature, as all celery grows well known. It is a strong, vigorous grower, distinct and handsome in appearance, of an exquisitely beautiful cream white color throughout. It is keeping qualities second to none. We recommend it to the private planter, who requires the highest quality, and to the market gardener, who wants to have his hand-to-mouth, to attain the highest price for his products. Excellent for early or late use. Blanches almost as freely as our famous Boston White Plume. Pkt. 10c., oz. 35c., 1 lb. $1.00, lb. $3.50.

Moore’s Matchless Long-Keeping Golden Heart

A variety of rare merit. The most desirable type of Golden Heart Cery known to the trade. Remarkable for its many long “inside hearts” of the finest golden color. This variety blanches easily, keeps remarkably long in perfect condition. The ribs are unusually solid, firm, crisp, tender and beautiful in appearance. This variety has been produced by careful crossing and high culture between the Dwarf Golden Heart and our White Walnut, by one of the best celery growers in this country. In quality, appearance and size it leaves nothing to be desired. We can recommend it as one of the best late varieties for the market gardener, while its fine flavor and beautiful appearance make it very desirable for private use as well as the market and is held in high esteem among our home gardeners. Pkt. 10c., oz. 35c., 1 lb. $1.00, lb. $3.50.

WINTER KING—Zurrener’s Stock

A strong growing type of golden heart, solid, fine quality and a good winter keeper. Oz. 20c., ½ lb. $1.25, 1 lb. $6.00.

WINTER QUEEN. Failure.

SOUP CERY. For flavoring. Oz. 10c., 1 lb. 25c., 1 lb. 75c.

IMPROVED GIANT PANCHAL. Very fine stock. Oz. 40c., 1 lb. $1.25, lb. $4.00.

Easy Blanching Cery. The stalks are tender, spicy and very attractive in appearance. Excellent growth and a fine winter keeper. Pkt. 10c., oz. $1.25, ½ lb. $5.50, 1 lb. $20.00.

Celeriac, or Turnip-Rooted Cery. WE PLUS ULTRA. Best market sort. Very large and smooth globular-shaped roots. The most profitable sort to grow. Pkt. 10c., oz. 50c., 1 lb. $1.25, 1 lb. $1.50.

PRAGUE. Selected stock. Pkt. 10c., oz. 35c., 1 lb. $1.20, 1 lb. $1.00.
MOORE'S SELECTED MAMMOTH SOLID GOLDEN SELF-BLANCHING CELERY

INVARiABLY BRINGS THE HIGHEST PRICE WHEREVER SOLD

IS THE BEST THAT GROWS

MOORE'S SELECTED MAMMOTH SOLID GOLDEN SELF-BLANCHING CELERY

The verdict of all who grow it is, "It is the best that grows," no matter where it is planted—east, west, north or south. It is the best strain of Golden Self-blanching Celery that grows. It is particularly well adapted to growing on heavy muck lands that have been reclaimed from swamp lands. Florida and Louisiana growers prefer this strain to all others. It is especially valuable to muck land growers, for as far as we know it has shown no disposition to blight, even on land where other golden self-blanching celery could not be grown on this account.

It always grows solid, robust, very crisp and of good flavor. It is less affected with hot, dry weather than other old strains. The stalks are numerous, large, solid and of a remarkably beautiful golden-yellow, and interlaced with numerous inside shoots or hearts of the same handsome yellow color and fine quality. Its beautiful appearance and fine quality always insure the highest market price and quick sales.

Our strain of this is acknowledged by all who plant it—and they are thousands—to be the finest and purest in existence, and far superior to any other. The stalks grow much thicker and taller and more solid than the old ones, and are of a more beautiful and a richer waxy golden-yellow color. Very solid and of a delicious nutty flavor. The beautiful appearance of this strain, which is of strong, vigorous habit, is well shown in the illustration. Our strain contains no green, has an abundance of hearts or inside shoots, it always solid: pithy or spongy stalks are unknown. No strain can surpass it, and ours will give the highest satisfaction to all who grow it. An excellent keeper and shipper. If you grow for home market or shipping you should not fail to plant our seed. It is the best you can get. Those who plant it always get satisfaction.

Wm. Richman, of Bradenton, Fla., sold $3,150.00 of this celery from one acre of ground. Pkt. 15c., 3 for 50c., oz. $1.50, ½ lb. $7.50, 1 lb. $15.00. Crop very short.

GOLDEN SELF-BLANCHING. Imported seed; same strain as offered by other leading seedsmen. Pkt. 10c., oz. 75c., ½ lb. $2.50, 1 lb. $8.00.

Get your Celery Seed from us. We are headquarters for the best.
It is just like coining good money to plant this corn. It is positively the earliest table corn ever introduced. Over 200 carloads of this corn were shipped to New York City alone last season. Big Profits await all who plant it.

Moore's First Early Table Corn. Every market gardener who wishes the earliest table corn of good quality but can not wait to plant this exceedingly valuable sort. In Moore's First Early Corn we have a truly remarkable and profitable extra early variety. It is the earliest table corn ever introduced. It is the hardest of all varieties of corn, and cold, wet weather has little or no effect upon it. On account of its extreme hardness it can and should be planted from two to four weeks earlier than Crosby, Minnesota, Cory, Fremo or any other varieties of sugar corn. We particularly caution our market garden friends to plant it at least two weeks earlier than they usually do their earliest planting of sugar corn, if they would secure all the advantages of this profitable extra early sort. Again, don't fail to plant it early. The stalks grow about five feet high and nearly always have long, corn-shaped, three well developed ears from six to nine inches in length. Leaves small and few will bear very close planting. Ground should be thoroughly well fertilized to secure its wonderful productivity. The grain is deep, white, very tender, sweet and juicy, and its extreme earliness. The ears mature very rapidly and some should be taken to pull the corn white young. It required long and patient care, as well as the expenditure of much money, to develop this variety. We assure our market garden friends not to be afraid to plant plenty of it. It is a great money maker, and you cannot make it easier, better or quicker than by planting Moore's First Early Table Corn. It is ten days earlier than Cory; besides worms do not bother it. There is no other early sort half as good, if any other early sort will make you half the money. Pkt. 10c., qt. 35c., qt. 60c., postpaid; by express or freight, pt. 125c., qt. 40c., 4 qts. $1.75, pk. 25c., qt. $1.00.

REAPED BIG PROFITS. JOHN SEFFERIN, Baltimore, Md., writes: "I myself and five of my neighbors each sent you a club order last year for four bushels of Moore's First Early Corn. We planted it April 1st, commenced harvesting it June 26th, and reaped big profits. The quality was fine. It is miles ahead of Cory, Fremo, Adams, or Burlington. Ears were remarkably large and perfect. You will note we took your advice about planting it early."

Hyde's Earliest Sugar

Our Hyde's Earliest is the best of all the extra early sugar varieties for market. The quality is delicious for the table. The ears are large, from six to eight inches in length, holding ten to twelve rows of beautifully white and unusually large grains. In earliness it follows immediately after our Moore's First Early. Fodder is about five feet high, many stalks yield two or more ears. It is a sure money maker for all who grow it for early market. It is the best variety to plant for a late fall crop. We cannot recommend it too highly to all our market gardeners who wish to have the best quality and earliest money-making sugar corn that can get. It is sure to please all who grow it. Pkt. 10c., pt. 25c., qt. 40c., 4 qts. $1.40, pk. 25c.

Hickman's Extra Early Three-Eared

A remarkably valuable early variety for market, excellent quality, very productive, yielding from two to four bushels of beautiful long ears. Just think of it, three well developed ears of delicious white corn on one stalk. It is a special money maker for any market gardener. This, and our Moore's First Early and Hyde's Earliest will make big money and give big satisfaction to all who plant them either for home, market or shipping. Be sure to plant a peck or a bushel of each. It is the result of many years of careful selection to secure earliness combined with large size, productivity and fine quality by one of the most successful large sugar corn growers in Gloucester County, New Jersey. It is sure to please all who plant it. It is sure to sell at fancy prices. The grain is deep and remains in "ears" a long time. Matures immediately after Hyde's Early. Pkt. 10c., pt. 25c., qt. 45c., 4 qts. $1.75, pk. $3.00.

Seymour's Large Golden Bantam

It is of strong growth, the stalks averaging six feet in height. The ears are from six to seven inches in length, often two to a stalk and of an unusually delicious sweetness and average twelve rows. The grain when ready for use is a rich creamy yellow deepening to orange yellow as it ripens. It is the finest of all pure strains of corn and distinct from all white varieties. While it is especially recommended for the northern states it is desirable also for southern locations, both as a first-crop and as a spring planting. Our selected strain, northern grown seed, and a improvement on the old small-eared type of corn. Pkt. 10c., pt. 25c., qt. 45c., 4 qts. $1.40, pk. 25c.

COUNTRY GENTLEMAN. Fine market sort. Large ears of luscious quality. Pkt. 10c., qt. 50c., pk. $1.25.
Moore's New Snow White Evergreen Sugar.

This is without doubt the most valuable Sugar Corn introduced for many years past. It is white as chalk, white marble in color, very pure and clear. Those who have seen the holling ears say, "I never saw any as white." All the large, handsome ears are filled with very deep thin grains of nearly whiteness and sweeter than any Sugar Corn grown. To see it is to buy it.

The largest Sugar Corn Seed grower in the United States wrote us that there was NO BETTER strain of White Evergreen Corn grown than our Moore's Snow White.

Moore's New Snow White Evergreen

Should be planted by all Market gardeners, canners and all lovers of good sugar corn who will find it to represent the highest ideal—white, sweet, tender, fine quality and productiveness. It is just the corn you have long been waiting for. Ears contain sixteen or more rows of beautiful and delicious deep grains. Two and occasionally three attractive large ears are produced on each stalk. Another valuable feature is the grains retain their tenderness and their sweetness longer than any other late sort. It is profit and satisfaction to all who plant it. It always brings fancy prices. Our seed is limited, and we hope our many thousands of customers will send their orders in early, as we wish every customer to have plenty of this wonderful variety. Generally speaking, those who come first are best served. Pkt. 10c., pt. 30c., qt. 55c., 4 qts. $1.75, pk. $3.25.

Moore's Early Cosmopolitan

Fine second early. Ears 7 to 9 inches long, long deep narrow grain, similar to our Cooper's Early Shoe Peg. The grains are very sweet and tender, an excellent and very profitable market sort. Pkt. 10c., qt. 10c., 4 qts. $1.50, pk. $2.75.

Stowell's Evergreen.

Pkt. 10c., pt. 25c., qt. 40c., pk. $3.00.

New French Honey Sugar.

Promounced by those who grow it, to be the most delicious sugar corn ever grown. It is a strong, vigorous grower and heavy yielder, with white grain of good size; it has 16 to 14 rows, and comes in after the earlier varieties. No stalk has less than two large ears. Just the sort for fine market trade, especially when sold direct to the consumer. Excellent sort for the family garden. We cannot say too much in its praise. Pkt. 10c., pt. 30c., qt. 50c., $1.75, pk. $3.25.

Price's Perfection Early Sugar.

One of the best second early varieties for market, excellent quality, very productive, yielding mostly two beautiful long ears per stalk. It is the result of many years of careful selection to secure earliness combined with large size, productiveness and fine quality. The grain is deep and remains in "milk" a long time. Pkt. 10c., pt. 25c., qt. 40c., 4 qts. $1.50, pk. $2.75, bu. $10.50.

Cooper's Large Early Shoe Peg

We have obtained this delicious sort from Mr. Thomas Cooper, Newport, R. I., who has grown quite wealthy by marketing it to the most critical buyers in Boston and New York. The productiveness of this sort is simply prodigious. When grown on good ground and well suckered, ears of 10 inches in length are often developed. The cob is very small, the grain deep and of rich flavor. Stalks bearing 4 ears are not uncommon. We cannot recommend this sort too highly to all our customers. The ears are just the right market size and is a "milk" for all who grow for summer hotel trade. Pkt. 10c., pt. 30c., qt. 50c., $1.90, pk. $3.75.

Moore's Late Concord, or Main Crop Sugar. It is strictly an evergreen sort; in remaining long in edible condition it ranks with the best, and is admitted to be the most "everlastingly evergreen" of all sweet corn. The ears are of extra large size, mostly 2 to a stalk, grains deep, exceptionally tender and sugary, and have the advantage, as we said above, of remaining longer in the green state than any other. Our stock has been carefully grown and selected. Pkt. 10c., pt. 25c., qt. 50c., 4 qts. $1.50, pk. $2.50, bu. $10.50.

Sweet Corn for Fodder. Cattle highly relish it, and when fed on it keep in fine condition and give an abundance of milk. Prices subject to market changes. Qts. 25c., pk. $1.75, bu. $6.00.

COUNTRY GENTLEMAN. Pkt. 10c., pt. 30c., qt. 50c., pk. $3.75.

HYDE'S EGYPTIAN. (True.) Pkt. 10c., pt. 25c., qt. 40c., pk. $2.50, bu. $10.50.

LATE MAMMOTH. Fine stock. Pkt. 10c., pt. 25c., qt. 50c., pk. $2.50, bu. $10.50.
Field Corn

POOR MAN'S CORN

A NEW 90 DAY VARIETY

YIELDS ENORMOUSLY

60 to 120 BUSHELs PER ACRE

Many of our Market Garden Friends May Need Good Field Corn Seed. You can greatly increase your crops of corn from 20 to 50 per cent, by a judicious change of seed. The latest improved varieties only are the most profitable sorts to grow. We offer you the best.

FOR OTHER SORTS SEE OUR SEED BUYERS' GUIDE.

..Double Your Corn Crop...

ADVANTAGES OF CHANGING SEED CORN

There is perhaps no other crop that we raise that is so much benefited by the introduction of fresh seed from time to time as corn.

To-day the poor man's corn has been so improved that it will yield 40 per cent. more. For many years we have made the varieties of field corn a careful study and through investigation we have seen samples of corn grown in nearly every state in the Union, and personally tested with the object to secure an early maturing variety that would yield the most shelled corn to the acre and at the same time command the highest market prices.

We are confident that we have attained this end in the Kansas Golden King Early Dent Corn from the great Elk Horn Valley, Kansas. It will mature in from 85 to 90 days, and is as vigorous, growing from 6 to 10 feet high without exhausting the soil, and as it roots deeply, it will stand the drought better than any other corn. The yields are shown in the illustration, and far exceed all other varieties, and when dry well selected ears will make a quality of shelled corn. This variety will yield from 10 to 20 bushels more corn to the acre than any other variety and in a better condition. The ears are large in size and its yield is equal to marveleous. From 80 to 140 bushels per acre is not uncommon yield on good land.

Price carefully saved for seed. Pkt. 10c, 3 pks. 25c.

North Dakota Extra Early Prizetaker Dent

This is without doubt the earliest yellow dent corn in cultivation, bright orange color, short leafy stalks growing from 6 to 8 feet high, medium sized ears, small red cobs, long deep grains, very rich in oil and starch, and the most prolific of the earliest sorts.extend. It will make better fodder without being dried down variety and all stock eat it with evident relish. It ripens earlier, dries out cracker, stands out longer and yields better, and will yield many more. Shelled corn than any other extra early. Two and three well developed ears to a stalk is no uncommon thing with this sort. Seventy pounds of corn when shelled weighed 83 pounds leaving the cobs to weigh only 7 pounds. No extra ear yellow dent corn in America can get up to it in earliness and big yields. For the past 10 years it has never failed on account of early frost. It was ahead of frost every time. It will mature as early as Early Yellow Canada and Longfellow Flint. It cannot too strongly urge its merits upon our farmer friends. Price of the Dakota Extra Early Prizetaker Dent Corn is as follows for seed:

Pkt. 15c, 3 pks. 25c, postpaid by mail.

By express or freight, qt. 25c, 4 qts. 75c, pk. $1.00, 1 bu. $1.50, bu. $7.75.
It costs less than 60 cents an acre to use our carefully selected SEED CORN.

Do you deem it wise to risk doubtful corn when GOOD SEED is so cheap?

SEED CORN

Grown, Selected, Cured, Graded and Tested by The Moore Seed Company

WE GROW CORN FOR ALL PURPOSES

The yield of corn on any land can be doubled by the judicious change of Thoroughbred Seed. You must get more bushels per acre than the average or you cannot make a profit. Thirty bushels per acre will not pay. Sixty bushels per acre or more will pay and an average of a hundred bushels if you have the right kind of seed, etc. Many farmers are harvesting more than a hundred bushels of corn per acre and these big yields come from just two causes—inef fective seed and management, or better seed and proper cultivation. Every bushel will pay and very few farmers are so careless in their auditing and shipping that they can make a profit. It is not such a difficult problem as it seems. An acre can contain something more than 13,000 stalks of corn planted three in a hill in the ordinary manner. If every stalk produces a good ear there will be more than a hundred bushels per acre, and here is where the Thoroughbred seed shows its advantage. You need not fear barren stalks if you buy good seed corn, and if you have the right kind of soil, and give proper cultivation, every bushel will pay.

PROSPERITY

The Deepest Grained and Purest Yellow Early Dent Corn in Existence. The Kind That Will Make You Prosperous.

The Greatest Feeding Corn for Cattle Ever Produced. 165 bushels per acre is the record of this corn. It is early, ripening in 80 days, and can be planted in the northern corn belt and compete successfully both in yield and maturity with corn from locally grown seed. Ears are not extra large, but of good size and symmetrical; color a bright golden yellow, as handsome as a twenty-dollar gold coin just from the mint. Grain is deep, cob small, dries out quickly.

It has Color. If you want to get top market prices for yellow corn, just shell a lot of Prosperity with a machine that will clean out broken cobs and trash and you will have a job. So, you want something that seldom appears in the big markets. It has color, it has depth of grain and it will have soundness necessary to pass the closest inspection. Prosperity will ripen and produce good corn in any season, something that cannot be said of most of the large-corned varieties.

Plant it, tend it and study it, and we have confidence to believe that you will agree with us that Early Prosperity Corn is the very best of its type for the farmers of the Southern, Western and Eastern States. It Has Depth of Grain. Seventy pounds of ear corn makes sixty-twow to sixty-five pounds of shelled corn, and in the market it weighs out five bushels more to the wagonload than common varieties in the same size wagon. We have shelled selected ears of this variety which produced sixty bushels of shelled corn and only six pounds of cobs to the bushel. This is an unparalleled record. It cannot be equalled by any other corn in the world.

It Makes The Most Feed. You can readily see that it is the man who feeds the corn on the farm who will get the most value from Prosperity—there is so little waste and the quality is the best. It is a soft grain, very rich and full of oil, and easily digested. There is absolutely as much feeding value in fifty bushels of Prosperity as in a 100 bushels of any other variety.

Primed, 2 Pkts., 25c., by mail, postpaid; qt. 30c., 4 qts. 75c. pk. $1.00. lb. $1.25, bu. $3.75.

The cost of our pure seed is only about 60 cents per acre. One bushel per acre added to your crop will pay for the seed used. But practically all of our varieties are capable of increasing your yield from 20 to 50 bushels per acre. A word to the wise is sufficient.

Iowa Silver King Prize Winner Everywhere

Stalk grows to a height of about seven or eight feet, and sets the ears about three or one-half or four feet from the ground. There are no barren stalks; every ear has an ear, many stalks have two ears or more, and the originator says that has been characteristic every year that he has grown it. Type is very even. Ears measuring from ten to twelve inches in length, and weighing one and one-half or two pounds each, and the originator says that has been characteristic every year that he has grown it. Type is very even. Ears measuring from ten to twelve inches in length, and weighing one and one-half pounds each are found. The ears are very uniform in size and shape, with sixteen to twenty straight rows (usually eighteen rows) of deep, pure white kernels, set on small, white cob, and ears are well filled out over the hips. It is early, maturing in ninety-five days. The cob dries rapidly, so it is ready for market earlier than any other large white field corn. Seventy pounds in the ear will make sixty-two pounds of shelled corn. It is adapted to a wide range of climates. Oats this variety with any other large white field corn we ever offered. It is in every way a distinct type of corn, not a tolerable sort of corn. The Iowa Silver King is a prize winner everywhere.

We have never in our thirty-five years' existence found corn of any kind, white or yellow, that would give a better record under adverse weather and soil conditions, or adapt itself so well to change of locality as does this variety.

Read the astonishing record of a prize contest. It produced 235 bushels per acre in Scott County, Iowa; 211 bushels per acre in Indiana; 201 bushels per acre in Arkansas; 178 bushels per acre in Illinois; 165 bushels per acre in Ohio; 157 bushels per acre in Texas.

If you are looking for corn that will make you money, try Iowa Silver King. Iowa Silver King will meet all requirements. There is no better feeding corn than Silver King. The grain is rich in oil and protein, the kernel is deep, cob small, ears are deep and dry. Silver King will give heavier yields, and of better quality, on light soils, poor soils or sandy soils than any other sort we know of.

PRICES: For high grade extra select seed, pk. 10c., 2 pkts. 25c., by mail, postpaid; qt. 30c., 4 qts. 75c. pk. 1.00. lb. 1.25, bu. 3.75.
Figure it Out for Yourself

It costs but 12 cents for seed for 1 acre, freight included, for any of our improved varieties of corn. 50 acres of Diamond Joe's Big White will make you a yield of 4,000 to 5,000 bushels. 50 acres planted to common varieties will make you 1,500 to 2,000 bushels. Here is a difference of 2,500 to 3,500 bushels or less than a cent per bushel for the increased yield, or a hundred times the cost of the seed. Figure it out for yourself.

Diamond Joe's Big White

This wonderful new variety of white corn was originated and first introduced 4 years ago and is now acknowledged by farmers, planters and corn growers everywhere as the "King of all White Corn." It will thrive in light, thin or sandy land. When we catalogued this corn the first year, although we had about 8,000 bushels of it, our entire stock was exhausted long before the season was over. Since then we have grown it much more extensively, but each succeeding year the demand for it has increased until we have always sold out long before planting time was over. Those who were fortunate enough to secure some of this corn won a prize, and everywhere doubled their yields on light land and without exception were well pleased. In fact it would make one gasp with astonishment to see and read the reports that come to us about the wonderful yields this corn has made on thin or sandy soil. From now on comes a word of disappointment, but all are enthusiastic and loud in praise when husking time comes. "Diamond Joe's Big White" is incomparable with any other white corn we have ever before grown or handled in all our 40 years' experience. It is especially well adapted to old, thin, or sandy land, and on good strong corn ground there is no variety in the world that makes more big bushels of good, sound, well matured corn to the acre. It is absolutely free from barren stalks, every stalk bearing 1 to 3 well developed ears. It is very early to maturity, making itself anywhere in from 80 to 100 days. It will thrive and do well in extreme drought. In short, "Diamond Joe's Big White" is a superior variety of corn from every point of view over any white corn in the world. If you are looking for a white corn that will make you the most bushels and the most money on light land, stop right now and order enough to plant your entire crop. It's the white corn that will do it. Pak. 10c., 3 pkts. 25c., by mail: qt. 30c., 4 qts. 75c., 1 bu. $1.00, 1 bu. $1.85, bu. $3.75, by express or freight.

Long's Droughtproof

A New Yellow Dent Corn

Resists Drought and Scorching better than any other yellow variety. More corn fields have been ruined by the drought and hot sun killing the tassel and pollen this past season than the writer has ever known, and especially is this fact true in the great corn belt. This magnificent new yellow dent corn went on during 6 weeks of growing weather without a drop of rain, and the heat the most severe ever known in this section, and it has made a crop where other sorts failed on account of dry weather. All fields that leaned towards the hot sun burned up. The pollen on these fields was killed, therefore the silk was not fertilized, resulted in no grains on the cob. On the other hand, a large field of this wonderful, strong-growing variety, which leaned toward the sun, kept green and yielded over 100 bushels per acre. We do not hesitate to say that, all points considered—its beautiful color, small cob, long yellow grains, large ears—taking all points combined, it is the finest drought-resistant yellow corn ever introduced, and each customer who gives it a trial will be fully satisfied that it is the best 90 to 100 day corn he ever planted.

Droughtproof Corn is phenomenally excellent, and must be tried by all farmers. It will yield big crops wherever corn can be grown. We advise all our friends to try it.

Pkt. 10c., 3 pkts. 25c., by mail, postpaid; by express or freight. qt. 30c., 4 qts. 75c., pk. $1.00, 1 bu. $1.85, bu. $3.75.
MOORE'S EARLIEST CUCUMBER.

As Planting.

For the early market, and for those who require a really matchless cucumber for shipping long distances, as it holds its beautiful dark green color longer than any White Spine hitherto introduced. Our word for it: Every cucumber grower should plant it. It will yield more money to the acre than any other sort. Pkt. 10c., oz. 15c., 1 lb. 45c., 1 lb. $1.50, 5 lbs. $5.50 postpaid.

Important to the Planter. All our Cucumber Seed is very carefully grown under our own supervision, from very carefully selected stock seed. No two crops of seed are grown in succession on the same ground, thus avoiding all possibility of blight from this source. We also practice this policy in growing all our tomato, melon and potato seed. The careful and intelligent planter will at once realize that this method renders our seeds much more valuable than seeds grown in the usual way by others, and market gardeners, large planters and associations will get none but the very finest quality of this important seed from us, and we prepared to furnish any quantity our largest planters may require.

MATCHLESS WHITE SPINE

(Private Stock)

This private strain we have had over ten years, and it is the most thoroughbred, uniform and shapely variety known among the White Spine type, not only for first early but for general crop as well. To purity it is unequalled. Vines are vigorous growers, heavy and long continuous yielders. Keeps green much longer than the yellow varieties. So robust as to give it in crispness and flavor. Market gardener and shipper knows how difficult it is to secure pure cucumber seed, and as this sort is absolutely without mixture, we are sure it will be quickly appreciated by all critical growers. Selected seed. Pkt. 5c., oz. 15c., 1 lb. 35c., 1 lb. $1.25, 5 lbs. $6.00.

Early Fortune. A good type of early long White Spine. Our stock is very pure. Oz. 10c., 1 lb. 35c., 1 lb. $1.00.

Burrell's Early Klondike. Early, smooth, long and of good deep green color; good shipper, pure stock. Pkt. 5c., oz. 10c., 1 lb. 30c., 1 lb. $1.00, 10 lbs. $9.00. Large buyers of any kind of cucumber will be quoted special prices upon stating quantity wanted.

California Gem. A remarkably fine sort of the White Spine type, offering a great variety, and symmetrical. Its wonderful yield, coupled with the high prices it commands, makes it the most profitable for the grower. A real good thing. Pkt. 10c., 25c., 1 lb. 65c., 1 lb. $9.00.

PEERLESS WHITE SPINE. Heavy cropper. Oz. 10c., 1 lb. 30c., 1 lb. $1.00, 10 lbs. $9.00.

DINNER PLATE. Another remarkable variety of the White Spine type, easy to grow, and of larger size than any other variety of its kind. Pkt. 10c., 1 lb. 35c., 1 lb. $1.50, 5 lbs. $5.50 postpaid.

LONG GREEN TURKEY. Always straight and well formed, they never turn yellow, and critical buyers are willing to pay an extra price on market for these unaccustomed fruits. The originator says it is undoubtedly the finest long-fruited strain in cultivation. Oz. 15c., 1 lb. 35c., 1 lb. $1.25.

DAVIS PERFECT. New. Oz. 15c., 1 lb. 35c., 1 lb. $1.20.

Arlington White Spine. A rich dark green color, averaging seven to eight inches in length. Very fine type. Pkt. 5c., oz. 10c., 1 lb. 30c., 1 lb. $1.00.

EARLY SHORT GREEN. Oz. 10c., 1 lb. 25c., 1 lb. 70c.

Boston Market or Prize-Taker. A great favorite in the Boston market. Immensely productive, fine picking variety. In length it is medium, between the White Spine and Long Green. Very thick through and full at both ends, presenting a beautiful type. An excellent market sort. Pkt. 5c., oz. 15c., 1 lb. 35c., 1 lb. $1.25.

LONG GREEN TURKEY. Always straight and well formed, they never turn yellow, and critical buyers are willing to pay an extra price on market for these unaccustomed fruits. The originator says it is undoubtedly the finest long-fruited strain in cultivation. Oz. 15c., 1 lb. 35c., 1 lb. $1.25.
New Green Fournier Cucumber. A new variety from France, of the highest merit, possessing that rich, dark green color which has been so long sought for but never before obtained. This is truly never green, retaining its color until fully ripe. On sight, its distinct dark green color and smooth skin attracts the attention of every one interested. The fruit sets early and the vigorous vines abound in long, straight, handsome fruits of the most desirable qualities; the flesh being peculiarly crisp and tender and the flavor delicate, highly valued.

Moore's Gladiator Cucumber. This cucumber is the second or early variety and surpasses all others in its class in beauty, delicious flavor, and size. A single plant will often yield fifteen magnificent long, crisp cucumbers, from ten to fifteen inches in length. It is preeminently the finest sort grown for slicing, being very brittle and crisp in all stages of growth. It is a beautiful clear dark green color, very even and smooth and straight. The green cucumbers are firm and stage, the flesh is entirely white, very clear, and crisp, tender and brittle. It is likewise a grand sort for "slicing" or pickling and will always sell any similar sort.

French or CABBAGE. An improved thick-leaved early variety, double the size of our common dandelion. The only sort worth planting. Very profitable to grow for market. Pkt. 10c., oz. 25c., 1 lb. 25c., 1 lb. 50c.

Fennel

Celery-rooted Fennel. Cultivated same as parsley. Thickened parts of the root should be covered with soil, similar to celery. Pkt. 10c., 3 pkts. 25c., oz. 25c., 1 lb. 25c., 1 lb. 75c., 1 lb. 80c.
Superior Varieties of Egg Plant

Our Highly Bred and Critically Selected Types are Superior in Color, Shape, Size and Productiveness, and Unequaled for Home Market or Shipping. Our Varieties are Money Producers.

MOORE'S EARLY BLACK BEAUTY

This is said by many of our customers to be the king of Egg Plants, especially to those who grow for market. It is no less valuable to those who grow for their own table. This is the result of years of careful selection from our well-known New Jersey Improved, which has given such universal satisfaction to the many thousands who have grown it. Moore’s Early Black Beauty is absolutely the most productive and best selling large black fruited Egg Plant grown. The skin is of a beautiful deep lustrous black color and does not turn yellow in transit; flesh very white, tender and of superior quality. The entire plant is spinesless, of a low, stocky branching habit, a continuous producer and very thrifty growth, with no disposition to blight like the older sorts. All say it is a perfect “Beauty.”

No seed saved from diseased plants. Always sure to yield a heavy crop, and very desirable for shipping. Southern market gardeners and shippers will find this variety the very best type of Black Beauty in cultivation. It will average from 10 to 12 fine fruits to the plant. The best variety of Florida planters. Mr. T. Lane Moore, Commissioner, Philadelphia, says: “Your Moore’s Early Black Beauty Egg Plant is the finest marble varieties I have seen this market.” Pkt. 10c., 3 Pkts. 25c., oz. 60c., 1 lb. $1.75, 1 lb. $6.00.

EARLY PURPLE TOKIO (New.)

This grand new sort is from 5 to 8 days earlier than any other large fruited sort. This is a highly valuable feature, besides it is the most productive sort we ever saw. Each plant will yield from 15 to 20 beautiful large fruits a season. It will thrive anywhere an egg plant will grow, and it is being more extensively grown every year. Hundreds of our most successful growers prefer it even to our famous Moore’s Early Black Beauty. It is round, of a handsome purplish black, very few seeds; early; enormously productive and superior quality. We believe it to be the ideal sort for the market gardener and shipper. A good keeper and the best long distance shipper we know of. Pkt. 10c., 3 Pkts. 25c., oz. 60c., 1 lb. $1.75, 1 lb. $6.00.

MARSHALL’S NEW HIGH BUSH

(New; worm proof.) The hot sun does not blight the blossoms, as is the case with some other sorts. It resists drought and bad weather to a wonderful degree, partly on account of its strong upright growth, which effectively prevents grubs and cut worms from boring into the fruit. All the fruits are borne and held high up above the ground. It bears its eggs or fruit sometimes two to four feet above the ground, thus escaping liability to rot in damp or wet weather. Large size, enormously productive and of fine and good quality; ten days later than our Early Purple Tokio. It is especially valuable to all who grow egg plants in the southern states, either for home use or shipping. It is of large size, good shape and no waste of material in slicing, while the flavor cannot be surpassed. It will thrive anywhere an egg plant can be grown. On good land should be planted 4 feet by 6 feet. A grand acquisition. Pkt. 10c., oz. 45c., 1 lb. $1.25, 1 lb. $1.50.

GEORGIA WHITE CABBAGE COLLARDS

The Collard is among the most valuable of vegetables (and the cheapest kind known), growing in any kind of fertile soil and the vegetable is fit for food from a plant 10 inches in height up to a stalk 3 to 5 feet. Then, after the top has been cut off, the young, crisp sprouts springing out from the invincible stalks, are a delicious dish. The Collard is most palatable in winter, especially after a keen frost, and even quite a considerable freeze only renders the flavor more delicate as well as the vegetable itself more wholesome. When properly boiled the winter-cripped leaves may be parboiled, and then made into a superb relish by almost any one. Georgia White Cabbage Collards often grow 3 feet across the top and weigh 15 lbs. Pkt. 5c., oz. 10c., 1 lb. 30c., 1 lb. $1.00.

Chicory, or French Endive

Witloof is used principally as a winter salad, and it is most delicious served with French dressing and eaten like Cos Lettuce. The seed should be sown not later than June in drills twelve to eighteen inches apart, and thinned out to stand three inches. The plants form long, parsnip-shaped roots which are lifted in the fall, trimmed of leaves and stored in soil in a cool place until wanted for forcing. The roots may also be forced in boxes in a warm cellar, in which case they should be set in fine soil two inches apart and with the crowns two inches below the surface. To exclude all light, the box should be covered with another of the same size, and if water is required it should be slightly heated. The roots can also be placed in trenches and blanched like celery. It requires about one month to force the roots.

MAMMOTH ROOTED BRUSSELS. Roots, leaves and stalks very large. Pkt. 10c., oz. 35c., 1 lb. $1.00, 1 lb. $3.25.

LARGE VENETIAN. Leaves large and pithy, colored red, rose and yellow. Highly ornamental, finest quality. Pkt. 10c., oz. 40c., 1 lb. $1.25.
ENLIVE

Moore’s Mammoth Green Curled Italian. Very large, valuable new sort, attained a diameter of twenty-two inches and is especially useful for decorative purposes in displaying oyster and other seafoods. It is the heaviest yielding, easiest blanched, longest keeping, best selling and the most profitable sort to grow for the home market or long distance shipping. It is universally favorite with all who plant or sell it either for home use or market. Every Philadelphia enliver grower says his seed from us. Leaves beautifully curled, tender; of an attractive green color and blanched easily. The centre is very close and full.

USEFUL-\-GOURDS

HORSE RADISH

ORDINARY KIND. Medium size roots, 8 for $0.25, per doz. $2.50, $5.00 per 100, by mail, postpaid. By express, medium size, per 100, 50c., per 1000, $1.00.

MALINER-KREIN or BOHEMIA. Much earlier and said to grow larger, thicker and smoother roots than the old sort. Will produce one-third more to the acre. Skin thin, flesh very white. 50 roots, 30c., 100 75c., 200 $1.40, 500 $3.25, 1000 $6.00. If by mail add 35c. per 100.

NO. 1052.—Japanese Nest Egg. A very superior egg; superior to eggs, as they do not break and are uninjured by cold. It is the rapid climber. Pkt. 5c., oz. 15c.

GOURDS

No. 1053.—Hercules Club. Four feet long. Pkt. 5c., oz. 15c.

No. 1054.—Orange Shaped. (Mock Orange.) Pkt. 5c., oz. 20c.; 1 lb. 50c., 1 lb. 2.50.

No. 1055.—Sugar Trough. Very useful for baskets, dishes, brackets, than the London Flag. Pkt. 5c., oz. 20c., 1 lb. 50c., 1 lb. 2.50.

No. 1057.—Sponge or Dish Rag. [True Chinese Lonka.] Pkt. 5c., oz. 50c.

No. 1059.—Bottle Shaped. Pkt. 5c., oz. 20c.

No. 1051.—Dipper. (Calabash.) Named for its resemblance to a dipper, with handles 8 to 10 inches long. They are convenient for dipping hot liquids, etc. Pkt. 5c., oz. 25c.

No. 1058.—Fine Mixed. Comprising a large collection of the most ornamental and useful, including all the above. Pkt. 5c., 7 pkts. 25c., oz. 20c.

KALE OR BORECOCLE

This popular boiling green for winter and early spring use is being planted more largely each year as a market crop. Shipments from southern states reach northern markets during the winter months in large quantities, and in some sections it is almost as popular as spinach. We have found the following sorts to be the best for market.

Norfolk Green Curled Scotch. (Long Standing.) Beautifully curled, very hardy, immense yielder. The hardest and best for fall and winter market over in northern latitudes; heavy cropper. Pkt. 5c., oz. 15c., 1 lb. 50c., 1 lb. 1.10.

Welsh Curled. Beautifully curled, long plum-like leaves, heavy long continued yielder. If not cut too close to the ground it will yield continuously from spring until winter. Quite hardy; the best and most profitable sort for spring sowing either North or South, enormous cropper. Pkt. 10c., oz. 25c., 1 lb. 75c., 1 lb. 2.50.

DWARF GERMAN GREENS. Not hardy north of Virginia. Pkt. 5c., oz. 25c., 1 lb. 75c., 1 lb. 2.50.

ITALIAN ADRIATIC. Pkt. 10c., oz. 25c., 1 lb. 75c.

KOHl-RABI or Turnip Rooted Cabbage

Earliest Erfurt White. The shortest leaved and best early market variety, being entirely stringless, tender, sweet. The best variety for forcing in frames or outdoor culture. The best and most profitable sort for market either spring or fall. Pkt. 10c., oz. 25c., 1 lb. 75c., 1 lb. 2.50.

SMOOTH WHITE SHORT-LEAVED VIENNA. Not as early as the above. Pkt. 10c., oz. 25c., 1 lb. 75c., 1 lb. 2.50.

SMOOTH PURPLE SHORT-LEAVED VIENNA. Pkt. 10c., oz. 25c., 1 lb. 85c., 1 lb. 2.50.

Market Gardeners will find the above types of Kohl-rabi the finest procurable.

LEEK

Sir Ayton Castle Winter. (New.) The largest and best sort, of exceedingly fine quality and good flavor. The best winter keeper. Pkt. 10c., oz. 25c., 1 lb. 75c., 1 lb. 2.50.

LARGE IMPROVED NEW GIANT ITALIAN. Extra stocky and better rooting than average. Pkt. 10c., 1 lb. 85c., 1 lb. 2.50.

LARGE LONDON FLAG. English grown, true. Pkt. 10c., oz. 25c., 1 lb. 75c., 1 lb. 2.50.

"Your SIR AYTON CASTLE is a grand variety, the finest I have ever seen. Nearly a foot in length and 2 inches in diameter, and will get much larger. It is a good keeper."—Mr. A. Willis, Frankford, Pa.
THE BEST EARLY LETTUCE EVER INTRODUCED.

THE EARLIEST CABBAGE HEAD LETTUCE

MONEY-MAKING LETTUCE

SUPERB VARIETIES FOR HOME MARKET OR SHIPPING. Each One Illustrated

Bigger Crops, Bigger Prices, Bigger Profits Are Assured to All Those Who Plant Moore's Lettuce Seed

MOORE'S EARLY CABBAGE HEAD LETTUCE

A Grand Large Early Cabbage Lettuce. Wins Praise from All Users. Produces Immense Solid White Heads. S. 10 and often 12 inches across. The Ideal Lettuce for first sowing, either under shade, "cotton," or open ground borders. Unsurpassed as an early market variety for either Northern or Southern growers. Very tender and will remain in good condition longer than Big Boston. If you grow early Lettuces to ship long or short distances, it will make you better money than any other sort.

It has required years of careful crossing and selecting to bring us this up to its present high standard. It is in fact the season's lettuce, as the testimonials from some of the leading and largest lettuce growers in the United States show. Whether grown in the open ground for summer or fall use, or in frames for spring or forced in cool greenhouses for winter use, it always gives both the grower and the user the utmost satisfaction, producing during all seasons splendid large white, buttery heads, crisp, tender and sweet. Our illustration shows its heading qualities to perfection. The best of all early sorts for growing in the open ground throughout the north or in Florida, or along the Atlantic and Gulf coasts. Thousands of acres of this valuable variety are now grown throughout the United States for home markets and shipping. Pkt. 10c., oz. 25c., 1 lb. 75c., lb. $3.00. Large buyers will be quoted special prices by stating quantity bought.

READ WHAT THEY SAY:

"It was the finest early lettuce ever grown around here. I wish you success in your business."—C. J. SKINNER, JACKSONVILLE, FLA.

"Your Moore's Early Cabbage Head Lettuce is just fine. $1.99 per cent. pure and I could not get along without it."—W. E. SMITH, BALTIMORE, MD.

MOORE'S EARLY MAY KING. Our many customers will find this our strain of Early May King to be a big improvement over the original type. The plants are of quick growth, practically all head and extremely handsome. From early spring plantings in the open ground they grow quickly to a diameter of six to seven inches with the broad, light-green outer leaves folding closely about the round solid head. In cool weather the edges of these outer leaves are never tinged with brown. The inner leaves (practically the entire head) are blanched to a rich golden yellow and have a splendid fine, rich buttery flavor. The round solid heads are so firmly folded that they can be shipped to distant markets and arrive in good condition. We recommend repeated plantings in the spring, and again during August and September. Pkt. 5c., oz. 15c., 1 lb. 40c., lb. $1.50.

MOORE'S EARLIEST WAYHEAD. Shows a remarkable combination of earliness, firm heading character, handsome appearance and fine quality. Both in cold frames early in the spring and in the open ground—in spring, summer and early fall months—it has proved to be not only the earliest and one of the sweetest heading of all early lettuce, but also of the very finest quality throughout the season. Wayhead is not earlier than Rey King, but the tightly folded heads are generally larger in size. The outer leaves are a very light green, with the inner head finely blanched to a rich buttery yellow and stands a long time before running to seed. Pkt. 10c., oz. 30c., 1 lb. 85c., lb. $3.00.

CALIFORNIA GIANT. Every plant head, and the heads are uniformly shaped, hard and round, and of a solidity equal to that of a cabbage. They measure about ten inches across the solid head. The leaves are slightly crumpled, of a beautiful white color and firm texture. They are passed by any existing variety. It heads very rapidly. A great favorite with Southern growers and market men throughout both North and South. It is especially valuable for open ground culture and for growing under cotton or a late crop under sash. As a shipping sort it is the best carrier of all and always sells for an extra price. Every lettuce grower who plants it will be delighted with it. Be sure to give it a trial on good rich soil. Pkt. 10c., oz. 25c., 1 lb. 50c., lb. $1.75.

MOORE'S NEW ALL HEART. This distinct Cabbage Lettuce is used, as it stands intense heat. It is of a yellowish green color, and forms a solid heart, even before it is half grown, and is of superior flavor. It is also sometimes used for forcing under glass. Pkt. 10c., oz. 20c., 1 lb. 60c., lb. $2.00.

WHITE NORMANDY STONEHEAD

Heath resistant; a sure header; slow to run to seed; not affected by the hottest weather. This superb new variety was sent to us by one of the largest and most successful market gardeners in Normandy, France, where it is grown to the exclusion of almost all other varieties. Normandy is noted for its hot, dry summers. Notwithstanding this, the White Normandy produces large, solid heads during the entire season. The trials we have made of it during the past three years in various parts of the country show it to be a remarkably valuable variety for the United States. The heads are large, firm, very tender, crisp and clear white inside, and of a beautiful shade of light green on the outside. It is well adapted for the summer and autumn crops, and will often produce the finest marketable heads where other varieties fail utterly. It will withstand more cold weather in the open ground than any heading sort known, which not only makes it very valuable for a late fall crop in northern States, but to winter lettuce growers in the South where this cold-resistant nature makes it invaluable. Pkt. 10c., oz. 30c., 1 lb. 85c., lb. $3.00.
**CHAMPION BIG BOSTON LETTUCE**

The King of This Type of Head Lettuce. Immense Heads as Solid as a Cabbage and of Superior Quality.

This magnificent strain of Big Boston Lettuce is the result of a very careful and laborious selection of one of Philadelphia's most successful market gardens. After giving it careful observation and severe tests ourselves, as well as in the largest lettuce growing sections of the United States, we became so well satisfied of its great superiority in all respects over other existing types that we decided to offer it to our market and to the market gardener customers throughout the world. It is for us a true long-distance shipper, and we especially recommend it to all lettuce growers who ship long distances. It seems to have little or no tendency to go to seed, which is a highly valuable feature for all lettuce growers. It will stand longer on the ground and hold up longer after being cut than any type of Big or Boston Lettuce we have ever tried.

It is a grand success, and as one of the latest strains of lettuce to come in this year, it is a very desirable addition to our list of seeds.

Champion Big Boston Lettuce is a hybrid, and it is a monstrous hybrid, which in a view of producing larger heads, with leaves of finer and crispier texture, will stand longer without going to seed, and to have 100 plants produce 10 large, beautiful heads of superior quality.

**NEW TURKISH BUTTER LETTUCE**

The Great Hot Weather Lettuce. Immense Heads—12 to 15 inches across. Blanches Beautifully, is Crisp, Tender, Sweet and Absolutely Free from Bitterness. In short, it is the Acme of Perfection for a Spring and Summer Lettuce. It heads during hot, dry weather, when no other sort will.

Those who like a cabbage lettuce, with rich, buttery leaves of great substance, will be thoroughly well pleased with this new variety from Turkey. Stephen Ridgway has been a leader in the introduction of new lettuce varieties, and of delicious, rich, buttery flavor, crisp, tender and delicious. It is the result of many years' careful selection and improvement by him. It has deep root, resisting hot, dry weather to a remarkable degree. The outer color is a distinct apple green. It is now very extensively grown by the growers of that country in all sections of the United States, and we believe it will receive a great deal of attention on account of its flavor and keeping qualities. It is well adapted to rich, heavy soils, and to very dry, hot weather. It has few outer leaves, and we might appropriately call it the All Head lettuce. It is a very early to cut, and it will stand in cold and seed two weeks after it has headed up. It is much quicker to mature than either Big Boston or Mammoth Salamander. Most people are recommended for family gardens or the market gardener who wishes fancy prices for what he grows. We highly recommend it for its early and large headed planting and the dessert lettuce will never be a better bronzy color from cold. Pkt. 10c., oz. 25c., 1 lb. 60c., 1 lb. $2.25.

**MOORE'S NEW SUMMER GEM**

This is undoubtedly one of the largest heading varieties of all summer lettuces and particularly valuable for summer planting. The heads are large, from 12 to 15 inches across, form up rapidly and arc of a beautiful crisp and juicy flavor. Market gardeners in warm sections write us that it heads up uniformly and is among the most salable lettuces they ever had for summer use. Excellent for private gardens. It should have abundance of water. Don’t fail to try it. Pkt. 5c., oz. 25c., 1 lb. 50c., 1 lb. $1.50.
LETTUCE—HIGH GRADE VARIETIES (Continued)

MOORE'S CALIFORNIA TENNIS BALL LETTUCE

Very Large, Extremely Crisp, Hard Heading and Extra Long Standing

This famous variety from California is the sweetest and hardest heading of all the crisp-headed varieties. It is most highly esteemed for its beautiful appearance and mild flavor during the hot summer months. The plants are of medium size, but produce large, conical heads, which are tightly folded and blanched to a beautiful ivory white. The outer leaves are a light green, finely fringed, and grow up closely about the large conical head. While it is adapted for midsummer, it is very desirable for spring and fall. The plants are of quick growth, attaining a diameter of twelve inches under good cultivation. The unusual solidity of the heads is insured by the large white main ribs of the leaves on which are adapted, curving strongly into the center, acts like a crust, making it impossible for the leaves to open outward and expose the center, which is consequently thoroughly blanched. A good long-distance shipper. Pkt. 10c., oz. 15c., 1 lb. $1.00, 10 lbs. $5.50.

HOPKINS BIG BOSTON. We have a very fine strain of this important variety. (Described as one of our New Champion Big Boston on page 8.) We solicit correspondence from large buyers and associations who plant this important variety. Pkt. 10c., oz. 15c., 1 lb. 40c., 10 lbs. $5.00.

CUT AND COME AGAIN. A very crisp, very sweet and tender variety for sowing thinly in rows. It can be repeatedly cut during the season; excellent for the family table, and for sale by the dozen. Will make large heads if properly thinned. Should be cut about 2 inches from the ground. You will like it. Pkt. 5c., oz. 15c., 1 lb. 40c., 10 lbs. $1.30.

BOSTON WHITE HOT HOUSE

(Rutter's Private Stock.) Early, rapid grower, very solid, compact white tender heads. This extensive grower of hot-house lettuce ships the most solid heading lettuce and realizes higher prices than any other Boston grower. The most reliable and profitable of all sorts for growing in greenhouses. Pkt. 10c., oz. 50c., 1 lb. $2.25, 10 lbs. $5.00.

SPECIAL FORCING GRAND RAPIDS. (Sloan's Stock.) Better color and very compact. Pkt. 10c., oz. 25c., 1 lb. 50c., 10 lbs. $1.75.

NEW FRENCH POULTRY LETTUCE. Probably every poultry raiser or housewife knows how eager poultry are to eat lettuce, how they seem to enjoy it, and when opportunity offers, to actually fight for it. The French and Belgians are said to produce the finest flavored poultry grown, and largely at least, this is due to the great variety of the lettuce which they freely feed their fowls on. After considerable expense and trouble we have succeeded in obtaining some of this valuable variety for our customers. It is a very strong grower, a small plot of ground will yield a prodigious quantity of this lettuce, which contains certain valuable properties both medicinal and food, which make it so valuable to the poultry raiser. All kinds of poultry eat it greedily—chickens, ducks, geese, and geese eat it with great avidity. Freely fed in connection with other foods it keeps them in the best possible physical condition, and greatly increases the egg production, as well as imparting a delicious flavor to the food when cooked. It is a very cheap food, and very easily grown. We recommend sowing it in rows. When 8 or 10 inches high it is ready to feed. Every poultry raiser, large or small, should, if possible, produce his own poultry food, and there is no poultry food he can produce as cheaply as growing our New French Poultry Lettuce. Pkt. 10c., oz. 20c., 1 lb. 10c., 10 lbs. $1.25.

ROMAINCE CELERY—NEW

A GOOD NEW LETTUCE. Very profitable to grow. This new sort produces an unusually snowy white color, and a large compact solid head. Very sweet and tender and is preferred to all other varieties of Cos lettuce. At Paris, where large quantities of it are grown for market, it is known as "Parisian Celery Lettuce." All large cities consume immense quantities of this variety. Grows about 10 inches high, and will blanch without tying. It is the best keeper and carrier. No other sort is worth growing where this can be had. Pkt. 10c., oz. 25c., 1 lb. 75c., 10 lbs. $2.50.

A FEW OF THOUSANDS

"Moore's California Tennis Ball Lettuce" is the best and most profitable sort I ever grew and I have been trading 45 years."—C. A. Myers, Upper Darby, Pa.

"Your Romain Celery Lettuce is far superior to any other sort. It is the best cropper, the best carrier, and the best seller."—SAMUEL DEVINE, Rochester, N. Y.

If you are interested in Poultry it will be to your advantage to ask for a copy of our UNABRIDGED POULTRY SUPPLY CATALOGUE. It is free for the asking.
MUSK MELONS—THE MOST PROFITABLE ONES TO GROW

Important for You to Know. That for many years we have been one of the largest growers of Melon Seeds in the United States, and supply every season over one hundred thousands of truck-gardeners with our superior strains, and ship many thousands of melons to all parts of the country. We have been in the business longer than perhaps any other seed house, and have acquired a large knowledge of the many varieties grown. The melons grown by us are of the highest grade, and are the result of years of patient selection. We are prepared with us for special prices if seed be wanted in large quantities, no matter whether it be 100 pounds or upward of any one variety.

NEW ORDWAY PINK.

No melon grower will make a mistake in planting it. It has a tough, thin rind, ribs covered with a closely laid and interlaced gray netting. Most of a rich golden or a reddish orange, very thick, fine-grained and spicy, not containing too much water or acid; the flavor cannot be excelled. Seed small and triangular. It is an abundant yielder, often producing from 20 to 35 delicious melons to the hill. Shape oblong, averaging six inches long and tapering at the ends. It is an excellent shipper and will carry nearly two weeks without loss. This melon has brought hundreds of growers highly profitable returns. Pkt. 10c., oz. 15c., 1 lb. 30c., 10 lb. $1.25, 50 lb. $5.50 postpaid.

Burrell Gem. This seed is cut from melons of the finest possible selection as to uniformity of size, shape, netting and quality. In fact it is saved with the same care as we exercise in breeding up a new variety. Oz. 10c., ½ lb. 50c., 1 lb. $1.00.

PARKER'S EXTRA EARLY (New)

Earliest of All! Yes it is the Earliest of All Musk Melons, Without Exception.

Our attention was called to this melon by a market gardener at Atlantic City, N. J., who for the past year has always had musk melons from 8 to 10 days ahead of his neighbors and sold readily in market at from $1.25 to $3.50 per basket.

This is the Earliest Musk Melon that we know of. It is nearly round, as may be seen by the cut of good size, weighing about 1½ pounds each. Of a medium color, almost perfectly netted, while inside they are of a rich orange color. We are told by our growers, who have grown the melons and sold the returns, that they have more than doubled the returns obtained from other varieties.

Eden Gem Rocky Ford. The earliest of all the Rocky Fords. This is a wonderfully profitable new melon. It has scored the highest wherever exhibited, over all competitors. It has the heaviest, finest flesh and the smallest seed cavity of all cantaloupes. Our Eden Gumps made their high score on solid white setting, thickness of flesh and large percentage of sugar they contained. The first crate of 'lopes' to arrive at Rocky Ford, Colorado, of crop of 1913-1914, was our Van Buskirk's Eden Gem, and sold for $20.50. There is no trouble to sell them at the fanciest of prices. They are sold when grown. The flesh is extra thick of a beautiful pinkish hue, fading to a delicate apple green. Seed very small. The average yield is over 250 crates per acre of No. 1 shipping melons, fully a third more than other sorts. It is the only blight-resisting cantaloupe ever produced, and the longest keeper. We positively assure our customers that while we grow hundreds of acres of different strains of Rocky Ford Cantaloupes, not a seed is saved from a field showing the slightest trace of rust or blight. We offer two grades of seed of EDEN GEM STOCK SEED. Only the most perfect fruits are cut. Pkt. 10c., oz. 25c., ½ lb. 50c., 1 lb. $1.00 per lb.

MATCHLESS EARLY MUSK MELON.

It is a small melon, weighing 1 to 1½ pounds. The flesh is deep and thick, and light green in color, except next the seeds, where it inclines toward yellow. The flavor is exceedingly fine. The skin is green, regularly ribbed and thickly netted. It is a firm, solid melon, and will carry in perfect condition for a week or more after its removal from the vine. It is a heavy cropper, and is in wide favor with the seashore cropper, who finds it invaluable for the ocean market. Its ability to bear transportation without breaking down has made it one of the most profitable of crops, and explains why it is so eagerly sought after. It is absolutely the earliest of all green-fleshed melons, and we particularly recommend it to all whose profits depend upon being first in market. It is more largely grown in the great melon-producing State of New Jersey than any other sort, with the possible exception of our Parker's Early, and is used in enormous quantities in the Eastern cities and at the seashore resorts. Pkt. 10c., oz. 15c., ½ lb. 30c., 1 lb. 50c., 10 lb. $1.30, 50 lb. $7.50.

MATCHLESS EARLY MUSK MELON.

Paul Rose or Petoskey. Thick salmon-colored flesh. Oz. 10c., ½ lb. 35c., 1 lb. $1.25.

McLearly's Large Jenny Lind. Oz. 15c., ½ lb. 40c., lb. 85c. EXTRA EARLY HACKENSACK. True, very good quality. Oz. 10c., ½ lb. 30c., 1 lb. $1.00.

Red-Fleshed Osage. Fine quality. Oz. 10c., ½ lb. 30c., 1 lb. $1.00.

The Henderson Bush Musk Melon. Pkt. 10c., oz. 35c., ½ lb. $1.10, 1 lb. $5.00.

Sutton's Scarlet Masterpiece. A red-fleshed variety of the most delightful and delicate flavor. A remarkably fine shipping variety. A favorite with growers. Pkt. 5c., oz. 20c., ½ lb. 50c., 1 lb. $1.75.
MOORE’S DELICIOUS GOLD LINED ROCKY FORD

A most delicious green-fleshed Cantaloupe and best selling sort of its type

It is a big money-maker, in the fullest sense of the word, for all who grow it.

The most progressive muskmelon growers of Rocky Ford, Colo., have made a very comfortable fortune in growing this one variety for the Philadelphia, New York and Boston markets, where they sold carloads of this one variety at very high prices on account of its delicious eating qualities. Its shape is ideal, very slightly oval, no ribs and it is heavily netted over the entire melon. The melon is very thick meated, hence it carries well: fine grained and sweet; color green with a beautiful deep yellow gold margin next to the seed cavity. It is of uniform shape, size and very superior quality. Its flesh is attractive and elicits favorable comment when served. Every season we offer from this strain will be from a select melon and hand-seeded. It ripens quite early and many of our customers claim it to be the most productive muskmelon they ever grew. Our seed fields have never shown the slightest trace of rust or other disease. We offer it at a wonderfully low price. Pkt. 10c., oz. 15c., ½ lb. 45c., 1 lb. $1.50.

NEW EARLY HONEY SWEET

A Reliable and Bountiful Yielder, Large, Handsome, Early. Flesh Green, Rich and Sugary. Rought up Well and Keeps Longer Than Other Sorts.

These grow very uniformly in shape and size, weighing about two pounds each, skin green and thickly netted. They are very thick meated, flesh of a light green color, the inside surface, when cut open, being of a beautiful golden green color. In quality and flavor they are superior, being uniformly rich, sugary, and luscious. They are Early, ripening a few days after the Matchless Early. The melons, even if left on the vines a week after they are ripe and ready to pick, still retain their good quality. Pkt. 5c., oz. 15c., ½ lb. 30c., 1 lb. $1.00. 5 lbs. $4.50.

Montreal Green Nutmeg

This variety is largely grown by market gardeners at Montreal, Canada. The fruit is nearly round, slightly flattened at the ends, with a densely netted green skin. The flesh is remarkably thick and of splendid flavor. Selected seed only. Pkt. 5c., oz. 10c., ½ lb. 35c., 1 lb. $1.25.

PERRY’S NEW HOODOO OR COLORADO PINK MEAT

Medium-sized, round, with salmon-colored, very rich, sweet and juicy flesh. This melon is a favorite with the florist, as it is the sort of all others for the home garden. It is slightly pointed at the stem end, and is used for pot plants. The size is about 1½ lbs. each. Pkt. 5c., oz. 25c., ½ lb. 35c., 1 lb. $1.25.

RAPID CITY CANTALOUPES

Large, handsome, beautiful, clean and uniform. The size is about 1½ lbs. each. Pkt. 5c., oz. 25c., ½ lb. 35c., 1 lb. $1.25.

HONEY BURST CANTALOUPES

Large and handsome. The size is about 1½ lbs. each. Pkt. 5c., oz. 25c., ½ lb. 35c., 1 lb. $1.25.

ACME or BALTIMORE. Thick green flesh, oblong, good shipper, free from blemish. Oz. 10c., ½ lb. 25c., 1 lb. 75c.

FORDHOOK

The flesh is very thick, of an attractive deep salmon color and surprisingly sweet to the very rind. The rind, although thin, is unusually firm, so that the fruits carry well to market. It is most vigorous in growth, very early and extremely prolific. The fruits are ready for market fully as early as our Honey Sweet. The vines grow vigorously and each vine sets from 5 to 9 melons in an almost circle around the stem; frequently the fruits touch one another. The melons are remarkably even in size, weighing from 1 lb. 8 oz. to two pounds each. They are always of the handsomest and attractive shape. The FORDHOOK is so "thoroughbred" that there are practically no fruits unfit for market. Pkt. 5c., oz. 10c., ½ lb. 30c., 1 lb. $1.00.
OUR MELONS ARE GROWN EXCLUSIVELY FOR THE SEED
and every melon not true to type and shape is thrown out and destroyed. Every melon under 15 pounds in weight of the smaller varieties and 25 pounds of the larger varieties is thrown out. Not a seed is saved from the small and inferior melons. Not a seed is sold from the crop or shipped by any of our regular watermelon seed growers and are bought in large quantities by other houses at a lower price.

We make a specialty of good, pure watermelon seed of the highest vitality which we grow on new ground under the most favorable conditions. Next to our Tomato seed it is our greatest specialty. Our seed is the best that can be grown, and if you want seed that will produce large, perfect, sweet and salable melons, we have it. If you want to grow watermelons fit to eat and to bring you the highest prices in the market, use our specially selected and carefully grown watermelon seed.

Moore's Selected Watermelon Seed is the Best
Our watermelon seed is used by many of the largest planters in the United States, and we thank our numerous Southern customers for their very liberal patronage.

ARIZONA WONDERFUL
SUGAR WATER MELON

While traveling in the State of Arizona, we found this sort to be almost universally grown on account of its many good qualities. We procured some of the best seed growers and are now able to offer it to our many thousand customers. The melon is of good large size, flesh of a bright red, and of a luscious sweetness. The rind is unusually thin and tough. This variety has attained great popularity wherever known, and the seed is greatly sought after and it will be found a money maker by all our market garden friends. It is highly recommended on one acre. Pkt. 5c., oz. 10c., 1 lb. 20c., 1 lb. $1.00.

NEW EXCEL
THE BIG GROWERS AND SHIPPERS EVERYWHERE ARE PLANTING IT HEAVILY

Weighs from 30 to 60 lbs.; one grower reports 80 lbs. Our seeds are the choicest. A cross between the Tom Watson and Big Blue Gem. It is a handsome long blue melon (see cut) with dark green stripes. The heaviest bearer of all the melons, cuts deep red, a better melon than the Watson, in fact it equals our now famous Shaker Blue in quality. Many predict that it will supplant all other sorts as a shipping melon. No matter where grown it keeps well, looks attractive and possesses an excellent flavor, flesh remarkably sweet and tender. Grows solid, never hollow. The shape is ideal. One of our large Southern growers says: "Your New Excel beats them all, it is the finest I ever saw and I have raised thousands of cans." Medium early. It means a revolution among watermelons everywhere. Genuine seed and we are headquarters for it. Pkt. 10c., oz. 15c., 1 lb. 40c., 1 lb. $1.50. Special quotations on larger quantities.

French Preserving Melon
This is quite distinct and superior to the ordinary preserving citron. It is immensely productive. The flesh is very firm and solid and few seeds. In general appearance it looks very much like the Kleckley Sweets—looks that make it well on sight at the highest price. It is extra early, coming in almost with Seminole, and is one of the earliest medium-large size melons we have ever seen. It is of long shape with an intense dark green color and a splendid skin. Flesh is very fine grained, solid but free from stringiness. Its 10c., oz. 15c., 1 lb. 25c., 1 lb. 35c., 5 lbs. $1.00.

Albama Sweet One of the finest long shipping melons. This new introduction is becoming the most popular among Southern melon growers of all the long shipping varieties, and rightly so. In general appearance it looks very much like the Kleckley Sweets—looks that make it well on sight at the highest price. It is extra early, coming in almost with Seminole, and is one of the earliest medium-large size melons we have ever seen. It is of long shape with an intense dark green color and a splendid skin. Flesh is very fine grained, solid but free from stringiness. Its 10c., oz. 15c., 1 lb. 25c., 1 lb. 35c., 5 lbs. $1.00.

Kleckley Sweets. An immensely popular melon of superb luscious flavor; very desirable for home use and nearly as good for seeds. Flesh bright scarlet with broad solid heart, crisp, juicy, very tender. Seed saved from selected specimens only. Pkt. 5c., oz. 10c., 2 oz. 1c., 1 lb. 25c., 1 lb. 35c., 5 lbs. $1.00.

Turner's Dark Icing, or ICE RIND. Fruits of round or short, deep purplish, very sweet and melting. Juicy popular with New Jersey truckers, as it is said to have the best of flavor in any market. Pkt. 5c., oz. 15c., 1 lb. 25c., 1 lb. $1.25.

Florida Favorite A large oblong melon, with dark green skin, faintly striped with still deeper shade; deep red flesh of excellent flavor. Pkt. 5c., oz. 10c., 1 lb. 25c., 1 lb. 35c., 5 lbs. $2.50.

Blue Gem. The rind is exceptionally strong, making it a good shipper. Quality superior to Kob Gem, larger in size and more attractive in appearance. Very pure stock. Pkt. 10c., oz. 15c., 1 lb. 25c., 1 lb. 35c., 5 lbs. $3.50.

Louisiana Melting Sugar. A large, long, heavy melon, with red skin and flesh. The edible portion extending to within half an inch of the skin; flesh brilliant red, sweet, tender, crystalline, very juicy and altogether quite perfect. A very hard rind, and therefore a good shipper. Pkt. 10c., 1 lb. 20c., 1 lb. $1.00.

EARLY MARKET KING Superior for Long Distance Shipping

THE EARLIEST LARGE MELON EVER GROWN

Notwithstanding the large size of this melon they will readily withstand packing seven layers deep, without injury, in a car; whereas the Blue Gem or any other variety cannot be packed more than five layers deep for long distance shipping, thus fully proving it to be superior to all others as a shipper. Fruit large and heavy (thirty to fifty pounds). A melon large growers need not hesitate to plant largely. This is not only an early watermelon of fine quality, but it is also of large size. From seed planted on the fourth day of May, large, ripe melons were picked July 26th. Its eating qualities superior to all other early sorts, and always commands the highest market price. Pkt. 5c., oz. 10c., 1 lb. 30c., 1 lb. $1.00, 5 lbs. $4.50, 10 lbs. $8.50.
SHAKER BLUE

The New Shipping Melon. This is comparatively a new melon from one of the largest watermelon growing districts in Georgia; it is admitted by all who have seen or handled it to be the coming melon for profitable long distance shipping, as well as for home market where large round melons are in demand. It is a large handsome melon. It commands a much higher price than Kohl Gem, Blue Gem, Triumph, Ironclad or Kiceley Sweets. The rind is a beautiful dark green, occasionally showing stripes and bands of a lighter green, changing to darker green when ripe. It is particularly distinguished by its solid “Big Heart” of pleasing bright red color and delicious quality, and entirely free from hard core. The centre or heart is solid from rind to rind and hollows or cavities are entirely absent. In our opinion it is a most desirable variety for shipping or hotel trade. All seed saved from specimen melons only.

A GRAND NEW WATER MELON—FLORIDA GEM

A Most Valuable Sort for Shipping, the Home Market, or the Private Garden. The Handsomest, Most Productive, Best Selling and Profitable Light Green Variety. The Largest Early White Melon Ever Grown. Matures 81 Days From Planting.

One of Florida’s largest and most successful melon growers, and who cleared over $17,000 in 2 years, growing and shipping these delicious melons north. While it is of southern origin, it is equally well adapted for the north and will grow anywhere where water melons can be grown. The color of the outside is rather light with distinct dark markings. The flesh is of a pleasant brilliant red and distinctly solid, and will be found to be firm and very dense to the core. The flavor is peculiarly delicious. It grows very uniformly in shape and size and without doubt the most productive melon ever grown, and the vines will remain green longer than any other variety known to us and will also sell for higher prices in all markets than any other sort. We earnestly recommend all melon growers to plant it. Another valuable feature is, it is not subject to blight to the extent that other melons are and will yield good crops on land where other sorts fail to produce satisfactorily.

Arkansas Traveler. A large, long, white melon. Rind dark green, with wavy stripes of black. Interior always solid. Flesh brilliant red, sweet, tender, crystalline, very juicy. A very hard rind, and therefore a good shipper. In color of flesh it is deepest red, in texture crystalline, in flavor sweeter. The flesh is solid throughout, without any sign of either core or cavity, and the edible portion extends to within half an inch of the skin. Fine for late plantings to mature in August and September. Pkt. 10c., oz. 15c., 1/4 lb. 30c., 1 lb. $1.00, 5 lbs. $4.50.

FORDHOOK EARLY. 1 lb. 25c., 1 lb. 70c., 5 lbs. $3.25.

HARRIS EARLIEST. In form this melon is oval to oblong. It is heavily striped with dark green and gray stripes. It has bright red flesh, which is tender, sweet and delicious beyond description. It is very productive. It is the melon for everybody to grow who wants to be the pioneer shipper very well and on account of its extreme earliness, handsome appearance and fine table qualities. It always finds a ready market at fancy prices. Our stock direct from Mr. Harris. Oz. 10c., 1 lb. 30c., 1 lb. $1.00, 5 lbs. $4.50.

LIGHT ICING or ICE RIND. Oz. 10c., 1 lb. 30c., 1 lb. $1.00, 5 lbs. $4.50.

STRIPE GYPSY or GEORGIA HATTLESNAKE. A favorite melon in the South. Oz. 10c., 1 lb. 25c., 1 lb. 75c., 5 lbs $3.50.
Moore Seed Co.'s Onion Seed is Unequaled in Quality

Moore's Philadelphia-Grown Onion Seed is acknowledged by all who have ever grown it to be superior to that obtained from any other source in both strength, vitality and purity. No one can appreciate the value of reliable seeds better than those who have been once disappointed, and too much care cannot be exercised in selecting your supply. There is no vegetable where the quality of the seeds exerts a greater influence upon the crop than onions. Our stock is all grown from choice bulbs, selected carefully by hand, and is unequaled in this country.

**If you are a gardener, market gardener or farmer, you can make money and lots of it in growing our**

**American-Grown Mammoth (Long Keeping) Yellow Prizetaker Onion**

Our American-Grown Prizetaker seed we offer produces large, well-ripened bulbs the first season from seed. Flesh white, crisp and mild in flavor. The skin is thin, of bright straw yellow. Form nearly a perfect globe, as shown in our illustration. Under ordinary cultivation this variety will yield bulbs nearly three times as large as the Globe Danvers, while under special cultivation we have raised specimen bulbs to weigh from four to five and a half pounds each. These are the large mild onions which are sold in small crates in early fall and are esteemed for their large size, handsome appearance, mild and delicate flavor. With ordinary culture the crop of Prizetaker Onions is not infrequently 3,000 to 4,000 bushels per acre, and often runs up to 1,000 bushels. Our strain Prizetaker is by far the handsomest, most productive, most popular and best of all Yellow Globe Onions. It has a very small neck and ripens up without stiffness of the neck. In market it never fails to attract attention on account of its beauty, and is sure to bring a far better price than any other onion. It is a remarkably good keeper and can be profitably cultivated for shipping or home market in every state in the Union. Pkt. 10c., oz. 35c., lb. $1.00, lb. $3.75, postpaid. By express, 5 lbs. and over, $3.50 per lb.

**New Zittau Extra Early White.** Large onion on earth. This is the biggest early onion money-maker ever offered by any seedsmen. You grow it direct from the seed and you will have bigger and better onions than any you may grow from sets and at one-third the cost of sets and one-half less labor. Big statements these, but every word the truth. 1,000 bushels per acre can easily be grown from seed of this variety, and in this latitude they can be had on the market by June 15th, which prices range from $1.00 to $2.00 per bushel for new onions. It is unquestionably the largest, handsomest, most flavored, best shaped, finest keeping: most superior early onion ever introduced, and an onion that will sell on its merit in any market. Pkt. 10c., oz. 30c., lb. $1.25, lb. $4.50.

**White Barletta.** Excellent picking variety: very early, small, pure white and mild flavor. Very profitable for the local market gardener. Pkt. 10c., oz. 30c., lb. $1.25, lb. $4.50.

**White Silver Skin.** (Philadelphia Grown.) It is from this variety that the famous white sets are grown. Pkt. 10c., oz. 30c., lb. $1.25, lb. $4.50.

**Australian Brown.** Very solid and of good quality. Pkt. 10c., oz. 30c., lb. $1.75, lb. $2.50.

Large buyers will be quoted special prices upon stating quantity wanted.
LARGE RED WETHERSFIELD ONION. Extra fine. This is the most popular standard variety for winter market in many Northern States. It is not an early ripening sort, as it continues in growth throughout the season and consequently makes very large onions. Continued selection of bulbs planted for seed gives it a smooth-keeled, sure-ripening strain, entirely free from scallions or thick seeds. The magnificent large solid onions are nearly as mild in flavor as any varieties with skins of lighter coloring. Its splendid keeping qualities make it easy to hold crops for late winter markets. There is no better strain of the true large Red Wethersfield in cultivation today than that offered by us. Pkt. 10c., oz. 25c., 1 lb. 65c., 25.00.

JAMES’ LONG-KEEPING YELLOW ONION. The only variety that will produce perfect yellow sets. Will produce large, perfect onions the first year from seed. The most satisfactory and profitable variety for market gardeners to use. Our customers will find in our James’ Long-Keeping Yellow that reliability of bottoming and large yield are both combined in this popular variety. It cannot be too highly recommended. It is extensively grown for sets for market, and frequently produces five hundred bushels of beautiful sets of onions from seed sown in the spring. The growing James’ Long-Keeping Yellow is a very hands, i.e., large, round onion, thick through, of good size, with thin yellow skin, flesh white, firm, mild, and of excellent quality. The large onions of this variety will keep in perfect condition longer than any sort, and are equally as perfect in the spring as when put away in the fall. It produces the handsomest set we ever saw, which ripens early, keeps better than any other sort, and sells rapidly, and is in every way the most profitable to grow. So beautiful are the sets grown from this variety, that they bring upwards of fifty cents to one dollar per bushel more than any other yellow variety. When sown thinly, as we our Early White Spanish, it produces beautiful large yellow onions, without necks, of excellent quality, which will mature earlier and keep longer and better than any other yellow variety. Pkt. 10c., oz. 30c., 1 lb. 6c., 5.00. Connecticut grown seed.

SOUTHPORT LARGE W HITE GLOBE (True Southport Strain). A large, globe-shaped onion; flesh firm, fine-grained, mild flavor; excellent keeper. This is one of the handsomest White Globe onions grown; of beautiful form, clear white skin. Our stock is very choice. Pkt. 10c., oz. 50c., 1 lb. $1.15, lb. 5.00. Connecticut grown seed.

SOUTHPORT LARGE YELLOW GLOBE (True Southport Strain). This variety produces large perfectly-globe-shaped onions of an extra rich deep red. It brings the highest prices on market, and is very profitable. It is also known as Globe Wethersfield, but is not so early or large of the flattened type. We highly recommend it to all our market garden friends. Pkt. 10c., oz. 75c., 1 lb. 75c., lb. $2.50.

EXTRA SELECTED OHIO YELLOW GLOBE. Our own Ohio-grown seed. Pkt. 10c., oz. 30c., 1 lb. 6c., 5.00. H. WHITE DANVERS. Maturing about two weeks earlier than the globe varieties. Pkt. 10c., oz. 50c., 1 lb. 6c., 5.00. Connecticut grown seed.

EXTRA FLAT YELLOW DANVERS. A very choice, large, globe-shaped onion; flesh firm, fine-grained, mild flavor; excellent keeper. This is one of the handsomest Globe onions grown; of beautiful form, clear white skin. Our stock is very choice. Pkt. 10c., oz. 50c., 1 lb. 5.00. Connecticut grown seed.

MOORES PHILADELPHIA-GROWN YELLOW GLOBE DANVERS ONIONS—FOR SETS. Very carefully grown and selected for producing sets of the proper shape, size, and color, and producing onions of equally fine quality. The sets grown from this strain are in good condition during the winter and spring longer than those from seeds grown in other localities. Pkt. 10c., oz. 75c., 1 lb. 75c., lb. $2.50.

NEW JERSEY WHITE SCALLION OR CLUSTER BUNCH ONION. This variety is of wonderful value and importance to the market gardener who grows scallions or onion bunches. Herebefore scallions for bunching could only be grown one-half matured. The proper kind of onions or sets for this purpose are not only difficult to get but are usually expensive, cost considerably in labor to plant, besides occupying the ground without return for many months. With our New Jersey White Scallop or red-leaf, fresh firm, mild flavor, excellent keeper. This is one of the handsomest Globe onions grown; of beautiful form, clear white skin. Our stock is very choice. Pkt. 10c., oz. 50c., 1 lb. $1.15, lb. 5.00. Connecticut grown seed.

WHITE BERMUDA ONION. This is the standard variety for market crops for shipping. While it is known as "White Bermuda," it is really a light straw color or pale yellow. Large pkt. 10c., oz. 30c., 1 lb. 6c., 5.00. Connecticut grown seed.

RED BERMUDA ONION. It is identical in size, shape and mildness with our White Bermuda. The color is a pale, waxy red. Pkt. 10c., oz. 25c., 1 lb. 75c., lb. $2.25.
GOOD ONION SEED is of the utmost importance. Fully realizing this, we make a Specialty of the BEST Onion Seed.

A dollar saved on the purchase of the seed is likely to be lost many times over when the bulbs are harvested. The first cost of the seed is a small item compared with the expense involved in the proper preparation, fertilizing, and cultivation of the soil. It costs as much to raise a crop of inferior bulbs from poor seed as to produce a crop of fine even ripened bulbs from a selected strain of seed. Our Onion Seed is absolutely unsprayed.

SPECIAL PRICES. On Onion Seed in any quantity over what is quoted here will be promptly given upon application. Onion Seed has been a leading specialty with us for years. Write us. It may pay you big. We supply large quantities of seed to many of the largest growers in the United States.

A LEADING VARIETY IN ALL SECTIONS, PRODUCES ENORMOUS CROPS OF ENORMOUS ONIONS, ALL CLEAN, SOLID, HEAVY AND PERFECT, NO "TRICK NICKS," SURE CROPPER. LONG-KEEPER, UNQUELED SHIPPER. (New Early). This is an entirely new type of Silver King from that introduced several years ago in that it is much earlier, which gives it a decided advantage, especially for the market gardener. Large white onions can now be had fully two weeks earlier than from the old type. Like its predecessor the skin is of a beautiful silvery white, with flesh of a particularly mild and pleasant flavor and so sweet that it can be eaten like an apple. No other white onion attains such a mammoth size nor uniformly so large. It is adapted to a wide range of country. The popularity of this onion increases rapidly from year to year with onion growers everywhere. All who grow it unanimously say it deserves every word of praise that is bestowed upon it by the enthusiastic admirers among farmers, truckers and very especially those who eat it. As to the wonderful size, early maturity and fine eating qualities of this famous onion we cannot speak too highly. Every one desirous of having the largest, handsomest and most profitable onions of the finest flavor will be more than satisfied with our Early Giant Silver King.

It cannot be too highly recommended for the family garden, exhibitions, fairs, restaurants, Its size and beauty always make it highly attractive and especially so on market stalls where it always commands the highest price. This remarkable variety was planted by over 100,000 gardeners last year for home or market. It is the most productive of all white onions and grows larger than any white onion in cultivation. It is the onion for everybody no matter whether grown for sale or home use. Plant at least an ounce of this most delicious onion. Better still, plant a pound, or if you have a large garden, plant 10 pounds. Pkts. 10c., 3 pkts. 25c., oz. 45c., 1 lb. $1.25, 2 lb. $4.50.

ALABASTER 235 BUSHEL.—"I harvested 293 busses from the pound of your Early Giant Silver King onion seed. The largest measured 19 inches around. They sold for $3.75 per 100 lbs. My White Globe brought $1.45 per 100 lbs."—OLAY PETERSON, WACKEISHA, WIS.

SOLD BETTER.—"I had no trouble disposing of my Early Giant Silver Kings. They sold better and for more money than any Crystal Wax or Globe Ricks. Will double my crop of them another year."—CHAR. P. MITCHELL, BEAUMONT, TEXAS.

MOORE'S GIANT SILVER KING ONION.— Universally Popular

CHOICE PHILADELPHIA-GROWN ONION SETS.

Indeed, we include onion sets among our leading specialties, and spare no expense to give them the best possible care. The neck and bulb prices on onion sets are subject to market changes. We always give full measure unless weight is agreed upon. They will probably rule as follows for good stock. Large buyers may obtain better prices on large quantities.

(Yellow onion sets are priced by size and add 10c. per pound for postage.)

YELLOW STRASBURG. Qt. 25c., pk. $1.25, bu. $4.75.
YELLOW GLOBE DANVERS. Qt. 20c., pk. $1.25, bu. $4.75.
JAMES' LONG-KEEPING YELLOW. Qt. 25c., pk. $1.25, bu. $4.75.
LONG-KEEPING WHITE MADEIRA. The very best type of white flat onion. Qt. 25c., pk. $1.40, bu. $5.90.
WHITE OR SILVER SKIN. Qt. 25c., pk. $1.35, bu. $4.75.
WHITE POTATO. Qt. 30c., pk. $1.50, bu. $5.60.

I have long been famed, the country over, for growing the best onion sets, and we are prepared to furnish the choicest stock, to paint to produce them from thoroughbred seed and keep them true to market changes. We always give full measure unless weight is agreed upon. We will please write for prices, stating quantity wanted.

HARDY WHITE MULTIPLIERS. Qt. 30c., 4 qts. $1.00, pk. $1.50, bu. $5.90.
SHALLOTS. Qt. 30c., pk. $1.50, bu. $5.50.
EXTRA EARLY RED. Qt. 25c., pk. $1.25, bu. $4.50.

NEW JERSEY WHITE SCALLION. Qt. 30c., pk. $1.50, bu. $5.00.
MUSHROOM SPAWN

ENGLISH MILL TRACK. Per brick 15¢, (by mail 25¢), doz. $1.40, 25 lbs. $1.75, 100 lbs. $6.50, 1,000 lbs. $60.00. 250 lbs. at 1,000 lb. rates.

AMERICAN PURE CULTURE SPAWN. Per brick 20¢, (by mail 25¢), 5 bricks $1.15, 10 bricks $2.00, 25 bricks $4.50, 50 bricks $8.00. Mushroom Circular Free on application.

PARSNIP

New White Maltese. This strain is the result of years of careful selection by a noted parsnip specialist. It embodies all the points of excellence desirable to the market gardener in smoothness, earliness, shape, true hollow crown, extra sweet rich flavor, beautiful white color, and is not too long nor too short. It does not crack open and is entirely free from all core or stringiness so common in other varieties and will usually produce from 50 to 100 per cent, higher prices. If you grow parsnips be sure and get this seed from us. Pkt. 5¢, oz. 10¢, ½ lb. 25¢, lb. $1.00.

Ideal Hollow Crown. Medium length, smooth, hollow crown, fine grained, sweet and pretty appearance. Oz. 10¢, ½ lb. 35¢, lb. 75¢.

HOYT’S STUDENT, or LONG SMOOTH. Heavy yielder. Oz. 10¢, ½ lb. 30¢, lb. $1.00.

OKRA

Holt’s Prolific Dwarf. This is undoubtedly the best and most profitable variety for the market gardener or grower to grow. Pods are well shaped, of proper size and entirely stringless. It is the earliest and most prolific of all. The best for light lands. Pkt. 75¢, oz. 10¢, ½ lb. 25¢, lb. 50¢, 5 lbs. $2.75.

PERKINS’ LONG PODDED. Good quality. Oz. 10¢, ½ lb. 25¢, lb. 75¢.

DWARF PROLIFIC. ½ lb. 15¢, lb. 50¢.

“Your Tomato seeds are the best in the world.”—O. H. King, HAZELHURST, Miss.

LONG SWEET CAYENNE

We introduced this pepper in 1909 and its popularity continues to grow enormously. Fruits are of a beautiful bright scarlet when ripe, about 6 to 7 inches long and 2 inches in diameter at the stem end, tapering gracefully to a point; handsome, sweet and of a fine delicate mild flavor. Plant a strong grower and enormously productive. Long Sweet Cayenne are in great demand in all large cities at good prices. Pkt. 10¢, 3 pkts. 25¢, oz. 45¢, ½ lb. $1.25, lb. $4.50.
Moore’s Profit-Making Peppers

Chinese Giant
Double the size of Ruby King, and is very productive; so large a pepper, while the enormous size and magnificent appearance of the fruits makes them sell most readily. The plants are vigorous in growth, but of starchy habit, seldom more than two feet in height. They are well branched and thickly set with enormous fruits of a rich glossy red color. Frequently half a dozen peppers will touch each other, as if on a single bunch. Our strain is the purest obtainable and produces uniformly beautiful, large fruits which are extremely mild—sweet as an apple. The strong growth of the plants enables them to mature the gigantic fruits only slightly later than our well-known Ruby King. True seed from our very best selected strain. Pkt. 10¢, 3 pkts. 35c., oz. 60c., 1 lb. $1.75, 1 lb. $6.50.

New Tomato Pepper
Our illustration herewith is an excellent representation of this new red pepper. In shape and general appearance it very much resembles a tomato, so much so that nine persons out of ten, seeing it green or ripe, would at first glance say it was a tomato. Enormously productive, and can be eaten out of the hand like an apple, being of mild and delicate flavor. It stays in bearing right through the season from early raw until the first frost; and bulk for both dry and wet use in such a productive variety as Ruby King two to one, taking the entire season through. If you are raising peppers for profit you should certainly include Tomato Pepper in your order. Pkt. 10¢, 3 pkts. 35c., oz. 40c., 1 lb. $1.00, 1 lb. $3.75.

Ohio Crimson or Ruby Giant
A sweet and very early pepper of large size. Anyone wishing an exceptional early, large, sweet, pepper can have one by planting Giant Crimson. It is the earliest maturing large variety on the market. The plant is vigorous and upright, growing 2 1/2 to 3 feet high, taller than the Chinese Giant and more productive. The fruit is not quite as large as the Chinese Giant. Very sweet, with exceptionally thick heavy flesh. The color is a beautiful deep green when young, turning to a deep crimson when matured. An excellent, large maguey pepper used for stuffing, equally as good for the table. An ideal home garden sort, and for market gardeners who wish a quick basket filler. Also a ready seller on the market stall. Pkt. 10¢, 3 pkts. 25¢, oz. 60c., 1 lb. $1.25, 1 lb. $6.00.

Red Cherry Pepper
We offer the true type of this variety; the fruit is round as a ball, about one inch in diameter, intensely bright red when ripe and deliciously pungent. Very much used for seasoning and ornamenting pickled vegetables. Some pickle factories use great quantities of this handsome pepper. Pkt. 10¢, 3 pkts. 25¢, oz. 40c., 1/2 lb. $1.25.

Mammoth Golden Hercules
A plant among the pepper-fruits and the best of all yellow peppers. The fruit has solid flesh of good flavor, mild and pleasant and of a magnificent golden-yellow color. The plant grows uncommonly strong and is extremely productive. There are often at the same time twenty well-shaped fruits on one plant. Its value is increased by the upright growing of the fruits. They are consequently exposed to the sun, nature earlier, and even, during wet weather, they cannot become so easily rotten, as the kinds with hanging fruits, which come too easily in contact with the soil. May be eaten raw and are unexcelled for stuffing. Pkt. 10¢, 3 pkts. 25¢, oz. 40c., 1 lb. $1.25, 1 lb. $4.50.

Myers’ New Early Ruby King
This is a big and valuable improvement on the old type of Ruby King. From plants set out May 15th the first large peppers for market were picked for market June 24th. Plant a vigorous grower and is completely laden with large handsome fruits five inches long, which are of a brilliant red color, very meaty, sweet and mild. They carry well and keep in prime condition a long time, and bear abundantly until killed by frost. It is among the long felt want for the commercial grower. Pkt. 10¢, 3 pkts. 25¢, oz. 60c., 1 lb. $1.75, 1 lb. $6.00.

Neapolitan. Earlier than other large peppers. The fruits average 3 1/2 inches in circumference by 4 inches long; they are thick meaty and unusually mild and sweet; flesh and skin bright red when ripe, productive, and continue fruiting throughout the season. Pkt. 10¢, 3 pkts. 25¢, oz. 45c., 1 lb. $1.25, 1 lb. $5.00.
BEST PEPPERS FOR MARKET

A GRAND PEPPER

Moore's Mammoth Prizetaker is the greatest large pepper on earth. Thousands of gardeners and southern shippers have ordered this and other large fruits that grow all red. If you have grown it you ought to, as you need it. Sixteen large specimens fill a small basket. We discovered it growing in a bunch of Chinese Giants we were saving for seed in 1890, and once recognized its many good qualities. We, as well as many hundreds of pepper growers who have grown it, pronounce it in every way superior to the Chinese Giant, and the most valuable acquisition to our list of peppers. It is larger, more symmetrical, earlier, and a better yielder than the Chinese Giant; 831 baskets were produced at 91c. for 1000, and 922 for 100 lbs. In shape it is longer from stem to blossom and than the Chinese Giant, decidedly smoother, and fully 50 per cent. more productive. Never before has there been a variety that produced uniformly such enormous fruits. Our illustration shows it from a photograph, and is an exact representation as to shape and great productiveness. The fruits of brightest scarlet, average 6 inches broad by 3 to 6 inches long. Moreover the fruit sells better than any other large sort, which makes it extremely valuable to the market gardener. Flesh unusually thick and very mild, being entirely free from any fiery flavor. The yield is simply prodigious. We especially recommend it to all our customers who wish the largest good sweet pepper obtainable, who grow for market or long distance shipping, for it sells readily at good prices. In southern New Jersey it is frequently shipped in car lots by single growers. Pkt. 10c., 3 pks. 25c., oz. 90c., lb. $1.75, lb. $6.50.

TABASCO. Of tall bush-like growth, producing an immense number of small, slender, hot and rather large fruits. The fruit is one inch in length and vivid scarlet in coloring. This is the variety which the famous Tabasco Sauce is made. Will make hundreds of gallons of vinegar. We especially recommend it for southern Pennsylvania. Pkt. 10c., 4 oz. 45c., lb. $1.35, lb. $4.50.

New Cardinal Potherb Pepper. This is just the right thing for bunching with potherbs, neither too long nor too small; color a rich, glossy cardinal red. Strong and pungent. It is the most productive pepper we ever saw. Our illustration gives an excellent idea of its habit of growth. (See illustration.) Market gardeners will find this the ideal sort for potherbs. Pkt. 10c., 3 pks. 25c., oz. 40c., lb. $1.25, lb. $4.50.

Moore's Selected Ruby King

Introduced by us 20 years ago. Plants grow two feet high and bear a good crop of handsome extra large scarlet fruits. The flesh is quite thick, sweet, and so mild that the peppers may be eaten from the hand like an apple, especially for mangos. Pkt. 5c., oz. 55c., lb. $1.50, lb. $5.50.

Shaw's Early Bull-Nose or Early Sweet Mountain

This has proven to be the acme of perfection in the way of a Large EARLY Bull-Nose Pepper. Mr. Shaw, a grower in Burlington Co., N. J., and frequently ships the peppers to large distant cities, feels that they are worth far more than their weight in gold. They are a standard favorite with all pepper growers who know it. A wonderfully good bearer, fruits early, perfectly green color turning to a brilliant red at maturity. Entirely mild, of large size and thick flesh, comes well, sure cropper, and desirable in many other ways. A big improvement on the old type of Sweet Bell Pepper. Pkt. 5c., oz. 40c., lb. $1.25, lb. $4.75.

Moore's Southern Shipper

This is a highly valuable New Pepper, carefully bred and is expected to meet the requirements of growers who ship peppers in crates or small packages. The shape enables it to be packed to show up better advantage in the market. It also has a very characteristic flavor. It has become a great favorite with large shippers and consumers. Owing to these conditions it finds a wider ready sale and at higher prices than either the Ruby King, Neapolitan, Sweet Bell, or any other variety hitherto produced. It has become a great favorite with large shippers and consumers. Owing to these conditions it finds a wider ready sale and at higher prices than either the Ruby King, Neapolitan, Sweet Bell, or any other variety hitherto produced. It has become a great favorite with large shippers and consumers. It is a desirable variety for market, and we highly recommend it to all who grow peppers for market. Ship plant from 40 to 50 marketable fruits at one time. It is a fine market pepper, and we strongly recommend it to all who wish to grow peppers for market. Pkt. 10c., 3 for 25c., oz. 50c., lb. $1.75, lb. $6.00.

Pedrick's New Early Prolific Pepper

The EARLIEST and Most Productive Large Pepper in Cultivation

No grower of peppers will be disappointed in this grand new variety. Its earliness compared with any other sort is astonishing, and its yield is almost beyond description, which with our Moore's Mammoth Prizetaker Pepper introduced by us in 1901, it has come to stay, and will prove a source of much profit to all who plant it. It is fully three weeks earlier than the Chinese Giant or Ruby King, and about five days earlier than the Neapolitan, and notwithstanding its earliness it will continue to yield fine large peppers, which are longer and narrower than Ruby King, up until frost. Mr. Pedrick had one plant that yielded 95 large fruits during the season. To get best results the fruits should be removed from the plants as fast as fully grown. The size and yield will be fully maintained through the season. They carry and keep well, the flesh is thick and smooth, slightly pungent, and a glossy, brilliant red when ripe, and being first in market secures the highest price. Pkt. 10c., 3 for 25c., oz. 50c., lb. $1.50, lb. $5.50.

Italian Early Red. This valuable new variety is the earliest type of Bull Nose in cultivation. It is valuable alike for the amateur and market gardener. In size it is about the same as the old Sweet Bell or Bull Nose. It is wonderfully productive. The plant is a perfect mass of peppers which are of a beautiful glossy red and a continuous yielder. It is a highly profitable sort for the market gardener, either for the home market or shipping, and either for the northern or southern grower. The early peppers are in great demand at very high prices wherever known. Flesh is extremely mild and sweet; continues to bear freely until frost, and carries well. While young the fruits are of a beautiful emerald green and carry long distances perfectly. It is one of the best peppers for you to plant if you wish to make money. Pkt. 10c., 3 for 25c., oz. 50c., lb. $1.00, lb. $3.50.
McLEAN'S FIRST OF ALL. This delicious variety originated in England and is the earliest pea ever produced. It is, strictly speaking, an extra early sort, and will mature ahead of the Gradus, Thomas Laxton, Morning Star, Lightning Extra Early, Royal Early or Nott's Excelsior. It is wonderfully productive; a single plant has been known to produce 30 large-size pods. It requires no brush supports in the field, and will produce better on light land than any other early sort. The pods are large and well filled with large, beautiful dark-green peas of delicious quality. It is remarkably hardy and should be the first to be planted, and you will have the first peas in market and get the biggest price. Our crop this year being large, we can offer the seed to our customers at a very low price. It is remarkably uniform and quite free from faults of any kind.

MooroE's LIGHTNING EXTRA EARLY. The earliest and most productive of all extra early white seeded peas. Are planted annually by over 40,000 market gardeners throughout the United States. They will be found equal value for late summer or autumn sowing, or where a pea crop is required to come off in the shortest possible time. The entire crop can be gathered in one picking. This valuable sort is so hardy that it can be planted after the frost is out of the ground. Under favorable conditions peas can be picked twenty-nine days from sowing the seed. The yield of these peas is simply wonderful.

THOS. LAXTON. The large peas are of a deep green and present a very attractive appearance on the table. The crop ripens only three to four days after Gradus. Pkt. 30c., qt. 50c., pk. $3.25, bu. $12.00.

McLEAN'S ADVANCE.R. Second early; vines of strong growth, about two and a half feet high. Very productive of long broad pods, well filled with green wrinkled peas. Pkt. 35c., pk. $2.25, bu. $8.00.

NEW PEA—PRIZETAKER. A fine new English sort, having invariable taken all the prizes for quality and productiveness wherever exhibited; hence its name. "Prizetaker." Plant 2½ feet high, of a branching habit, and vigorous growth; pods long, round and well filled with large peas of very sweet and luscious quality; pods are produced in pairs, usually from sixty to eighty fine pods to a plant. Can be planted fully as early as our May Queen. Matures in about forty days. Its immense productiveness and fine quality make it an excellent sort for main crop for the family garden and market gardeners. This grand new pea is almost a continuous yielder; three full crops are always yielded by it; plants frequently yield 50 pods, and we have no hesitation in pronouncing it the most prolific and finest quality pea ever introduced among second early varieties. Once planted, always planted. Pkt. 10c., qt. 25c., qt. 40c., pk. $3.25, bu. $8.00.

EXTRA EARLY GRADUS, also called "Prosperity" Pea. Our strain will be found much superior to that usually sold by other seedsmen. Matures pods only a few days later than the small-podded round-seeded extra earlies; grows about three feet high. Pkt. 10c., pt. 30c., qt. 50c., 4 qts. $1.75, pk. $3.25, bu. $12.50.

LITTLE MARVEL. The vines average fifteen inches in height and are heavily set with fine pods. The pods average two and one-half inches in length and well filled with six to seven quite large, deep green peas. Fully as early as Little Gem, American Wonder or Nott's Excelsior, while the pods are larger and the plant produces a much heavier crop. All who desire a fine early crop of the choicest quality of wrinkled peas will be delighted with Little Marvel. Per pkt. 10c., pt. 30c., qt. 50c., pk. $3.25, bu. $12.50.

LAXTONIAN. This is one of the largest podded of all the early dwarf varieties and is a new sort of decided merit. The vines are vigorous, growing about 16 inches high, and produce a large crop of good-sized pods, averaging from 9 to 10 peas to the pod. The pods are of exquisite flavor and mature early. The pods are dark green and produced in great abundance. Many of our customers who have tried Laxtonian consider it superior to either Gradus or Thomas Laxton, and claim it to be the best of all the early English dwarf sorts. It is a great favorite with all English market gardeners. Pkt. 30c., qt. 50c., 4 qts. $1.75, pk. $3.25, bu. $12.50.

ALASKA. Early and prolific. Pkt. 50c., pk. $3.00, bu. $11.50.

LONG ISLAND MAMMOTH. Pkt. 30c., qt. 50c., 4 qts. $1.10, pk. $3.25, bu. $12.00.

TELEPHONE. Pkt. 50c., pk. $3.25, bu. $12.50.

DWARF TELEPHONE. Pkt. 45c., pk. $2.75, bu. $10.00.

LARGE PODDED ALASKA. Large deep-green pods. Pkt. 50c., pk. $3.00, bu. $11.75.

EARLY MORNING STAR. A very early smooth pea, and quite hardy and productive. Pkt. 25c., qt. 45c., pk. $2.50, bu. $9.50.

READ WHAT THEY SAY:

BEING BUGHT 20 YEARS.—"I have been buying my early peas from you for the past 20 years and never missed having the earliest and best paying crop of peas in the county. I can also say the same of your tomatoes, nothing to equal them."—DAVID MYERS, Don-phin, N. J.

"McLean's First of All Peas was the earliest of all extra peas with me last year. I planted 5 varieties and it was 4 days ahead of them all. I realized $268.00 from 2 acres."—FRANK SMITH, Pика-UK, N. J.
SECOND EARLY-MAIN CROP PEAS

Moore's Pride of the Market

This is one of the best of narrow peas. It is a large, very early, and wonderfully well filled, and are produced under general cultivation. It attains a height of about 25 feet, and is esteemed for good quality and productiveness. The pods are long, handsome and unusually large and delicious flavor; eight to ten to the pod. Pea growers are greatly pleased with the behavior of our second best, Shropshire Hero, in comparison with all other varieties, and feel that it cannot be over-praised as a standard medium or late sort for home market. Qt. 15c., pk. $2.50, bu. $7.50.

New Early Pilot

A very heavy yielding early-crop pea, new English variety, growing about 2 feet high, bearing a great profusion of large, dark-green pods of exquisite quality. Maturing about the same time as Gradus. Qt. 45c., 4 qts. $1.60, pk. $3.00, bu. $11.50.

MOORE'S BLUEBEAUTY

A New Second Early Pea Showing Remarkable Productiveness

It will surely delight market gardeners as well as all. The pods are larger than our famous May Queen peas, twice as productive as Gradus and almost as early, and the seed can be planted as early as Moore's Royal Early. Both the seed and pods are of a pleasing deep green color and the fruit is of a long time after being picked. While the seed is wrinkled, the pea is tender, very rich and distinctive flavor from all other sorts. The pods are more vigorous, though about 2 feet high, and are made up in pairs and is a prolific yielder. Ten years testing show it to be a heavy, yielding second early pea grown. On account of its heavy cropping qualities we are able to offer it at a remarkably low price considering its high and many valuable properties. Qt. 15c., qt. 45c., pk. $2.50, bu. $7.50.

THE PERFECT SUGAR YIELDER.

Mammoth Melting Sugar

This splendid sugar pea fully maintains its reputation as a choice table variety. It is a novelty of unusual importance. Indeed, of all the sales of the seed increase year by year. The peas are not shelled, but the pod is eaten like a snap bean. The pods are stringless, and in flavor, stiffness and in weight equal to any pod. The vines are very tall, reaching a height of 5 or 6 feet and requiring support. The full-grown pods are 6 to 7 inches long and 3/4 inches broad, and are produced continuously for a considerable period, the vines having a great bearing capacity on account of their height. The pods are sometimes sliced for cooking, because of their size, and may be served with butter or white sauce, or broken and boiled like string beans and served with butter sauce they make a dish of surpassing deliciousness. They can be readily served for the table in an hour from the time of planting to full-grown maturity. The best variety. Price $2.50, qts. $8.00, pk. $20.00, bu. $72.00.

Prodigious or Prince Edward

The Giant of the Pea Family

It is called Prodigious on account of the enormous size of its pods. This pea is considered one of the most profitable varieties for the trucker, and as soon as it is known and more largely known, there will be an enormous demand for it from market gardeners all over the country. Even now we can hardly get enough of this valuable sort for our customers.

There are few varieties of seed in this catalog that are better named than this pea. Nothing more nearly expresses its one remarkable characteristic than its name Prodigious. When you consider that this variety will produce pods attaining the extraordinary length of 7 inches and upwards, closely packed with 11 to 12 large, dark-green peas of fine flavor, every reader of this book must admit it is well named. For exhibition purposes it is simply unsurpassed. Exhibited at all the leading shows in England, the last 5 years it has always taken first prize, and it will create just as much excitement in America as it has there. The plant is of hardy habit, attaining 5 to 6 feet in height, with dark-green foliage. It is of very vigorous and robust constitution, which enables it to withstand drought and mildew. The pods are produced in great profusion, mostly in pairs. Prodigious cannot be excelled as a shelling pea, on account of its striking and very attractive appearance; and will also be in demand for the table pod. It is a call for a pea of robust habit, fine flavor and hardy constitution. Market gardeners who do not grow Prodigious should give it a trial. There are hundreds of our customers who will be delighted to order this variety. There are such enormous pods of peas, the largest, by far, they have ever seen, which in addition to large size complain of its splendid flavor.
MOORE'S HOME GARDEN PEAS. If you want a long-podded, extremely early, wrinkled dwarf pea, of the finest quality and productive, try Moore's New Home Garden, the prince of all early dwarf peas. This is a grand new blue dwarf wrinkled pea. It literally fills itself with large pods, ripening evenly and of excellent flavor. It is very early, testing in 60 days. 1,000 bushels—Now that's a great many, but our market gardeners and private planters require more than that of Moore's New Home Garden Pea seed every year. They say there is no other pea just like it, hence its great demand. It is early, too, and of delicious quality. The distinct merits of this pea over any other variety are its extreme earliness, combined with its abundant production of fine peas of delicious flavor. Its strong points are its delicious richness of flavor, its extreme earliness, its dwarf habit, needing no brushing, and its large-sized pod. One of its distinctive features is its unusually regular habit of growth. It is of uniform height, so smooth and level in its growth that a row resembles a well-kept hedge. It is a magnificent variety for market gardeners to grow, as the pods are large, it fill up a bushel quickly and brings a very fine price in the market. Pkt. 10c., pt. 30c., qts. 45c., 4 qts. $1.50, pk. $12.50.

MOORE'S ROYAL EARLY

This popular new large-podded early pea of finest quality matures pods two or three days later than the small-podded early earlies; will produce 25 per cent. larger crop, much better in flavor, and will be a pleasing revelation to all who plant it. It is the result of much careful, expert work, of selection and reselection. Grows about thirty inches high. Produces uniformly large pods, measuring from four to four and a half inches in length, nearly round, and well filled with very large, handsome, beautiful green peas of fine flavor. The peas remain tender and sweet for some time after they are large enough to use. The illustration herewith was engraved from a photograph, being exactly natural size. It is wonderfully prolific. No pea grower for home garden or market should be without it. It is a money maker for all who plant it for first early, second early, or fall crop. Pkt. 10c., pt. 30c., qt. 50c., 1 lb. $1.50, pk. $12.50.

SUTTON'S PERFECTION

A grand new second early; productive of large, luscious, wrinkled green peas. Of same season as Moore's Daisy, the pods are much larger and the vines much more productive. The handsome, large, round pods are well filled with from seven to ten peas in a pod. It is a handsome, sweet and tender pea even when the peas are large. Vines grow two feet high and carry a large crop. We are sure that all who try it will be delighted with both quantity and quality of the crop. Pkt. 10c., pt. 25c., qt. 45c., 4 qts. $1.50, pk. $12.50, bu. $11.60.

MOORE’S NEW PEA, MAY QUEEN

It is the most delicious dwarf English pea in the world for the cottage garden and unsurpassed as a fine market sort. This grand new English dwarf wrinkled pea is one of the very best peas we have ever grown. It is extremely early, growing six inches, and literally fills itself with large pods, all ripening evenly and of excellent flavor. It is very early, earlier than American Wonder—testing in forty-six days. When once tried, no other dwarf sort will be grown. No words of praise are too extravagant for this wonderful dwarf pea novelty. It is grand beyond description, of delicious flavor and heavy cropping. Its strong points are its delicious richness of flavor and dwarf habit. It is very hardy and flourishes everywhere. It is also a profitable variety for market gardeners, as the pods are large; it fills up a bushel quickly, and brings the highest price everywhere. Pkt. 10c., pt. 30c., qt. 50c., 4 qts. $1.50, pk. $12.50, bu. $11.60.
We grow the Largest Assortment of Delicious Peas of any Seedsmen in America. You will get the World's Best if you buy from us.

Moore's Bountiful Big Pod Pea
This is a grand new acquisition among second early Peas. It gives us great pleasure to introduce this new English Big Podded Pea to our many customers. The illustration herewith shows the marvelous productiveness of this wonderful new variety. The vines are of strong growth, three feet high, and have a remarkably branching habit. It is continuous in fruiting yield; in this respect it closely resembles our famous Prize-taker. The magnificent large green pods often contain as many as twelve peas, which are of a most pleasing quality and possessing a delicate flavor, so highly appreciated by all growers and admirers of this, the "Queen of Vegetables." Our Bountiful Pea is far superior to any of its class, and is destined to occupy the first rank with all who want excellence in flavor, large pods and maximum of yield. Very hardy. Pt. 10c., qt. 45c., pk. $3.25, ba. $12.00.

A GREAT SUCCESS
Your new May Queen is a great success for quality and yield; in fact all your seeds do remarkably well with me. FRED PEDERSON,
Gardener to Capt. H. C. Flemming,
Somers Point,
NEW GIANT PODDED MARROW. About two feet high, and bears handsome pods, filled with large, deep, green peas. Pkt. 10c., qt. 45c., pk. $1.05, pk. $3.25, ba. $12.00.

MOORE'S DAIY. This is truly a gem for the family garden; unsurpassed for quality or productiveness, ten to twelve inches high, the earliest wrinkled sort known. The vine is literally covered with extra fine plump pods, containing from seven to nine green peas of superior flavor. Pt. 10c., qt. 25c., qt. 45c., pk. $2.75, ba. $11.00.

IMPROVED STRATAGEM. The pods are long, broad and of exceedingly fine quality, true stock, 2½ feet. Qt. 55c., 1 pk. $1.75, pk. $3.50, ba. $12.50.

New Early Sugar Marrowfat Pea
In our annual trials of peas, numbering many hundreds of rows, this variety was conspicuous among them all for its astonishing profusion of pods, which are large and handsome and bountifully filled with dark green tender peas of the true delicious marrowfat flavor. In England, where we obtained our stock seed, it is extensively grown by the nobility, who prize the Sugar Marrowfat above all others of its class. It is the earliest of all marrowfats and will satisfy the most exacting who strive for the best quality. We recommend it to all who plant for home use or market; one of our best introductions. Height, two feet. Maturing about one week after our Lightning Extra Early. Pkt. 10c., pt. 25c., qt. 40c., 4 qts. $1.25, ph. $2.00, ba. $10.50.

YOUR NEW EARLY SUGAR MARROWFAT PEA IS A REAL DAINTY. Its delicious quality is a revelation to all who eat it.
JAMES SYLVESTER WORTHINGTON
Chestnut Hill, Pa.
POTTIES

Grown for seed in the far North. 10 to 12 bushels to the acre. 1 peck will plant about 225 hills. Michigan Grown Seed Potatoes.

Our seed potatoes have been carefully grown, especially for seed, on light, sandy loam, entirely free from all disease, in the extreme north of the State of Michigan, and will give the best possible results to all who plant them. Prices vary with the market. Special prices given by letter on lots of five barrels and over. We give full legal weight.

...Advantages of Changing Seed Potatoes...

There is no other crop that we raise that is so much benefited by the introduction of fresh seed from time to time as the potato. They seem to take on new life and prosper wonderfully, provided the change is to a well-cared-for stock. It is grown, the better the further north. Our best customers will not plant their own raising of seed at all, but buy of us every year. They can grow nearly double the crop on the same land that they can from their own raising, and the tubers are smoother, handsomer and of better quality and more saleable in the markets. A good change of seed a ways pays. The yield is frequently doubled thereby.

$1 Potatoes by mail. The price of all varieties is 35c. per lb. or 3 lbs. for $1.00, correctly labelled, and sent, postpaid, to any address in the United States.

FILLBASKET EXTRA EARLY Originated by crossing our famous Snowball and Quick Crop. The Fillbasket Potato soon proved itself to be a very popular and profitable sort for home use and shipping and has forced its way among our largest planters. Those who grow it for market find it to be twice as profitable as Early Rose, Hebron, Triumph or Early Ohio. It always commands a higher price than other sorts and besides it is an enormous cropper, as our photo illustration shows. It is, as its name would suggest, a remarkably quick grower, of the most approved shape—viz., a very smooth, full tuber, with no skin points nor projections to waste in preparing for the table, or waste in handling. Sufficiently elongated to make a good baker, it is not too much so to serve well boiled. It is an ideal general purpose potato. In color, it somewhat resembles the Prince Edward Island Rose. When cooked, the flesh is pure white, dry and flaky. 1/2 pk. 62c., pk. $1.00, 1/2 bu. $1.85, bu. $3.50, bbl. $8.50.

NEW EXTRA EARLY POTATO. The Bovee A GREAT CROPPER.

It takes a leading place among the heavy cropping varieties, an unusual thing among first earlies. It is even earlier than Early Ohio, and compares favorably with Triumph True stock. Pk. $1.00, bu. $2.85, bbl. $7.00.

QUICK CROP VERY PROFITABLE FOR EARLY MARKET.

It is several days ahead of the Early Rose, and is a special favorite with farmers and market men. Maturing early, having highest prices, and the land can be used for other crops; does well on any soil suitable for potatoes. The tubers grow compact in the hill, are easily dug, very few small ones—nearly every one marketable size; few eyes which are even with the surface. Skin a delicate pink color. They keep firm until late in the spring. Many of our Southern growers plant this variety almost exclusively for early shipment North. With heavy manuring, close planting and good culture, a very large and profitable yield can be expected; 300 to 500 bushels per acre is not an unusual yield. Pk. $1.00, bu. $3.50, bbl. $8.00.

SUTTON'S EARLY MONARCH (New)

Under ordinary cultivation, this variety has by actual test produced 463 bushels per acre.

This new early potato is now attracting wide attention. Its points of excellence, as claimed, are its earliness, wonderful productiveness, vigor of growth, quality, smoothness and handsome shape and size. It derives its name from its originator, Mr. Sutton, a noted potato hybridizer. It is a pink or flesh colored potato, of the shape indicated by the illustration. The shape is very uniform. It matures from early to second early, and in table quality is white, dry and mealy. It is as perfect in shape as the Snowball, and probably about one week later. The introducer says that the Early Monarch takes a leading place among the heavy cropping varieties, an unusual thing among first earlies. Our own observations on Early Monarch are favorable, and we do not hesitate to commend it highly. As a variety for planting for second or late crop, it is without an equal. The tops are comparatively short and stocky, and the tubers are all bunched together in the hill, and are of good size and quality. 1/2 pk. 62c., pk. $1.00, 1/2 bu. $1.85, bu. $3.50, bbl. $8.00.
Moore's Early Snowball Potato

THIS AND MOORE'S FULLBASKET ARE THE TWO EARLIEST POTATOES IN CULTIVATION

They are fully a week in advance of any other kind in earliness and are the heaviest croppers.

Moore's Snowball can always be marketed at least ten days before the top dies, as the new potatoes commence to grow before the tops are six inches high. Another great merit lies in its great keeping properties, remaining solidly fresh until the new crop is dug, and will often remain in the cellar without sprouting until June 1st. Hills of "new potatoes" of a fit size for table use can be dug in six weeks from the time of planting if weather for growing has been favorable, and the tops thoroughly ripened in from eight to nine weeks, with crop fully matured. Moore's Early Snowball was produced from a seed ball taken from a vine of the Snowflake, growing between Early Rose and Early Ohio. Tubers are oblong, skin a beautiful pink color, flesh white; upright, strong vines, with tubers growing compactly in the hill. We have never tested a kind which possessed the desirable points of an extra early, large yielding, high quality potato like the Moore's Early Snowball. Our grower informed us early last season, when all early crops were but half grown, that Moore's Early Snowball and Fullbasket had set much more and that the tubers were double the size of any extra early varieties he had planted, and adds, "We should save seed for a larger planting next year." 1 lb. 30c., 3 lbs. $1.00, by mail postpaid; pk. $1.00, 1/2 bu. $1.90, bu. $3.50, bbl. $8.50, 2 bbls. $14.50.

Moore's New Early Bonanza Potato

The great drought resister. We mean just what we say about it being a great drought resister. It stands hot, dry weather better than any other sort. We have seen Early Rose, Hebron, Irish Cobbler, Green Mountains, Ohio's, etc., cease growing entirely and fail to produce even 10 per cent. of a crop in dry seasons, while Moore's Early Bonanza vines stood up green and vigorous and produced a tremendous crop of beautiful potatoes. Thousands of market gardeners will bear us out in this statement. In growth the vine is dense and robust, but compact. This is favorable to close planting. It is also a magnificent main crop potato. There are many people who plant but one variety. To such we would not hesitate to recommend Moore's Early Bonanza, on account of its being a splendid potato when early, a splendid potato when used in the summer or fall or winter. It is a perfect keeper—none better. There are rarely any small potatoes in a hill. Many of our customers say it is way ahead of any other sort as an all round potato for early or late. It seems to be disease proof; neither scab nor blight has attacked it. A good thing, did you say? We should say so, my friend. It is here to stay, and we believe you are like us, in that you know a good thing when you see it and that you will plant it, and plant lots of it, too. Just one more word—you. It will pay you big to plant it, be it a deck or a hundred bushels.
IT PAYS TO PLANT GOOD SEED POTATOES

New Early Harvest Potato

This exceedingly promising new potato was sent out for trial to some of our customers, under the name No. 91. The reports received were very flattering.

The name, Early Harvest, is bestowed in honor of the originator, Clyde Somers, a leading potato specialist of New York. It is a handsome, vigorous, highly-prolific, and very desirable in every respect. We recommend Early Harvest as a money maker. Pk. $1.00, bu. $3.50, hbl. $8.50.

NEW JERSEY SEED SWEET POTATOES

New Jersey grown Sweet Potatoes are everywhere acknowledged to be the best in quality, beauty, and size. The quality grows better each year, while their keeping and shipping qualities are away ahead, and will always bring the highest market price. We make a specialty of seed sweet potatoes, growing our stock exclusively in New Jersey. We pack for shipment in boxes and bales. We offer it to the trade with greatest care; but wish it distinctly understood that customers take all risks after we deliver in good condition to the express or railroad company here. We do not ship until planting time passes. We cannot guarantee the 500 plants furnished at 1,000 rate.

EXTRA EARLY CAROLINA JERSEY “UP-RIVERS,” EARLY NANCE MOND and NEW EXTRA EARLY ACCOMAC. Each, per pk. $1.25, bu. $3.50, hbl. $8.50.

KNISEL’S RED QUEEN

An excellent short or chunky variety with pretty red skin and deep yellow flesh, very productive and good keeper. Generally regarded as the best eating sort of all. Plants ready after May 1st. 45c. per 100 by mail, postpaid; by express, 50c. per 100. $1.00 per 1,000. No tubers for sale. Prices on all potatoes, seed sets and field seeds subject to market changes.

IMPROVED VINELAND BUSH SWEET POTATO

The Improved Vineland Bush Sweet Potato is shorter and more chunky in shape than the old variety. It originated on the farm of John Maytrott, the exterminate sweet potato grower of New Jersey, from the well-known Early Nancemond and Old Sweet Potato. It is a perfect bush, with no inclination to spin, resembling a bean bush closely. The plants are bushy and healthy, and excellent keepers. Customers say: “They’re a great improvement over all other varieties.”

Plants of the Improved Vineland Bush Sweet Potato ready after May 1st; $0.50 per 50c., 100 for $1.00, by mail, postpaid; 75c. per 100, $3.00 per 1,000 by express. (500 plants at 1,000 rates.)

SOMETHING NEW—AGRICULTURAL TURNIP

Mr. Market Gardener and Farmer, if you have dry, hard, non-porous, heavy, stiff, clayey or “baker” soil, plant this wonderful turnip on it and all these objectionable qualities of your land will disappear. In this latitude sow the seed after the rate of 9 pounds per acre. The tubers will penetrate the ground from 12 to 15 inches, where they are allowed to remain until spring, and the soil will be found to be in a nice friable, loose and mellow condition, and will produce black or white turnips ever since. The turnips are coarse, of all kinds of soils. It is a wonderfully cheap fertilizer and soil renovator. Both the tops and roots are greatly relished by cows, sheep, hogs, poultry and other stock. Try it and be convinced. 9c. 91c. 18c. 50c. 1b. $1.50, 7 to 9 lbs. $5.00.

GET FANCY PRICES AND BIG MONEY FOR EARLY TRUCK

AUSTIN’S Patented Plant Bed-Protecting Cloth—SUBSTITUTE FOR GLASS—WILL AID YOU

This will be found an excellent substitute for glass (at one-tenth the cost) in protecting from frost all kinds of seeds and plants on which glass shades are used in early spring. The patent treatment given the cloth fills the threads and fibers and preserves them from decay and all the lengthen, and makes them unbreakable. It is equal to any other cloth. We have supplied it to our customers in all sections of the country. We have found it excellent in protecting and forwarding all kinds of seeds and plants for which glass shades are used in early spring. It will be found to be of great value to our customes, especially in the South, who grow cabbage, egg plants, lettuce, pepper, tomato and other plants that have to be transplanted. All our grades are of extra quality; one yard wide, and with proper care it will last for a number of seasons. If by mail, add 3c. per yard.

MEDIUM GRADE. The best for general purposes. Per yd. 15c, by the piece of 60 yds. 12c per yd.

EXTRA HEAVY GRADE. Per yd. 15c, by the piece of 40 yds. 17c per yd.

New White Rose

This new potato is no experiment; we pronounce it the best long white potato we ever saw. It has never shown the first sign of blight. This potato is a cross between the Early Rose and White Star, is medium early and a strong grower. This variety offers a high market price; the vines are rank, rich dark green in color and absolutely blight-proof. It seems also to be proof against the potato beetle. There are no or poor or little black on the White Rose, all hills yielding the same throughout the whole field. In cooking qualities it is second to none. It is the most productive of the long white varieties and will yield 200 to 400 bushels per acre on any good land.

New Potato—Vermont Gold Coin

This grand variety originated near Van Buren, Aroostook County, Maine. So eager were potato growers to obtain seed of it that they paid $25.00 per hundred for it, and considered it worth at least double. The vines are strong, with exceptionally deep green foliage, making a robust healthy growth, where other sorts are cut down by blight. It will bring a higher price than any other sort. It is the quickest and finest cooking late potato we ever tested, as well as the most delicious in flavor. Flesh fine grained, and of a very deliciously sweet, and cooks dry and mealy. Even when freshly dug it cooks dry and mealy. It has produced at the rate of 800 bushels per acre, which makes it a very profitable variety for the planter. Pk. $1.00, 1 bu. $1.50, hbl. $8.50.
The pumpkins are now largely cultivated for market purposes, and are found to be very profitable. They are usually planted in fields of corn or potatoes, but may be profitably raised in fields by themselves. They also make very profitable and healthy food for stock. We herewith illustrate some of the best market varieties.

Large Cheese. Of fine grain and excellent flavor. Pkt. 5c., oz. 10c., lb. 30c., lb. 1.25.

Tennessee Sweet Potato. Of medium size, pear shaped, finely colored, creamy white, slightly striped with green; flesh thick, creamy white, fine grained, dry, brittle and excellent flavor. When cooked it has somewhat the appearance of sweet potatoes, but of more delicious taste. Pkt. 5c., oz. 15c., lb. 1.50, lb. 1.25.

Cashaw. Long yellow crookneck. Good keeper. Pkt. 5c., oz. 15c., 1 lb. 30c., lb. 1.50.

Genuine Mammoth, or True Chilian. (Also called KING OF THE MAMMOTH.) It grows to an enormous size, three feet or more in diameter and one hundred to two hundred pounds or more in weight. Skin deep yellow: flesh very thick. Pkt. 10c., oz. 20c., 1 lb. 50c., lb. 1.50.

Winter Luxury Pumpkin. Few, if any, pumpkins can equal the one of our growers who knows all varieties is emphatic in stating that "it is the best pumpkin grown for pies." The flesh is very thick, sweet and fine flavored, making the most delicious pies. Color a golden russet finely netted. Flesh deep golden, sweet and tender. Pkt. 5c., oz. 15c., 1 lb. 15c., lb. 1.25.

Japanese Pie Pumpkin. The seed cavity is extremely small. The seeds are curiously sculptured in the manner of Chinese letters. It is a very productive variety, ripens early, of medium size, good keeper and weighs fifteen to twenty pounds. The flesh is a rich salmon color, unusually fine grained, and when cooked or stewed is almost as dry and mealy as a sweet potato. Pkt. 5c., oz. 20c., 1 lb. 50c., lb. 1.50.

Mammoth Golden Cashaw. (New.) The flesh is a rich yellow color, solid, fine grained, very thick, sweet and excellent for pies, and equally good for baking. They are very hardy; bugs seldom bother them. Can be grown among the corn, and yield a much heavier crop than most other sorts. Pkt. 5c., oz. 20c., 1 lb. 50c., lb. 1.50.

Large Connecticut Yellow Field. Easily grown alone or in the corn. Oz. 10c.

New Boston Golden Sugar. One of the best yellow pie pumpkins. They are round in shape and very slightly ribbed. The skin is of a rich golden orange color, very beautiful. Flesh of extra fine flavor, cool, soft and tender. It is a splendid keeper. Enormously productive. Just the right size to see in baskets. Makes excellent pies. Pkt. 5c., oz. 15c., 1 lb. 40c., lb. 1.25.

Mammoth Etampes Bright Red. This giant variety also from France is quite celebrated and has been grown in this country to an enormous size. It is of a bright, glossy red color. A splendid variety to grow for exhibition purposes. Pkt. 5c., oz. 15c., 1 lb. 45c., lb. 1.25.

Yankee Cow Pumpkin. This valuable pumpkin will be found a great blessing to farmers who are short of dairy cows, as it greatly increases the flow of milk, besides imparting to it a rich yellow color, and really adds to the flavor and color of the butter of all cows fed upon it. Twelve tons to the acre is no unusual yield. It can be grown successfully in corn. It is a most excellent keeper and will be sure wealth to all who grow and feed it liberally. Oz. 10c., 1 lb. 30c., lb. 1.00.

Thanksgiving Pie Pumpkin. On account of the extra thickness the yield in pounds is double that of other kinds. The flesh is orange in color, fine grained, sweet and has the delicious pumpkin flavor essential to the making of first-class pumpkin pie. The name "Thanksgiving" was suggested by the almost universal custom of serving pumpkin pie at the Thanksgiving dinner. Pkt. 5c., oz. 15c., 1 lb. 30c., lb. 1.00.

New Persian Golden Giant. Produces truly gigantic globe-shaped fruits. The skin is of a rich salmon color, while the fine line grained flesh is highly colored, of a deep yellow, sweet flavored and very thick. The pumpkins attain an enormous size and will attract great attention when placed on exhibition. Pkt. 10c., oz. 15c., 1 lb. 50c., lb. 1.75.
RADISH

Early Giant White Turnip Radish

The largest early and the latest of the white turnip radishes. The roots grow to an immense size, often attaining in diameter inches. The skin is white, the flesh white, pungent and crisp and of good flavor and keeps in good condition for a long time. A good all-season variety and suitable for winter storing in bins or turnips. Pkt. 5c., oz. 15c., ½ lb. 45c., lb. $1.50.

Fred. Simon's Solid Ivory

This is pronounced by many customers to be the perfect round white for open ground. It is entirely distinct from any other white turnip variety. Its points of superiority are remarkably short top and rapid growth; perfect globe and turnip shape, short and very crisp, sweet and very pithy. Moore's Scarlet Gem

This variety is indeed a perfect gem. It pleases all who plant it and all who eat it. Very short top, very early and suitable for growing under sash or open ground; color a beautiful rose scarlet; flesh white, crisp and of good flavor. It will mature radishes in 57 days, which never become pithy, and we highly recommend it to all radish growers. Don't fail to include it in your order. Pkt. 5c., oz. 20c., ½ lb. 60c., lb. $2.00.

White English Summer

A very desirable radish for summer use, remaining crisp and after spring sorts are over. Top of medium length. Much used in England. Very crisp and sweet. It is well adapted for sowing at any season of the year. It is a quick grower, has a small top, can be planted closer than most white summer sorts—and it finds ready sale. Pkt. 5c., oz. 10c., ½ lb. 30c., lb. $1.00, 3 lb. $4.50.

Moore's New Red Strawberry

It is unquestionably the handsomest small red variety ever produced. The flesh is pearly white, which forms a strikingly beautiful contrast with the flowing crimson color of its skin and beautiful delicate green color of its small, short leaves. It is the earliest, handsomest, finest, tastiest, tenderest, sweetest and best small radish ever grown. It is especially valuable for market gardeners or home use, either for forcing under early open ground culture, to wake up the garden 28 days in advance, or for direct planting with no break in succession. Pkt. 5c., oz. 20c., ½ lb. 60c., lb. $2.00.

Chinese Celestial Winter

Seed from Tonkin, China. The finest and the largest of the White Chinese Radishes. The roots grow to a very large size, averaging about 15 to 18 inches in length and have a diameter of 5 inches. They grow most of the year above the ground. The skin is pure white and the flesh always crisp, mild and juicy. It is a profitable radish to grow as it sells readily and is relished by all. Pkt. 5c., oz. 15c., ½ lb. 40c., lb. $2.00.
NEW CALIFORNIA CHERRY RADISH

This strikingly beautiful variety is from California, where it is known as the "Cherry Radish." It is an excellent sort to follow our delicious strawberry radish, and cannot fail to delight all who are so fortunate to plant it, and we hope every one of our customers will. This delicious radish is excellent for all purposes on account of its earthiness, crispness, and great beauty. It makes a fine garnish for any table. It sells readily and quickly at good prices in any market and makes an exquisite sort for the family garden. Pkt. 5c., oz. 20c., 1 lb. 50c., 1 lb. $1.75.

MOORE'S NEW SCARLET BALL. This is a very distinct and highly desirable new radish of our own introduction and one which we recommend to every grower of radishes. It is perfectly spherical, very small tap root, short, small leaved and a very attractive vivid scarlet color; flesh very white, solid and deliciously crisp, mild and tender. It attains about twice the size of our celebrated Bright Red Forcing Turnup; it positively will not grow hollow or pithy; remains deliciously delicious for weeks; a fine market variety for any season of the year. Well adapted for sash or warm borders or open field culture. We earnestly urge every one of our customers to plant it. Pkt. 5c., oz. 20c., 1 lb. 50c., 1 lb. $2.00.

IMPROVED WHITE LADY FINGER. This is unquestionably the finest long white radish for sowing at any season of the year. We found it growing in a field of our Quick Selling which we had planted for seed. It is a beautiful, waxy, snowy white. It is of very rapid growth, and remarkably crisp, brittle and tender; will stand longer before going to seed than any other white sort; equally desirable for the home garden, and as a market sort it will be found invaluable. Pkt. 5c., oz. 20c., 1 lb. 50c., 1 lb. $1.75.

FELTON'S SELECTED WHITE BOX. Very small top, early, solid, good shape; fine for sash or open ground. Felton's own stock. Pkt. 5c., oz. 20c., 1 lb. 50c., 1 lb. $1.00.

IMPROVED WHITE STRASBURG. Our stock is much superior to the ordinary sold, Pkt. 5c., oz. 25c., 1 lb. 35c., 1 lb. $1.25.

RED CHARTER or SHEPHERD. Pkt. 5c., oz. 10c., 1 lb. 30c., 1 lb. $1.00.

CRIMSON GIANT. Extra fine stock. Oz. 20c., 1 lb. 50c., 1 lb. $1.50.

SCARLET TURNIP WHITE TIPPED. Pkt. 5c., oz. 20c., 1 lb. 35c., 1 lb. $1.25.

FRENCH BREAKFAST. True, imported. Pkt. 5c., oz. 15c., 1 lb. 35c., 1 lb. $1.25.

SWAN'S ROSE WINTER. Extra fine quality. Pkt. 5c., oz. 10c., 1 lb. 30c., 1 lb. $1.00.

WHITE CHINA. Pkt. 5c., oz. 15c., 1 lb. 35c., 1 lb. $1.25.

PARISIAN BLACK. Pkt. 5c., oz. 15c., 1 lb. 35c., 1 lb. $1.25.

ROUND BLACK SPANISH. Very choice. Home grown. Pkt. 5c., oz. 15c., 1 lb. 35c., 1 lb. $1.25.

WHITE SWAN'S EGG. This is a wonderful and delightful radish. It is a good sort for late summer and autumn and winter use, and it gives us pleasure to recommend it to all our customers. Seed should not be sown before July 1st in this latitude. It is the sweetest of all radishes. We, however, especially recommend it as the best of all white winter radishes from seed sown early in August. The skin and flesh are both snow-white, crisp, brittle, and of best quality. It buried like apples or potatoes, it will keep in perfect condition until spring. Excellent market sort. Pkt. 5c., oz. 15c., 1 lb. 40c., 1 lb. $1.50.

EARLY WHITE DELICACY. This new sort is a cross between Wood's Early Framboise and our Improved White Strasburg. A most distinguishing characteristic is its rich, transparent, waxy, appearance. The shape is one of the most advantageous for market use, being what might be called half-stump rooted. The color is creamy white, with the waxy appearance above described, and the texture is very firm and solid. It is about one week later than Simon's Solid Ivory, but after they are ready for marketing they remain in excellent condition for three weeks. Top short, flesh mild and crisp; exceedingly well adapted for successive sowings in the open ground. Please everybody. Pkt. 5c., oz. 15c., 1 lb. 40c., 1 lb. $1.50.

NEW SWEDISH BUTTER RADISH. Every one having one or more milch cows should plant this valuable radish. We know of no root crop that will insure as good health or prevent disease in milch cows like this. It is a great milk and butter producer; both the tops and roots are greedily eaten. Flesh white and tender, rich, and excellent for the milk milk. It is a stimulating and causes perfect digestion, thus increasing the flow and quality of the milk. The roots attain a length of 15 inches by 6 inches in diameter. The yield per acre is double that of purple or purple turnips. Can be stored like mangel beets or turnips during winter. Sow 3 to 4 pounds per acre in rows 2 feet apart, or broadcast from July 15th to August 1st. Pkt. 5c., oz. 15c., 1 lb. 50c., 1 lb. $1.50.
RHUBARB or PIE PLANT

Rhubarb is probably the most profitable and satisfactory crop a market gardener produces.

Giant Extra Early Paragon. In growth it resembles the Victoria and is quite large and productive as that well-known variety, but the Rhubarb is more upright in habit, and in the open ground comes earlier into use. Another and still more important merit is the beautiful color—rich, bright red, and this characteristic remains after cooking, even when the roots have been forced in absolute darkness. The stalks are large and exceedingly tender, and have a delicious flavor. Altogether this fine variety possesses a combination of qualities which will make it a necessity with every progressive market gardener. It is not suitable for the family garden. Its enormous yield and sells at “top-notch” prices. One of our early rhubarb growers is sure to make $1.25.00 from one acre of this sort. Extra strong roots 10c., 5 oz. $1.00, 10 oz. $4.00. Add 5c. per root if to go by mail. Seed, pkt. 10c., oz. 20c., 1 lb. 50c., lb. $2.50.

Crimson Winter. A large red-stalked, compact-growing, improved variety; a new introduction. This is our best introduction for the market. The stalks are large and very tender, and are much in demand for market use. This variety has a decided advantage over the Victoria, being more tender and earlier in the market.

VICTORIA. A very large, thick, red-stalked late variety of fine quality. Pkt. 5c., oz. 10c., 1 lb. 50c., lb. $1.50.

Large roots or Lineaus or Victoria. Doz. 75c., 100 $1.50, per 1000 $4.00. Seedlings, 100c., 500c., 1000c. $2.50, per 1000 3.50. Add 5c. each if to go by mail. Rhubarb Roots are a great specialty with the market gardener and are readily supplied 100 or 1000. Write us for prices, stating quantity wanted.

TRUE ESSEX RAPE.

This is a highly valuable forage and should be fed by all who grow any kind of live stock for food purposes. Under favorable conditions it is ready for pasturing on the same land or for market use within six weeks from time of sowing, and on an average a acre will carry twenty to thirty sheep or hogs six weeks to two months. When on the rape they will have access to salt, but water is not necessary. In the Northern States it should be sown from April to end of August for fall pasturing. If sown in late July or August it thrives best in cool weather, it should not be sown in the Southern States until September or October for winter pasturing. In the latitude of Philadelphia it should be sown in April, or in July or August. Its fattening properties are probably twice as good as those of clover, and for sheep the feeding value of rape excels all other plants we know of. At the Michigan Experiment Station 12 sheep were pastured for eight weeks on 10 acres of rape, sown in July, and showed an increase of 2,000 lb. per sheep. The growth of rape is enormous and makes excellent green food for all kinds of poultry. To secure the best results the rape should be sown in drills. Sow 4 lbs. per acre broadcast. 1 oz. should make 10 lbs. by mail. 3 oz. pkt. 5c., 1 lb. 25c., 10 lbs. $2.00, 50 lbs. $5.50.

SALISFY

Moore's Giant White Russian. This is the largest, smoothest and most productive in cultivation. Roots pure white in color, three times larger than the ordinary Salisfy, of very fine, exquisitely dark green color, flesh very fine grained, tender and of more pronounced and agreeable-oyster-like flavor. Invaluable to market gardeners. The tops remain in good condition until late in the following spring. The seed should not be sown so early as another varieties. This variety was sent to us by the American Consul at St. Petersburg, Russia, where it is grown to the exclusion of all other varieties. Pkt. 10c., oz. 25c., 1 lb. 75c., lb. $2.50.

Improved Mammoth Sandwich Island. Our improved strain is remarkably fine for market and superior to any other strain. Pkt. 5c., oz. 25c., 1 lb. 75c., lb. $2.00.

SPINACH

We are very large growers of Spinach seed and can give very low quotations on 100 or 1,000-lb. lots of any sort.

New Amsterdam Prolific Long Standing. The most abundant cropper; the largest keeper; the finest quality; double the yield of all other long-standing sorts; the best spring Spinach in the world today for the market or market gardener. This is a new variety, distinguished for its dark green color, finely cut, large, curled, curly leaves, of robust growth, and for its remarkably long standing qualities, being from two to three weeks later than other long standing sorts. It is very hardy and will withstand the severest winter of rapid growth and is adapted to sow any time in the year on account of it being such an enormous yielder, the ground should be well manured. Pkt. 10c., oz. 20c., 1 lb. 50c., lb. $1.75.

AMERICAN ROUND SEEDED SAVOY or BLOOMSDALE, oz. 20c., 1 lb. 60c., lb. $2.00.

New Hardy Winter. The best for fall sowing as well as early spring; of a handsome dark green color, producing more and larger beautiful curled thick leaves than any other. Will yield double the bulk, and remain firm and brighter longer than any other. The best and most profitable curled variety to grow. Oz. 25c., 1 lb. 60c., lb. $2.00.

Belgium Evergreen, or Virolay Long Standing. Leaves very tender, dark-green and well-curl; the leaf resembles our well-known Norfolk Savoy; will stand longer and yield double the quantity of the Enkillingen or Tricky Snelseed long standing sorts. Oz. 15c., 1 lb. 45c., lb. $1.50.

VICTORIA LONG STANDING. English grown. Oz. 20c., 1 lb. 60c., lb. $2.00.

New Zealand Spinach. Yields an abundance of the tenderest Spinach during the last two months of the year, or in dry arid localities where the ordinary Spinach is not adapted. Imported seed only. Pkt. 10c., oz. 20c., 1 lb. 60c., lb. $2.00.

Paris Market, or Perpetual. A most excellent variety for early spring, summer or autumn sowing; very tender and productive; excellent for private gardens; does not run to seed and very hardy. Oz. 20c., 1 lb. 60c., lb. $2.00.

LONG SEASON. Very strong grower. Good market sort. Oz. 15c., 1 lb. 45c., lb. $1.50.
SQUASH

Moore's New Extra Early Cluster

The ideal early Patty Pan. The most profitable early squash for either home market or shipping.

The productivity of this variety is truly astonishing, the yield is truly prodigious, and it is not uncommon to count clusters of twenty beautiful, tender fruits on a vine at one time. Sixty-one squashes have been proved to come from a single vine. It is a true bush variety of unusually compact growth. The fruits are smaller than the Dow's Extra Early which we introduced eight years ago and which proved so popular to all who tried it. The color of a beautiful green, and the earliness of Moore's Cluster is no less remarkable. The seed cavity is unusually small, while the rich, delicate flavor and delicious quality is not found in any other variety. It is fully ten days earlier than the Long Island Mammoth White, or White Scallop. On account of its extreme earliness, beauty of appearance, and fine eating qualities, it being very tender and fine grained, it outsells all other sorts on any market. Fancy prices are assured all who grow it.

It is the best shipper, the fruits carry better, remain in good condition longer, and retain their attractive and beautiful pea green color longer than other varieties introduced. It is not only early, but if the fruits are promptly picked it will continue to yield fine marketable squashes twice as long as any other. Indeed, we cannot recommend it too highly to those who wish early squashes, and plenty of them. We have had it fully tested by our home market gardeners and many large Southern growers in California and Texas, and they all agree in saying it is the best of all early sorts for the flavor, dock and consomme. No home garden should be without it.

Pkt. 10c., oz. 15c., 1 lb. 50c., lb. $1.50.

Dow's Extra Early Patty Pan. It is enormously productive. The squashes mature fully a week earlier than the Long Island Mammoth and are of good marketable size and bring high prices. The squashes cook well and the flavor is delicious. It forms no hard shell until nearly ripe, which is another great improvement on all other varieties of this type. Color a beautiful green. Entirely free from any hard parts or mealy. Especially solid and heavy, and greatly enhances their value for shipping long distances.

Pkt. 5c., oz. 15c. 1 lb. $1.25.

LONG ISLAND MAMMOTH WHITE BUSH. True. Fruits are deep and light green to white. Oz. 10c., 1 lb. 25c., lb. $1.00.

CHICAGO WARTED HUBBARD. Of large size, and very dark green color. A good keeper. Pkt. 5c., oz. 15c., 1 lb. 50c., lb. $1.25.

Henderson's Delicata. For both summer and winter use. Wonderfully prolific. It is ready almost as early as the early summer sorts, is better flavored, and remains in perfect condition as long as any keeping variety. Its flavor when cooked has been compared to the Sweet Potato, others liken it to dressed chestnuts, but we agree that it is delicious. The fruits are about 9 inches long, and when ripe, are deep yellow, irregularly striped and marked with dark olive green. The flesh is thick, of fine texture, and pale yellow in color. It is unexcelled for baking, the shape and size make it perfect for this purpose. None is better for pies. When boiled it is dry, granular and mealy. Pkt. 10c., oz. 15c., 1 lb. 25c., lb. $1.25.

Dunlap's Prolific Early Golden Marrow. This new marrow is certainly a valuable acquisition, for, while it is remarkably productive, no variety can compete with it for earliness, it being about twelve days ahead of the Boston Marrow, and for this reason can be planted a week later than any other variety of marrow. Its color is most attractive, and the flavor is delicious. A good keeper. Pkt. 10c., oz. 15c., 1 lb. 25c., lb. $1.50.

French Coconaut. For both summer and winter use. The most deliciously flavored squash known, sweet, rich and wonderfully solid and productive and the best keeper of all. When well matured of taken off the vine before frost it is no uncommon thing for them to keep one year in good condition. Pkt. 5c., oz. 15c., 1 lb. 25c., lb. $1.00.

EARLY LUSCIOUS GOLDEN CUSTARD. A true bush, handsomely scalloped variety, of a beautiful rich golden color and excellent table qualities; wonderfully productive and the best yellow Patty Pan sort for home use or shipping. Pkt. 5c., oz. 15c., 1 lb. 25c., lb. $1.00.

PIE SQUASH. Flesh is yellow, very thick and of fine quality. A ready seller on market. Pkt. 5c., oz. 15c., 1 lb. 25c., lb. $1.25.

CHICAGO WARTED HUBBARD. Fine winter variety. Pkt. 5c., oz. 15c., 1 lb. 25c., lb. $1.50.

GOLDEN SUMMER CROOK NECK. Bright yellow, warty; bears early and all summer. Pkt. 10c., oz. 15c., 1 lb. 25c., lb. $1.50.

NEW IMPROVED CUSHAW. Beautiful cream-colored fruit, of medium size and first-rate quality and excellent flavor; delicious when made into fritters. Comes into fruit much earlier, besides being free from disease and more productive than the very best of all the early Cushaw. Certain to please every grower of this vegetable. Pkt. 5c., oz. 15c., 1 lb. 25c., lb. $1.25.

CHINESE. Profitable market variety. Pkt. 10c., oz. 15c., 1 lb. 45c., lb. $1.50.

Dunlap's Early Prolific Golden Marrow

A DELICIOUS VEGETABLE.
THE MOST VALUABLE
Extra Early
Red Tomato
Ever Introduced

MOORE'S KING OF THE EARLIES

We have here the grandest large extra early smooth tomato of the age for market gardeners, private gardeners and shippers, no matter whether you plant one dozen or one million plants, for your first picking. It is just the large extra early tomato thousands have been looking for. It is just the tomato you need. It is the tomato above all other extra early tomatoes. It is an enormous yielder. The plant is a perfect mass of large, beautiful red fruit. It is the ideal "stem setter" and as there is a remarkable absence of leaves the fruit ripens early and almost "all at once." The tomato that will bring you wealth and fame. Each and every vine is a perfect mass of large-size fruit; as our illustration shows. It is a very compact grower and consequently can be planted one-third closer than any other early sort. If you grow early tomatoes, don't miss planting it. It will be both pleasure and PROFIT to you. It is the earliest large smooth tomato ever introduced. Pkt. 10c., 3 for 25c., oz. 60c., 1 lb. $1.75, 10 lb. $6.00.

ANY TOMATO GROWER IN THE UNITED STATES
CAN MAKE BIG MONEY GROWING

MOORE'S NEW EXTRA EARLY JUNE PINK

Better in quality, more handsome in appearance and immensely more productive than any other extra early pink-skinned variety. The vines are one solid mass of beautiful, large-sized, smooth fruit, which always sells for fancy prices in every market. We have been developing and improving this remarkably valuable new extra early variety for the past eight years and now offer it to our many thousands of customers throughout the world as being the earliest, most productive and most profitable extra pink tomato in existence. First pickings of ripe tomatoes last season sold for $4.50 per crate wholesale. The crown sets often consist of thirty beautiful large-fruits. Moreover, it is exceptionally hardy. The fruit is deep, very smooth, solid and meaty, and entirely without core. It is a great money maker for all who grow for early market. As a long-distance shipper we assure our customers that it will carry fully as well as our Moore's Royal Pink or Moore's Old Blue-Stemmed Duke of York. That, you know, is saying a great deal. Every one of our customers who has had it pronounced it free from blight. Fine for the South and will make big money for the man who grows tomatoes for early market, no matter where he may be located. Ask your neighbor about it; he may be planting it. Pkt. 10c., 3 pks., 25c., oz. 45c., 1 lb. $1.25, 10 lb. $4.50.
Every Tomato Grower Needs It

THE EARLIEST LARGE TOMATO IN THE WORLD AVERAGE SIZE OF FRUIT.

Moore's Wonderful Early Tomatoes

A truly wonderful yielder—being of large size and wonderfully prolific, as our illustrations show—and continues to yield beautiful large fruit longer than the Globe, Aene, or Beauty. Every distinct in shape, firm-fleshed, and of delicate and delicious flavor. It is a very beautiful variety; in quality there is nothing more to be desired in a pink tomato. It has a great future; it has already become a popular variety with all tomato growers who have tried it. Every plate, grower, large or small, is delighted with it. It is as smooth as an apple, colors up nicely, continues in bearing condition longer than any other pink variety, and meets with ready sale on all markets. Every Floridian, Texas, Mississippi, Louisiana, Alabama, Tennessee or other Southern tomato grower should plant Moore's New Early Royal Pink Tomato. It matures enormous crops of No. 1 fruits only a few days later than our Moore's King of the Parries. Beautiful large, smooth, solid pink-skinned fruit, which invariably sells above the market price. The texture is extra firm, thus making it a first-class long-distance shipper. It outclasses Livingston's Globe on every point, being one-third larger, earlier, yielding 60 per cent heavier crops, and, unlike the former, will carry thousands of miles in perfect condition.

Pkt. 10c., 3 for 25c., oz. 45c., ¼ lb. $1.25, ½ lb. $2.50.

MOORE'S NEW EARLY ROYAL PINK TOMATO

Moore's New Coreless Tomato. All markets requiring a bright, rich, red sort will be pleased with the Moore's New Coreless. In shape it is almost round, being of about the same diameter each way. The depression at the stem and has been almost eliminated, making it the most profitable variety for canning, owing to a very small amount of loss in material and labor. It is immensely productive, clusters of four to seven fruits are produced at six to eight inches apart along the stem where plants are trained to stakes. Tons per acre and tons per ton is all important. All of the fruits are of marketable size, and many of them are quite large, weighing twelve to fifteen ounces. A grand, good slicing variety, the seed cells being surrounded by bright red, firm and richly colored flesh, which is slightly more acid than the Livingston's Globe. The strong outside and inner walls of flesh of the Moore's New Coreless render it a very firm fruit and one of the best for long distance hauling and shipping, but it is entirely free from hard green core. Its color is that bright, rich red so desirable to packers of high-grade goods, and more important than ever now, the law forbids the use of coloring matter. Every canner, market gardener or grower of good tomatoes should plant this grand variety this year.

Pkt. 10c., 3 for 25c., oz. 45c., ¼ lb. $1.25, lb. $4.50.

MOORE'S WONDROUS EARLY TOMATO

Introduced by The Moore Seed Co. Thousands say it is the most valuable large second early and best flavored bright red tomato for the market gardener ever introduced. The only tomato adapted for early, second early or late crop. Yields 30 tons per acre.

Since we introduced this most excellent variety it has brought joy, gladness, satisfaction, and hundreds of thousands of dollars to the homes of market gardeners and others who have purchased their seed from us. It ripens early in the season, has very few seeds, while the productive is simply astounding. It has frequently produced 15 bushels of beautiful ripe fruit per plant. It not only bears early, but continues to bear ripe fruit until frost, and unlike most other varieties, the size is built up well until the last picking. It is no experiment, but is on a broad basis of firmly established tomato growers in the state of Maine, New Hampshire, Vermont, New York, Michigan, Minnesota, Wisconsin, North and South Dakota, Idaho and Washington, and all localities where the growing season is short, as it will withstand more frost and will mature beautiful large fruit early where no other sort will. The plants are of strong, robust growth, have abundance of foliage and we never knew it to show blight in our seed fields. Specimen fruits weighing one pound are not uncommon. It is singularly well adapted to growing in the Dominion of Canada, as well as throughout the United States, North, South, East or West, and every market gardener, no matter where located, will find it a sure money maker. The home gardener and large grower will find it equally valuable and satisfactory. The meat is unusually firm, sweet and bright red, and carries well. Only from 2 to 4 days later than Moore's Supreme Early. It will always command the highest price on any market. For Par, select seed only. Pkt. 10c., 3 for 25c., oz. 45c., ¼ lb. $1.25, lb. $4.50.

MOORE'S NEW ROYAL PINK TOMATO

A truly wonderful yielder—being of large size and wonderfully prolific, as our illustration shows—and continues to yield beautiful large fruit longer than the globe, Aene, or Beauty. Very distinct in shape, firm-fleshed, and of delicate and delicious flavor. It is a very beautiful variety; in quality there is nothing more to be desired in a pink tomato. It has a great future; it has already become a popular variety with all tomato growers who have tried it. Every market grower, large or small, is delighted with it. It is as smooth as an apple, colors up nicely, continues in bearing condition longer than any other pink variety; and meets with ready sale on all markets. Every Floridian, Texas, Mississippi, Louisiana, Alabama, Tennessee or other Southern tomato grower should plant Moore's New Early Royal Pink Tomato. It matures enormous crops of No. 1 fruits only a few days later than our Moore's King of the Parries. Beautiful large, smooth, solid pink-skinned fruit, which invariably sells above the market price. The texture is extra firm, thus making it a first-class long-distance shipper. It outclasses Livingston's Globe on every point, being one-third larger, earlier, yielding 60 per cent heavier crops, and, unlike the former, will carry thousands of miles in perfect condition.

Pkt. 10c., 3 for 25c., oz. 45c., ¼ lb. $1.25, lb. $4.50.

MOORE'S WONDROUS EARLY TOMATO

For the market gardener ever introduced. The only tomato adapted for early, second early or late crop. Yields 30 tons per acre.

Since we introduced this most excellent variety it has brought joy, gladness, satisfaction, and hundreds of thousands of dollars to the homes of market gardeners and others who have purchased their seed from us. It ripens early in the season, has very few seeds, while the productive is simply astounding. It has frequently produced 15 bushels of beautiful ripe fruit per plant. It not only bears early, but continues to bear ripe fruit until frost, and unlike most other varieties, the size is built up well until the last picking. It is no experiment, but is on a broad basis of firmly established tomato growers in the state of Maine, New Hampshire, Vermont, New York, Michigan, Minnesota, Wisconsin, North and South Dakota, Idaho and Washington, and all localities where the growing season is short, as it will withstand more frost and will mature beautiful large fruit early where no other sort will. The plants are of strong, robust growth, have abundance of foliage and we never knew it to show blight in our seed fields. Specimen fruits weighing one pound are not uncommon. It is singularly well adapted to growing in the Dominion of Canada, as well as throughout the United States, North, South, East or West, and every market gardener, no matter where located, will find it a sure money maker. The home gardener and large grower will find it equally valuable and satisfactory. The meat is unusually firm, sweet and bright red, and carries well. Only from 2 to 4 days later than Moore's Supreme Early. It will always command the highest price on any market. For Par, select seed only. Pkt. 10c., 3 for 25c., oz. 45c., ¼ lb. $1.25, lb. $4.50.
CHALK'S EARLY PROSPERITY TOMATO

This is a highly valuable new variety—is in a class all by itself. It originated with James Chalk, one of the foremost and most successful market gardeners, and a noted expert tomato grower, of Pennsylvania, who has devoted forty years of his life to the hybridizing, selection, and developing improved forms of the tomato. It was he who gave to the world the famous Chalk's Jewel tomato, which was introduced to the tomato growers of America in the year 1886, and which has since brought millions of dollars to the pockets of the wide-awake tomato growers of America.

Mr. Chalk wishes to announce through us to the tomato growers of America that he has developed a Bonny Best Early tomato which will, if possible, prove even more valuable than his justly famous Chalk's Jewel.

This variety is earlier than Chalk's Early Jewel, and within two or three days as early as E. Piana. It is a vigorous grower, enormously prolific, with larger foliage than the Early Jewel. In color it is a beautiful scarlet red, setting its fruit in clusters of five or more at close intervals. Its greatest characteristic is its uniformity of size and smoothness in shape. Extra selected seed. Pkt. 10c., 3 pkts. 25c., oz. 30c., lb. $1.00, lb. $7.75.

Bonny Best Early

A Good Second Early Red Tomato

This variety is earlier than Chalk's Early Jewel and within two or three days as early as E. Piana. It is a vigorous grower, enormously prolific, with larger foliage than the Early Jewel. It is a brand new sort—free of all diseases. Seed grown by James Chalk. Pkt. 10c., 3 pkts. 25c., oz. 35c., lb. $1.00, lb. $7.75.

Chalk's Early Prosperity Tomato

Thousands of the most successful market gardeners throughout the United States have for years found our tomato seeds the most dependable as well as the most profitable to grow—the best for home use or for shipping. Careful tomato growers use our tomato seed—the best is always the cheapest.

Halliday's Original Imperial Tomato

(Purplish pink.) Halliday's Original Imperial is considered by many of our customers the best second early purple fruited tomato in the market today, coming in about ten days earlier than our famous Moore's Blue stemmed New Duke of York. The fruits are beautifully smooth, and in market tests this variety invariably commands the highest prices at all times and in all seasons.

The color is between pink-purple and glossy crimson. The flavor is of the best. It ripens evenly to the strain, and is highly productive, the yield under field culture having reached 15 bushels of ripe, marketable fruit per plant. It bears early and produces fruit until frost.

Halliday's Original Imperial has proved its adaptability to all sections of the country, and is now a standard and satisfactory tomato in all respects. A desirable home market tomato or long distance shipper, the fruits being very firm and solid and very handsome. It bears early and produces fruit until frost. Pkt. 10c., oz. 30c., lb. $1.00, lb. $7.50 postpaid.

I. X. L. Early

(True Stock.) Matures same time as Sparks' Earlibana, but grows somewhat larger and continues longer in bearing; originated with W. L. Ashcraft, Gloucester Co., N. J. Skin red. Heavy cropper and generally ripens its crop all at one time. Vines very compact; fruit solid and attractive. We feel sure every one who plants it either for market or home use will be highly pleased with its many fine qualities. Pkt. 10c., oz. 35c., lb. $1.00, lb. $5.00.

Langdon's Northern Adirondack Earlibana Tomato (Crown Seed)

This is the result of several years' very careful selection from the Sparks earlibana by a Mr. Langdon in New York State, near the Canadian line. In a short, cool season, which is well calculated to produce extreme earliness, hardness and smoothness, great vigor and productivity. Our seed is very carefully selected from the finest crown settings, and from the largest, earliest, hardy, smooth fruits. Pkt. 10c., 3 pkts. 25c., oz. 45c., lb. $1.25, lb. $5.50.
MOORE'S SUPREME EARLY

A Marvelous New Tomato in a Class All by Itself!

In introducing this most wonderful early and valuable variety to the tomato-growing public, our Mr. Moore has given it the name of Supreme, for the reason that it embodies all the desirable qualities produced in early tomatoes “up to date” and is in a class by itself. It possesses all the highest, greatest and most excellent qualities yet attained in early tomatoes to a Supreme degree combined in this one sort. Plant it and you will agree with us. It is a beautiful large, very early, red skinned variety, and as such is supreme in earliness, yield, beauty, and firm quality, and what is still more valuable, it commands outside prices on any market. Our Moore’s Supreme Early is miles ahead of any other of its class. It is not excelled for market or home garden. In the tomato growing business, the plant is “all fruit,” abundant, delicious, solid, sweet, fruit, with few leaves, and of compact habit. It is no uncommon thing to pick beautiful large solid ripe fruit sixty days from setting; also very hardy. No tomato grower should miss planting liberally of this notable new early variety.

Pkt. 10c., 3 pks. 25c., 7 pks. 50c., oz. 10c., ½ lb. $1.35, lb. $4.00. It has come to stay.

MOORE’S EARLY ABUNDANCE TOMATO

A valuable second early variety of great merit; and as its name indicates is an exceedingly prolific fruiting tomato. The flavor is very delicate and agreeable, Color a beautiful, glossy reddish purple. Fruit extra large in size, very symmetrical in shape, remarkably solid, smooth and meaty as a beef steak. The size is fully maintained until the end of the season. It is a superbly good shipper and fine keeper. Adapted for every locality, and very especially for southern growers, owing to the fact that it carries well long distances, and we never knew it to develop any blight or no matter where grown. Its beautiful shape, color and delicious quality always insure the highest market price.

Pkt. 10c., 2 pks. 25c., oz. 40c., 1 lb. $1.35, lb. $4.25.

MOORE’S NEW IMPROVED GLOBE

Seeds Grown From Blight Proof Stock

Color a fine glossy rose, tinged with purple. Very early. The fruit is of a much larger size than the Livingston Globe, which is a decided advantage. Enormously productive; no fruit too small for market. It has already become a big leader with many of the most successful tomato growers in all parts of the country. It has never shown any tendency to blight with us. A fine shipper. Being smooth and of large size, it always brings fancy prices and will invariably sell for double that of Crine’s Pink and many others. Earlies, Maries’ Early, Ace, Fordhook, Freedom, and other old sorts.

Pkt. 10c., 3 for 25c., oz. 40c., 1 lb. $1.25, lb. $4.00.

MOORE’S NEW GOLDFINDER

“Does Not Sun Scald Nor Blight”

A new tomato with many desirable qualities and quite distinct from all other sorts. It is distinct in color, size, shape and color of fruit, the foliage being dense and of a dark green color. The fruit is of a pleasing shade of red, medium early and set well up among the dense foliage which prevents “setting sun marks,” etc. David Myers, Eq. Northfield, N. J., writes:—“Your Moore’s Goldfinder Tomato pleased me mightily. Not a single tomato sun scalded, while I lost one-half my Earlilans and Paragons from this cause. I averaged twenty cents more per basket for them than either Paragon or Stone. The yield astonished me. The branches were stiff with fruit. Not a single plant blighted.”

Pkt. 10c., oz. 25c., ¼ lb. $1.00, lb. $3.00.

HORNER’S EXTRA EARLY PROLIFIC

An early and very productive variety. As its name indicates, it is extremely prolific. It originated with Mr. J. W. Horner, a large and very successful tomato grower of Mooresville, N. J., also of Miami, Fla., where hundreds of acres of this highly prized variety are successfully grown every season for northern markets. We have greatly improved this variety in size, solidly and smoothness, and in this respect it is superior to that sent out by the originator. This variety has netted Mr. Horner at the rate of $81.00 per acre.

Pkt. 10c., 3 pks. 25c., oz. 40c., ½ lb. $1.25, lb. $4.00.
Moore's Wonderful Tomatoes
Are Worth Many Millions of Dollars to Tomato Growers

MOORE’S Big Victor
EXTRA EARLY

"There’s Big Money in it for Early Tomato Growers."

Introduced by us in 1905

We have a big reputation for growing good tomato seed, and for having the best varieties. A word to the wise—MOORE’S BIG VICTOR EXTRA EARLY TOMATO is a brand new and distinct variety never before offered to the public, and was produced at great cost. Fruit not inferior to its countenance. This variety was developed from a chance seedling found growing in a field of our King of the Early’s. It is the earliest large-fruited red variety, and the largest extra early red variety ever produced. Its yield is enormous, every 100 square feet yielding a great mass of large size red fruit of the stem setting type. Single clusters of 25 to 30 tomatoes are not uncommon. It’s truly a wonderful productive sort. It is a variety bringing the highest market price. This wonderful variety is actually earlier and larger than our Moore’s King of the Early’s, and fully as smooth—but as a large early tomato grocer remarked to us—give me earliness and large size, and the tomato will sell even if it be not smooth. I was right. Every tomato grower should plant it. Our word for it—he will miss many dollars if he don’t. Pkt. 10c., 3 pkts. 25c., oz. 50c., ½ lb. $1.25 lb. $4.00.

MOORE’S NEW RED GLOBE

This is probably the Greatest Novelty in Tomatoes ever Introduced

said by all who have seen it to be the most perfect shaped canning variety ever produced. Large size, globe shaped, fruit at stem end. Bright red, a strong grower and big cropper.

Yes, Moore’s New Red Globe Tomato is a great novelty; it is a great novelty in shape, a great novelty in size, a great novelty in quality, a great novelty in earliness; indeed it is a truly valuable novelty; and all who grow tomatoes should become closely acquainted with it at once by planting large crops of it. It ripens immediately after Moore’s New Wonderful and Moore’s New Early Royal Pink. The shape (see illustration) is a large globe, a large, cropper, rich bright red variety, highly suitable for canning, home market, home garden or long distance shipping. Fruits solid, coreless and almost seedless. Every amateur, market gardener or canner should plant it. Every fruit is marketable. We sincerely hope you will not miss at least some of this valuable novelty. The depression at the stem end has been almost eliminated, making it the most profitable variety for canning, owing to a very small amount of waste. It is immensely productive; clusters of four to seven fruits are produced at six to eight inches apart, along the stem being a great mass of large size, of marketable size, and many of them are quite large, twelve to fifteen ounces. Always free from green core; ripens all over and through and right up and yields the same at once. A grand good looking variety; the seedless being sand laced through; large, sweet, red, heavy, mesly and delicious flesh. The strong outside and inside walls of flesh of the Moore’s New Red Globe make it a very choice fruit and one of the best for long distance hauling or shipping. Pkt. 15c., 2 pkts. 25c., oz. 40c., ¼ lb. $1.00, lb. $4.50.

John Baer Tomato (New)

Produces large, smooth, solid fruits of an attractive red color, yielding an abundant crop about one week later than our Moore’s King of the Earlies. Ripens evenly and well up to the stem, very few seeds and good flavor and size. 14 fruits fill a six-carrier basket. Foilage light and habit of plant open and not inclined to run to vine even when manured heavily. A very heavy yielding one crop sort. Fruit not as large as our Moore’s Wonderful Early. Our seed is carefully selected from crown fruits and grown from the originator’s stock in which we have greatly improved. Pkt. 10c., 3 pkts. 25c., oz. 50c., ½ lb. $1.50, lb. $7.00, postpaid.

Small-Fruited Tomatoes

Excellent for Preserves, Pickles and Pies

Red Grape — Pkt. 10c.  Red Currant — Pkt. 5c.  Red Cherry — Pkt. 5c.  Red Pear-Shaped — Pkt. 5c.  Yellow Peach — Pkt. 5c.  Yellow Cherry — Pkt. 5c.  Yellow Pear-Shaped — Pkt. 5c.  MIXED SMALL TOMATOES—The above nine varieties, Pkt. 10c. 25c. 30c. ½ lb. 50c., lb. $3.00.

Moore’s Magnus Improved

We have been growing this variety for our customers for upwards of twenty years. Many thousands of our customers grow it every year. It stands in the front rank among purple or pink fruited sorts. Fruits large, deep; good keeper and shipper; fine quality, delicious flavor and heavy yielder. Good for long distance shipping, home market or family use. Very distinct and commands good prices. Pkt. 10c., 3 for 25c., oz. 50c., ¼ lb. $1.00, lb. $3.00.
Moore's Triumph Tomato

The Greatest Second Early and Late Tomatoes ever offered to the American tomato grower. Planted last year by over 61,000 of the best gardeners and canners in America, who all unanimously endorsed it as the best ever introduced.

Our illustration gives a very correct idea of the size and shape of this valuable new variety. We introduced this grand tomato to our gardening friends fifteen years ago, and since then scores of seedsmen have tried without success to offer one as good. Words cannot adequately describe its many admirable qualities for the market gardener, canner or private grower. We can truthfully say, however, that it is the finest medium early or late tomato ever introduced, a truly remarkable, handsome, very large, solid, smooth, bright, glossy red variety of the finest quality, ripens clear to the stem; wonderfully productive and a true cropper; does not crack; sells on sight. Its large size might lead some to believe that its fruits are few in number, yet the fact is, it is even more prolific in fruiting than any of the standouts seen in cultivation. It is unquestionably the heaviest cropper known. The tomatoes are borne in immense clusters of four to eight fruits, and occasionally ten large fruits have been found in a single cluster. In this, and all qualities, it has no equal, while in luscious quality none surpass it. While an excellent sort for medium early, it is the best in the world for a late crop. As a carrier it "holds up" perfect condition longer than any other large red sort. The large size, beautiful color and productiveness are maintained throughout the season until late in the fall.

Every grower should grow it for his home use. Pkt. 10c., 3 pks. 25c., oz. 35c., 1 lb. $1.00, 2 lb. $1.50.

Moore's Old Blue Stemmed "Duke of York"

Of Special Value to Florida Growers and all Long Distance Shippers

Introduced to us, one of the grandest tomatoes recently introduced. Color rich glossy scarlet, similar to our Moore's Royal Early Pink, splendid cropper, somewhat globular in shape, flesh very firm, large size, fine flavor. A leading feature of this superb variety is that it is uniform in shape throughout, smaller than any known kind, while its profusion of clusters, averaging eight and ten large evenly formed clusters each. Makes it a most handsome show piece, and when covered evenly in the stem, it is a strong, healthy grower, not subject to rust or blight, and an enormous cropper, and produces until the vines are killed by frost, holding its size exceedingly well until the last picking. Quality the very best, very solid and meaty. It is in every way a desirable variety for market gardens, and its beautiful appearance always insures an extra price. As a long distance shipper it stands foremost of all other varieties of the fruit are uniformly thick and dense. On account of its good shipping qualities and ability to "stand up" well and arrive in perfect condition, it is a very desirable favorite with thousands of growers. Grown in Porto Rico, Florida, the Isle of Pines and the Bahama Islands. We are headquarters for selected seed for early, medium and late. An excellent sort for late summer and fall. Plants should be "set out" earlier than other late sorts. Pkt. 10c., 3 for 25c., oz. 35c., 1/4 lb. $1.00, 1/2 lb. $1.50.

Moore's New Extra Early Giant Fruitied Acme

The Handsomest and Earliest Type of Acme Tomato

Positively the earliest and largest Acme tomato ever introduced. Extremely valuable to market gardeners and shippers. Just what you have long sought—a large fruited, early, smooth, solid tomato with a pink or purple skin. Heretofore all pink skinned tomatoes, such as the Acme, Dwarf Champion, Beauty, Imperial and Advance, have been too small in size to make them salable or profitable for the market grower or shipper to grow. By repeated crossing and skilful selection we have produced our New Early Giant Fruitied Acme which is many days earlier, much larger and vastly more productive than its old prototype, on account of its beautiful appearance and fine quality, sells more readily and for a much higher price than any similar sort. This variety appeals pre-eminently to those who grow tomatoes for profit. It possesses all the qualities that go to make up a perfect tomato, viz., earliness, large size, quality, firmness, appearance, solidity, fruit, "beefy, meaty," thick, solid, and almost seedless. Now, what more could you wish? We predict an enormous demand for our Early Giant Fruitied Acme, when its many good qualities become known. It is adapted to all sections of the United States, and more particularly to those who ship long distances.

We advise every one to plant it. Pkt. 10c., 3 pks. 25c., oz. 45c., 1 lb. $1.25, 2 lb. $1.50.
Greater Baltimore Tomato. A second early and main crop tomato of much merit: the originator claims it to be better than the Stone. It ripens evenly to the stem and is entirely free from ridges, cracks, and blight. Quite smooth, well formed and deep from stem to blossom. Fruits in large clusters at every second joint, which are short and sturdy. Of brilliant red color, vines vigorous, compact and healthy, a heavy yielder, cropping until late frost, and owing to its firmness and solidity is an excellent shipper. It matures after Moore's Wonderful Early and like Moore's Triumph it is a great favorite with many growers. Pkt. 10c., 3 pkts. 25c., oz. 35c., 1 lb. $1.00, 10 lb. $3.50 postpaid.

Red Rock. A wonderful main crop variety, producing large, solid, bright red tomatoes free from an excess of water, as smooth as an apple, of superior texture and flavor, an enormous cropper and an excellent shipper. The vine is a vigorous grower, which protects the fruit from sunscald. Very good for home or market use and for canning it is unsurpassed. Pkt. 10c., oz. 30c., 1 lb. 50c., lb. $3.00.

The Matchless. The illustration gives a fair idea of its size and smoothness. The color is a rich, cardinal red, and ripens second early to late. The skin is so tough that it is a splendid keeper and shipper, and is not liable to crack in wet weather. Unsuspected for market or for table. The plant is a strong grower, and is very productive. The fruit is free from core, and the seed spaces are small. The leaves are of a rich, dark green color, and very luxuriant, indicating great vigor, and giving the planter ability to produce fruit of the largest size throughout the entire season. Pkt. 10c., oz. 30c., 1 lb. 50c., lb. $3.00.

Drop of Gold. New. Very valuable and highly prized for preserving. Color a bright golden yellow, size twice as large as our Golden Brown varieties; in growth, the plant grows stiff and upright, with thick-jointed stems, and foliage unlike most others, of unusually dark green color, thick and corrogated, producing large, plum-shaped, red, solid fruits, very smooth and symmetrical in shape, ripening close around the stem. Of unusual deliciousness and very desirable for small gardens; ripens second early to late. Pkt. 10c., 3 pkts. 25c., oz. 30c., 1 lb. $1.50.

Japanese Tree Tomato. Dwarf and compact, tree-like in growth, the plant grows stiff and upright, with thick-jointed stems, and foliage unlike most others, of unusually dark green color, thick and corrogated, producing large, plum-shaped, red, solid fruits, very smooth and symmetrical in shape, ripening close around the stem. Of unusual deliciousness and very desirable for small gardens; ripens second early to late. Pkt. 10c., 3 pkts. 25c., oz. 30c., 1 lb. $1.50.

JAPANESE TREE TOMATO

RECEIVED IN FINE CONDITION

Sirs,—Received the Sebright Cock Order No. 282 in fine condition, Am more than pleased. You shall hear from me in the near future. Yours truly, G. S. Richmond, Garden- ville, Fla.
IMPROVED EARLY DWARF CHAMPION OR DWARF STONE

This belongs to the potato-leaved class of tomatoes; is of rapid vigorous growth, with strong heavy stalks, which stand up well unless, which is often the case, they are pulled down with overmuch fruit. It begins blooming when only six or seven inches high, attains a height of from two and a half to three feet and sets and ripens a fruit—a rare habit in any tomato—from the first blooms. The fruit is large, globular, of a bright glossy red color and is produced in clusters from four to five tomatoes and ripens after Moore's Wonderful Early. In shape the fruit is round, slightly flattened, ripening clear to the stem, perfectly smooth and firm. It is the most thick and firm and of an excellent flavor. It is a great favorite in the Northern States on account of its compact habit and upright growth.

Pkt. 10c., 3 pkts. $2.50 per oz., 1 lb. 75c., 1 lb. $2.50.

SELECTED EARLY PARAGON. Flesh solid, well covered and flavored. Ripens between the early and late varieties. Color of skin glossy deep red. Very choice stock. Pkt. 5c., oz. 25c., 1 lb. 75c., 1 lb. $2.50.

Buckeye State. Color somewhat darker than Beauty. Matures about the same time as our Moore's Triumph. Good shipper.

Pkt. 10c., 3 pkts. 25c., 1 lb. 90c., 1 lb. $2.00.

The Trucker's Favorite. Color purplish red; very solid, firm flesh, shape and color.

Pkt. oz. 30c., 1 lb. 75c., 1 lb. $2.50.

Golden Fig.

It is wonderfully productive, yielding double that of other sorts. This variety makes pickles and preserves of the finest quality. It is exceedingly the best of all the small yellow sorts for market.

Pkt. 10c., 5 for 35c., 1 lb. 40c., 1 lb. $1.25.

Golden Strawberry Winter Cherry Tomato.

This distinct husked developed tomato is unequalled for canning, preserving, eating fresh and pies. Dried in sugar, as mincemeat or figs, or to use in fruit cakes, they are excellent. They have a strong strawberry flavor and produce fruit in great abundance. For sale and market they are excellent, and for pies nothing can equal them in flavor and taste. They are delicious as preserves, and when dried in sugar are much better than the many for canning or puddings. They are also excellent for meat as well.

Pkt. 10c., oz. 40c., 2 oz. 75c., 1 lb. $1.50.

FORCING or GREENHOUSE TOMATOES

We make a special study of these and find the following to give the best satisfaction. Those who force tomatoes under glass can please the most with these varieties.

Moore's New Philadelphia. It is one of the most wonderful tomatoes of the day. It has required many years of intelligent selection and crossing to produce this wonderfully large and exquisite variety. It is the giant of all the good tomatoes. You will certainly be very pleasantly astonished if you plant it. It will be a revelation in size, beauty and Utility; dish we might truly say a "joy forever." The beauty and quality of the fruits make it an easy seller in all markets. Many market gardeners tell us it brings double prices. The flesh is a deep red, remarkably solid, and heavy. Many specimens measure 2 inches in circumference and are correspondingly thick. We urge every tomato grower who reads this to plant it and tell his neighbors also.

Pkt. 10c., 3 for 35c., oz. 10c., 1 lb. $1.25.

Improved Redfield Beauty. We have greatly improved this sort over that originally sent out, in size, productiveness and coloring qualities. The size of the fruit is also large. Color dark crimson to purple. Our customers in the Gulf States, where this variety is principally planted, will find our improved strain the best they ever had.

Pkt. 10c., oz. 30c., 1/2 lb. 60c., 1 lb. $1.25, 10 lb. $17.00, postpaid.

Livingston's Globe. Very distinct in shape, firm fleshed and of delicate flavor. Introduced in 1903. It is an extra good all-around sort, of a distinct globe shape. In time of ripening it is one of the earliest. The fruit size of large size, and a good marketable size is retained throughout the season. It is always smooth, of firm flesh, and few seeds; ripens evenly; colors fine, glaze, red and purple. One seed is the best possible quality.

Pkt. 10c., 3 pkts. 25c., oz. 10c., 1 lb. $1.25, 1 lb. $4.00.

Chalk's Early Jewel Tomato. Originally introduced by us in 1899. A good large second-early red tomato. The seed can only be had from us. Very early large-sized red variety, well adapted to all localities; selected seed only. Seed and plants by John James.

Pkt. 10c., oz. 35c., 1 lb. 1.00, oz. 35c., 1 lb. $3.75.

Ponderosa. Henderson's. A very large fruiting, solid, pink variety.

Pkt. 10c., oz. 35c., 1 lb. 50c., 1 lb. $2.50.

Golden Gage.

This is a variety of pre-eminent merit. It is a golden gage tomato, it is the most productive yellow sort, fine grained and the most luscious quality. It should be in every market gardener's field and garden. It is solid, smooth, large size, ripens early, and is the most beautiful variety ever sent out. Fruits are sometimes tinged with red at the blossoms end. Not excel for eating raw or slicing. The handsome golden yellow flesh is a beautiful color and cutting with red spots. Makes delicious rich preserves. It is a beauty and the best of all the yellow sorts. Pkt. 10c., oz. 35c., 1 lb. $1.00, 1 lb. $3.75.

FORCING GOLDFINDER. Beautiful and productive, glossy red, medium size, very solid, few seeds. Compact habit. Pronounced by many good judges to be the best of all for forcing.

Pkt. 50c.

Pkt. 50c.

Moore's Big Crop. This variety has proved a marvelous bearer of tomatoes and extremely early ripening. It is a tomato which becomes so widely grown as this under glass for home use or market; it is bound to give the utmost satisfaction to all. It is of perfect shape, of a deep rich crimson color. The skin is firm without being thick and the fruitfulness of the plant perfectly astonishing.

Pkt. 50c., large pkt. $1.00.
Perfection Red Top Market White Globe. Private market gardener's stock. It is the sweetest, tenderest, handsomest-looking purple top white globe turnip we ever grew. Our illustration, drawn from nature, shows its smooth, regular form, and rich, purple-colored top. The best early variety grown and the most profitable market sort. Of large size and very rapid growth, fine, juicy quality. It keeps well. Pkt. 10c., oz. 20c., 1 lb. 60c., 12 lb. $2.00.

**PURPLE TOP FLAT.** Strap-leaved. Pkt. 5c.

**PURPLE TOP WHITE GLOBE.** Imported seed. Good stock. Pkt. 10c.

M. & S. Tetlow Golden. Very popular as a market sort, of medium size, short top and very rapid growth. Globes-shaped bulbs, with deep yellow flesh, very tender, stringless and of delicious flavor. The top is of a beautiful light green, while the middle and lower part is of a beautiful rich golden-yellow color. An excellentkeeper, remaining solid a long time. Excel lent fall growth, and will store the kind. Plant it. Sells on sight. Pkt. 10c., oz. 25c., 1 lb. 60c., 12 lb. $2.00.

**YELLOW, or ASHER GLOBE.** Pkt. 5c.

**NORFOLK WHITE GLOBE.** A late variety for feeding stock. Good stock. Pkt. 10c.

**AMERICAN GREEN TOP ABERDEEN.** Very productive, good table variety. Pkt. 5c.

**EXTRA EARLY WHITE MILAN.** Pkt. 10c.

**IVORY BALL.** Good table sort. Very early. Pkt. 5c.

**GOLDEN BALL, or ORANGE JELLY.** Pkt. 10c.

**COW HORN TURP.** OH. ov. 20c., 1 lb. 65c., 12 lb. $1.75.

**EARLY WHITE FLAT DUTCH.**

**SOUTHERN SEVEN TURP.** Used only for greens. Pkt. 5c., oz. 15c., 1 lb. 25c., 12 lb. 75c.

**TOP GOLDEN BALL, or WHITE RUTA.** This variety is widely cultivated in the Philadelphia market and is very popular. Flesh firm, white, sweet and of most excellent quality, the best winter keeper of all. A most excellent late sort. It resists cold so well that it can be allowed to remain in the open ground a great part of the winter. Fine sort for home use and very profitable for market. Pkt. 10c., oz. 15c., 1 lb. 30c., 12 lb. $1.50.

**Carter's Model Purple Top Yellow Ruta Baga.** A Perfect Table Turnip. No other sort equal to it in point of tenderness, sweetness, juiciness or nutritious. Our choicest stock grows entirely without neck and very small top and tap-root. Very quick growth, good globular shape, excellent quality and best market variety. It is thoroughly fixed in type and entirely distinct from ordinary varieties which are used mainly for feeding stock. It has short leaves, grows clean and smooth as a turnip. The flesh is remarkably fine grain and delicious in flavor. Will mature in fifty days from planting. We pronounce this the best and most desirable Ruta Baga grown. We most earnestly commend this fine sort to all who grow for market, as it will bring much higher prices than any other sort. No market gardener should plant any other kind. All who plant it praise it. Pkt. 10c., 3 pkts. 25c., oz. 40c., 1 lb. 85c., 12 lb. $1.50.

**LONG ISLAND PURPLE TOP YELLOW RUTA BAGA.** Oz. 20c., 1 lb. 45c., 12 lb. $1.75.

**WHITE BEAUTY RUTA BAGA.** Good market sort. Pkt. 10c., oz. 20c., 1 lb. 50c., 12 lb. $1.50.

**IMPROVED PURPLE TOP RUTA BAGA.**

**Danish Golden Milk Turnip.** At the present for feeding stock the profits of dairying and stock-fattening is very much reduced, and the feeding of roots alone offers the solution of practically conducting many farms industry. The sooner the farmer realizes the immense value of roots of various kinds for feeding his dairy, as well as all other stock he may have, the sooner will he realize that his profits must be secured. It is the growing and feeding of root crops alone that makes the English, Danish and other European dairymen. The dairyman can make big profits in a judicious system of root feeding. Our Danish Golden Milk Turnip, which we have brought from Denmark is the best of its class. It is the turnip principally grown in that country for stock-feeding purposes. It is most rich in food value and will increase the flow of milk of the richest quality in a manner that will astonish the most skeptical. The roots are of immense size, of a rich golden yellow color, very solid and nutty, and rapid growth, and a perfect keeper. In point of productivity it is only necessary for us to state that seventy tons have been produced on one acre of ground, while from thirty-five to forty tons is no uncommon yield. Can be sown from April to July 10th, broadcast or in drills; we recommend the latter. We advise several sowings to be made during the period above mentioned, the last for late fall and winter use. It is an excellent sort for table use. Of course it should be fed in conjunction with other food, and in this way it will enable any dairyman to reduce his feed bills twenty-five per cent, and will increase his milk supply from twenty to thirty per cent. A trial will convince. Sow two pounds per acre. Pkt. 10c., oz. 20c., 1 lb. 60c., 12 lb. $2.00.

**HERBS**

**BASIL, SWEET.** Pkt. 5c., oz. 20c., 1 lb. 40c., 12 lb. $1.50.

**DILL.** American. Much superior to the imported. Pkt. 5c., oz. 20c., 1 lb. 60c., 12 lb. $2.00.

**TARRAGON.** Strong plants. 25c. by mail, 50c.

**FRENCH MARJORAM.** Pkt. 10c., oz. 25c., 1 lb. 75c., 12 lb. $2.50.

**ROSEMARY.** Blue-leaved. Oz. 15c., 1 lb. 40c., 1 lb. 85c.

**MARJoram, SWEET.** Pkt. 5c., oz. 20c., 1 lb. 40c., 12 lb. 85c.

**ROQUEDETT.** (Ruebetta.) Young leaves used as a salad, have a flavor of horse radish; can be cut repeatedly in spring and autumn. Pkt. 5c., oz. 15c., 1 lb. 45c., 12 lb. $1.00.

**SAGE.** Pkt. 5c., oz. 20c., 1 lb. 75c., 12 lb. $2.50.

**SUMMER SAVORY.** Pkt. 5c., oz. 20c., 1 lb. 30c., 12 lb. $1.00.

**Thyme.** American. Of upright habit; broad-leaved. Very productive, highly improved and hardy. Best for market purposes. Pkt. 5c., oz. 20c., 1 lb. 40c., 12 lb. $2.50.

**THYME Imported.** Pkt. 10c., oz. 25c., 1 lb. 60c., 12 lb. $2.50.
THE MOORE SEED CO., PHILA., HIGH GRADE VEGETABLE, FLOWER AND FIELD SEEDS

Moore's Superior Farm Seeds

SOW MOORE SEED CO'S. BEST QUALITY GRASS SEED.

Holland Rye Grass

THE UNCHALLENGED KING OF GRASSES FOR ALL SOILS, THE QUICKEST AND BEST GROWING, THE QUICKEST AND MOST PRO-.DIGIOUSLY YIELDING SEEDS

It is a grass for all countries, the grass for the great West, South and East, the grass for New Jersey, Illinois, Indiana, Virginia and the poor lands of the entire world. It is the grass of every State of the United States; in fact, everywhere you find good grass, you can find some degree of dry weather; but one must not think that all grass grows equally well on all soil where there is plenty of moisture. For, on such soils its magnitude and value is tremendous. It increases its fall and in full play. The grass comes to us from Holland. It grows a tremendous crop, yielding all the way from five to seven bushels of hay per acre as you can cut same two or three times a year. It grows from three to five feet tall. It will surely pay everybody to try it. If you want to know more about what we can do with it, we will send you in full details. For this, and all other information, see our catalogue.

BROMUS INERMIS 5 - 7 TONS PER ACRE

EARLIEST RUSSIAN MILLET

The early and most valuable of all the millets. It is considered equal, if not superior, to the best quality of Timothy Hay. It has numerous succulent leaves which furnish an abundance of rich green fodder. It grows on all kinds of stock, and is earlier and superior to anything ever seen in the millet line.

It is especially adapted to the following points are these: It is about three weeks earlier than German or Common Millet, wondrously prolific, has great storing habits, makes very leathery, tough, and strong stock; its kernel has been known to produce fifty five strong stalks, just the size that are in great demand and eagerly eaten by cattle, and it is now a common favorite for the hay market. EARLIEST RUSSIAN MILLET is the most valuable, leathery, bushy, vigorous growing, earliest Millet in the world, or, as far as you can come, it is equal to any. It is a stand out first rate seedling, and you will get a big, heavy, splendid stand at once that will last for years. Don't buy hay, you can get it much better and cheaper. Splendid, clean, heavy seed, postpaid 1b. 45c, 5 lbs.$1.25; by express or freight, 1b. 50c, 10 lbs.$2.00, 100 lbs.$15.00.

Mennonite Proliif Giant Spring Rye

Distinct and Valuable

Most productive sort. Distinct from the winter rye, grain of finer quality and more productive; can be successfully grown in any latitude and is now being largely sown in the Middle States in place of oats, being a much more profitable and remunerating crop. Producing about four times the straw and also a catch crop where winter grain has failed. The straw stands stiff, 7 to 8 feet high, produces 35 to 45 bushels of grain per acre; as it does not stand like winter rye, not less than 3 to 4 heavier rye, in fact it is grown as the hay crop. Value of Mennonite Prolific Rye Straw per acre is double that of winter rye, and yields 15 bushels of hay per acre, in addition to the grain. It is the only one that of oats and its straw combined.

If we could introduce here one-tenth of the letters that we get from farmers thanking us for urging them to plant some of our Prolific Spring Rye, it would show how good this new strain is. Farmers tell us they have made a great deal of money with it. This sort of wheat, oats, corn, grasses, etc., and we know that there is nothing better to make money out of than our Mennonite Prolific Spring Rye. This sort has grown on our farms in Pennsylvania and New Jersey and is a heavy yielder and does splendidly on all land. Every farmer will be delighted, and pleased, and astonished, and profited, by sowing our Earliest Russian Millet. It will make a magnificent crop of hay if sown immediately after fall rains, or after wheat or Barley has been cut, or Rye, or Wheat is cut, as it will ripen in from 60 to 90 days. Sow from 25 to 40 pounds per acre. 1lb. by mail, 35c, postpaid; 10 lbs. $1.50, 25 lbs. $3.00, 50 lbs. $5.50, 100 lbs. $16.00.

As a Catch Crop. We sowed some of our Mennonite Prolific Spring Rye on winter wheat that had died out, waiting until almost April, and found it did splendidly. It gave us a yield of over 40 bushels per acre. It is one of the very best things to sow for a catch crop, as it always gives good yields. Price of our Mennonite Prolific Spring Rye: Pl. 50c., bu. $3.25, 25 bu. $8.00. Large buyers will be quoted special prices on application.
Sudan Grass

A New Forage Crop of Immense Value to the Farmers of the United States

SUDAN GRASS AND ITS VALUE

Board's Dairymen says that possibly no other crop ever introduced into the United States became so generally popular in so short a time as Sudan grass. It has been in this country only a little more than 5 years, and if it has ever made any advance it is keeping its former to itself. Its friends are many, not only in Texas, where the great bulk of the crop is to be found, but in practically every other state in the Union, and when fed to various kinds of cattle and live stock it is relished by all. The enthusiasm of those who have seen it spreads like wild-fire, and if there be a farmer who is not a booster for Sudan Grass it is simply because he has not seen the crop grow or has not been able to secure the seed.

IT GIVES a highly profitable yield of palatable, nutritious hay. It is a grass of general adaptation to be found in the United States south of the northern tier of states. It is highly appreciated in the Middle and Southern States because it is an annual grass crop which may be rotated with crops, cotton or other crops in a manner such as clover.

IT IS consequently heavy yielding qualities under semiarid conditions. It is appreciated in many parts where types of soil and other conditions are not favorable to clover crops. It is also destined to be grown in timothy growing sections, for the reason that a more prolific yielder and furnishes more hay at a different season. In the Western States under irrigation it is outyielding alfalfa.

THE YIELD of seed varies from 200 to 1500 pounds to the acre. It has a sown mixture that will do well for cutgrass, is that when grown for seed and the seed threshed off. Work horses, mules, etc., if given a crop of Sudan grass will relish it freely and will eat it readily. Sudan grass is very tender and palatable, and has a sweetish taste and pleasant odor which cause it to be relished by any kind of stand or ox especially dairy cows.

DAIRYMEN ARE PROUD of Sudan Grass because they feel that it means more for the dairy business in the United States than has been done in behalf of the industry for many years, and we certainly commend this crop to every milk producer in the United States, south of the northern tier of states.

SUDAN GRASS AND LEGUME MIXTURES

The suitability of Sudan grass for growing in mixtures with cowpeas, soy beans, and other legumes is at once apparent, for several reasons. Sudan grass grows readily and erect, with a stem stiff enough to support the vines characteristic of most legumes, and it thus makes harvesting easier by keeping the legumes off the ground. It also allows them to cure more quickly by preventing the leaves from matting. It is low in protein, which is prominent in legumes, and to a well-balanced mixture is produced. The yield, although they are not as great as that of Sudan grass, are quite large enough to make it a good mixture to be grown.

SEEDING Sudan Grass should not be planted until the soil has become warm in the spring. It can be sown any time during the summer as a catch crop as long as 40 to 60 days intervene before frost. Best results are obtained by sowing 18 to 24 inches apart and cultivated like corn, or if sown drilled with grain drill or seen broadcast by hand. Sow Broadcast use 10 to 15 pounds of seed per acre; this gives an excellent stand because of its wonderful soil-holding habit; one seed growing to 20 to 30 culms of stems and it has a root of 560 culms of stems from a single seed. If planted on a crop therefore that adjusts itself to the land automatically. Sudan grown seed is best.

HARVESTING It can be cut by a mower and cured readily the same as millet or any other hay crop. Cut just after full bloom. After cutting it renews itself promptly. In about 40 days another cutting is ready. In 1912 four cuttings were secured in Texas, Primarily two or three cuttings may be had in the central United States.

Price of Pure Northern Grown Seed: F.C. 15c.; 1 lb. 50c.; postpaid; by other press 1 lb. 45c., 10 lbs. $4.00, 50 lbs. $18.00, 100 lbs. $35.00.

Billion Dollar Grass

A Remarkable Grower and Quick Producer

It is truly the most marvelous crop that we have ever seen. Just imagine a field sown to Billion Dollar Grass, yielding from 2500 to 5000 pounds of as rich, green fodder as the world has ever seen. If you sow early in April you will quickly young up and give you another yield that will astonish the country. This can be cut again for hay; then the field will give you pasture all fall long, and the hay and sheep and cattle will eat it greedily.

It will produce a hay crop in from six to ten weeks, anywhere, and is sown the latter part of April will be ready to cut the middle of July for hay, attaining the height of (according to the richness of the soil) from 6 to 7½ feet. It is precoated the grass to sown if you are going to be shortly on hay for your horses, cattle and sheep. Pro Will-

FAMOUS BILLION DOLLAR GRASS

97

FOR HAY—Cut just when in bloom—rather sooner than later, as it makes better hay without the seed heads than with them. The hay is then healthier and of finer quality. In curing, we treat it as we would a rich field of clover. 1 lb. 40c., postpaid. 4 lb. by freight or express 20c., 10 lbs. $1.25; 25 lbs. $3.00, 50 lbs. $5.25, 100 lbs. $10.75.
An Agricultural Wonder
Best in the World.

New Zealand Oats

It will Pay You Big to Change Your Seed Oats This Year

It will pay you to sell your common Oats and sow these improved varieties this year while the seed is so cheap. In our field the New Zealand Oats yielded about 102 bushels to the acre, and the Lincoln 90 bushels, while neighboring fields of other varieties under similar conditions yielded only 20 to 50 bushels. The increased yield on a few acres will cover entire cost of seed for your farm.

New Zealand Oats

Progressive farmers who have grown them pronounce them to be the most valuable Oats ever grown in America.

It contains more new blood, hence more vigor and producing qualities than any other Oat we know of.

It Has Stood the Test on 12,750 farms, scattered all over America, in the remotest corners and obscurities of each state and territory—everywhere it did well, despite the most terrible season ever known.

This is absolutely the earliest Oat grown. Nothing like it in earliness that we know of. Our crop was ripe and cut and stacked eight days before other sorts were ripe, which stamps this variety as absolutely the earliest in existence. It means big money to the farmer. That's what the earliest Oats always bring in the market, and especially on the farm, for many farmers are short of Oats in the summer when this ripens.

It Withstands Drought. No sort that we have ever tested so thoroughly and completely withstand dry weather—yes, long continued hot droughts as New Zealand; the price of our New Zealand Oats is 1 lb. 30c., 5 lb. 85c. (postpaid), pk. 50c., lb. $1.85, 2 lb. $4.50, 10 lb. $27.00, 20 lb. $53.00. Sacks included; indeed, it seems to be proof against every element of nature in the shape of weather, withstanding all and yielding heavily.

Strong Straw. Now, then, New Zealand Oats have wonderfully stiff straw, withstand- ing severe winds to a marked degree, and coming forth after storms standing straight, erect—a pleasurable sight to behold. When other sorts lodge badly, this stands up like a strong stone wall.

Yield. This is simply enormous, some say from 60 to 200, yes, 200 bushels or more per acre, but we honestly believe that 100, yes, up to 200 bushels or more can be grown per acre under careful cultivation; when specially planted it has yielded as high as 276 bushels per acre.

The color is a beautiful silvery white, beautiful in the extreme, aids it to sell quickly and rapidly at an advanced price in almost every market on the globe. The color alone makes it a great seller.

No Oat exceeds this in excellent quality, and it has that advantage that it will make more and better oat meal than any other known Oat at the present day, while all horses will fight for it for food. All millers who have seen it pronounce it excellent in the extreme.

Now, then, here is an Oat that makes profitable farming absolutely certain in any state from Maine to California, and south to the Gulf and north through Canada. This Oat, if sown, will insure profitable farming. It will certainly yield from 60 to 200 bushels more per acre than any of the common varieties, which will ten times pay the cost of the seed.

The price of this Oat is ridiculously low, but that's the way we do when we have a good thing; we sell at a low price, so that all farmers can make money out of it.

The Last Forty Bushels. It is the last forty bushels per acre that makes farming profitable. If the common sorts yield 30 bushels per acre and this gave you 70 bushels, the last 40 bushels would be the profit; but if this gave you 150 bushels, it is very easy to figure out great profits on 100 acres or more. Try it and convince yourself.

GROW WONDERFUL ARABIAN CORN
FOR POULTRY

Can be planted and thinned anywhere in the United States, and is the cheapest poultry food now known. Stalks grow four feet high and produce numerous heads of grain 12 to 15 inches long. The yield of grain is simply enormous, averaging about one pound when fully ripe. Plant same time as field corn. It is a wonderful egg producer and feeds fowls; besides it is a wonderful health producer. All poultry and pigeons eat it greedily. The leaves and stalks make excellent forage for cattle and chicken.
Small Fruits

Blackberries

There is only one way possible to succeed in fruit growing, and that is to plant the right varieties. It does not matter how good your market is, or how well your soil is adapted to fruit, or how hard you work, you are bound to fail unless you plant varieties that will produce the kind of fruit you want and in paying quantities. We have gone over the long lists of varieties year after year, adding to and discarding until we have a list that cannot fail to do well. We have worked the problem out and we are sure we can help you.

We have laid the foundation for success for hundreds of our customers. We want to lay the corner stone in the foundation of your successful career—fruit growing. You can succeed. We will help you—advise, good plants and the right varieties. We are at your service. This year our plants are very fine and our stock is large—very, very large, and we solicit large as well as small orders. Wherever possible we advise all plants to be shipped by express.

Note. Our plants are first-class, full of life, and worth double the price of many on the market. Besides, they are the varieties that will make money, if that is your aim as well as ours.

BLACK DIAMOND. If by mail, add 10c. per doz., 30c. per 100.

DICKEL'S EARLY HARVEST. The earliest blackberry to ripen. Each 15c., doz. $1.00, 100 $3.50, 1,000 $25.00.

KENOYER, No. 1. A prodigious bearer of very showy fruit, of good color and fine shipping quality, with good strong canes. It is twice the size and will yield double Early Harvest. Sunrise cropper of all, and fine market sort. Medium early. Each 15c., doz. $1.00, 100 $10.00, 1,000 $100.00.

BLACK DIAMOND. The fruit is jet black and firm, and will not soften either on the bush or after it has been picked. It has an exceptionally fine flavor, spicy and melting. The berry is about the size of the Kenoyer, or Eldorado, an abundant bearer, frequently perfecting as many as 2,000 berries on one vine and frequently as many as nine quarts have been gathered in a single vine.

OUTLASTS ANY OTHER. Most Blackberries decline in productivity after the fourth or fifth year. The Black Diamond will bear well for twenty years. I have a field of Black Diamonds now in its ninth year, bearing its best crop thus far and are all strong, healthy vines. Each 15c., doz. $1.25, 100 $12.50, 1,000 $125.00.

ELDORADO. Highly recommended by growers and experiment stations everywhere. It is an oblong berry of large size, fruiting in numerous pendulous large clusters, with few thorns. Color black, flesh deep crimson, flavor sweet and distinct, rich quality. One of the finest. Each 10c., doz. 50c., 100 $3.00, 1,000 $25.00.

RATHBURG. Large, large seeds, extra fine quality, with a peculiar rich aroma. Highly recommended, and ripens early. Forms a compact bush four to five feet high. Each 10c., doz. $1.00, 1,000 $10.00.

WARD WONDER. Big glossy black fruit; rich, sweet, tender and melting. Average yield 20 bushels per acre. Canes very hardy. Cane is a foot high. A grand, profitable variety. Each 15c., doz. 80c., 100 $8.00, 1,000 $80.00.

BLOWER'S FAVORITE. Luxurious large fruit, very rich quality. Each 15c., doz. 25c., 100 $2.50, 1,000 $25.00.

PRIMOS DEWBERRY. New. Ten days earlier than Lucretia. Uniformly large, glossy black, finest quality, sweet and of unequaled excellence. Cannot be praised too highly. Quality and size uniform. Each 15c., doz. 75c., 100 $7.50, 1,000 $75.00.

Raspberries

(King by mail add 10c. per doz., or 40c. per 100.)

KING'S HAYMAKER. This valuable new raspberry is certainly the greatest acquisition of years in raspberries of its class. From actual figures Haymaker returned a net profit of over $250 per acre last year. Growers coined money from it. The Haymaker is a purple cap not so dark a color and it has a much larger and higher fruit. It ripens later than either of those varieties, never crumbles and stands up well in shipping. It is a berry to grow either home or market. Recommended by experiment stations and leading Horticultural Societies everywhere. A truly great leader. Our stock is genuine. Each 15c., doz. 75c., 100 $7.50, 1,000 $75.00.

MOORE'S RUBY. Pronounced by thousands to be the best red berry to grow and profit to grow for profit. Color a beautiful bright red. Ripens with the earliest and continues picking a long season. It does not decline in flavor, often sells for 25c. per quart. It stands shipping long distances better than any other. It has been grown commercially for 6 years and to-day stands the lead other varieties can long distance shipping and profit. Each 15c., doz. 75c., 100 $7.50, 1,000 $75.00.

NEW BRILLIANT. The berries are large and beautifully brilliant. It ripens the entire crop early and all at once, while the other varieties ripen in stages. Extremely firm and of a good flavor, often sells for 25c. per quart. It stands shipping long distances better than any other. It has been grown commercially for 6 years and to-day stands the lead other varieties can long distance shipping and profit. Each 15c., doz. 75c., 100 $7.50, 1,000 $75.00.

ST. REGIS EVERBEARING
Berries from June until October

Raspberries for four months! That's what you get when you plant St. Regis—the new everbearing variety. Moreover, they are of the very highest grade—in size, in brilliant crimson color, in handsome form and in delicious flavor. It ripens in June when you need it, as it ripens in July when you need it and in August when you need it. Its beauty and flavor is unexcelled. It is a trifle smaller than Kenoyer. Very profitable on account of extreme earliness and great productivity; and true to name. Genuine stock is very scarce. Each 15c., doz. $1.00, 100 $3.50, 1,000 $25.00.

GOOSEBERRIES

Extra Strong One-year-old Transplanted Stock.

Single and double postpaid.

DIXON'S PEARL. Large size, intensely prodigious. Each 15c., doz. 75c., 100 $7.50.

DOWLING. A large handsome fruit, green in color; fine flavor, immense cropper. Each 15c., doz. $1.50, 100 $15.00.

ROUGHTON. Berries medium. Color, pale red. Each 15c., doz. $1.00, 100 $8.00.

RED JACKET. The most vigorous in growth of any gooseberry in America. Each 15c., doz. $1.50, 100 $15.00.

ST. REGIS EVERBEARING RASPBERRY

PERFECTION. Bright red. Each 15c., doz. $2.50, 100 $14.00.

WHITE GRAPE. Heavy yielder. Each 15c., doz. $1.00, 100 $7.00.

BLACK SAPHEE. The best black. Each 15c., doz. $1.00, 100 $7.00.

FAY'S PROLIFIC. Each 15c., doz. $1.50, 100 $7.00.

VERSAILLES, CHERRY, RED DUTCH and VICTORIA. Each 15c., doz. $1.00, 100 $6.50.

MOORE'S NEW RED CROSS. Each 15c., doz. $2.00, 100 $15.00.
Moore’s Earliest of All Strawberries

The most valuable production of the age. The most wonderful and remarkable large berry ever introduced. Absolutely the earliest large strawberry in existence. Immense size, prodigious yield, delicious flavor. Plant strong, luxuriant and healthy. Flavor bi-sexual.

Has Produced 16,000 Quarts to the Acre

Every market gardener who plants it largely is insured handsome profits. On account of its beauty and extravegetal mass it always commands the highest market price. Its extreme earliness is due to its hardiness; the buds form late in the fall, and remain unaffected by the winter cold or early spring frosts—a remarkable thing but true. The blossoms are produced before the leaves in the spring, and are not affected by any frost during the winter, no matter how severe. This valuable variety does remarkably well on poor, thin land, while on heavy soil the yield is simply prodigious. In our vicinity they usually commence bearing about May 5th to 8th, and continue producing large, beautiful berries of delicious flavor long after all early sorts are exhausted. The berries are very large and beautiful with a deep luscious, very sweet flavor, more productive even in light soil; the fruit is borne on long stems of large size and of a most brilliant scarlet color. The flavor is slightly tart, but very good; a grand berry for the private garden or market gardener, its fine color and general excellence making it a fine dessert fruit. It is especially adapted for long distance shipping and we especially commend it to southern growers. Every berry grown, north, south, east or west, should plant it. Daz. 50c., 100 $1.25, 500 $8.50, 1,000 $12.50. Add 10c. per doz. if to go by mail. Special prices will be quoted on lots of 5,000 and upwards.

Kentucky Wonder

(Bi-sexual; Mid-season to late)

A tall, luxuriant grower, with large, dark green foliage, free from rust or disease, very prolific, enduring extremes of heat or cold. Will grow on any soil, the same as the Cresent. The fruit is produced in great abundance on tall, stout stems, which stand up from 6 to 8 inches the entire season, holding its load of berries from the ground so they do not get dirty, rotten or scalded. It is beautiful in color, being of a dark, glossy red, which alone will make it an ornament for any table, and proving in appearance that the moment they are put on the market they will sell for the highest price. The flavor is delicious and very sweet; being one of the sweetest of strawberries, it can be called the best. It has a rich, aromatic flavor, resembling that of the wild strawberry, makes it one of the most delicious of berries. Daz. 30c., 100 $1.00, 500 $8.50, 1,000 $16.50.

Chesapeake Wonder

(Bi-sexual; late)

This new variety is indeed a wonder. It will not succeed upon thin sandy soil, but requires loam or clay-loam; and demands high culture. The berries are very large and beautiful, with immense and prominent seeds. The color is bright luscious, and the prevailing form is heart-shaped with pointed tip; though a good many are of oval form. Flesh firm, quality very good. Plants extremely healthy with large foliage but multiply sparingly. If one has the right kind of strawberry beds and will give it high culture, it will be exceedingly profitable. A number of growers in the vicinity of Philadelphia have made small fortunes from it in the past two or three years. The berries, which were largely sold in New York at 30c. a box, has been given the name of “Pride of New York” in the markets there. We have a large stock of beautiful plants of this remarkable fine late strawberry. Daz. 35c., 100 $1.00, 500 $5.50, 1,000 $8.50.
SOME SPLENDID NEW STRAWBERRIES

We are greatly pleased to offer our customers some new strawberries of real merit, an improvement over many kinds being offered by other dealers and growers.

We find it pays to grow only the best for big returns and good results. You must grow good varieties to succeed. It is absolutely necessary to do if you will, in order to get good returns. We offer those that are valuable, thus protecting our customers from a long list of varieties, half of which are absolutely worthless and a waste of time and money to plant. The varieties we offer have made our customers money. If you let us do it we can furnish you plants that all make money for you and give you results that will open your eyes. Are you willing? It costs no more to plant our good reliable plants that you can bank on than others, besides, you then have the assurance of success.

If Strawberry Plants are desired by mail, add for postage 10c. to the dozen price, and 50c. to the 100 price.

THE GRAND STRAWBERRY

“BIG VICTOR”

(Mid-season to Late—Perfect Flowering)

Although the Big Victor has only recently been offered to the public, yet it is already world famous from the superlatively flattering reports in the horticultural press from the experimental stations and from strawberry critics to whom a few plants were given for trial. It has been thoroughly tested in many parts of the country and has given universal satisfaction for shipping and home maturation, as well as for the family garden. The berries of the Big Victor are magnificent and of immense size—very firm, solid and shapely for so large a berry. In general it is broadly heart-shaped, without neck; occasionally fruits will be found shaped as if the berries were joined together in succession for a long period, from mid-season until the very latest, holding up its size to the last and every berry coming to maturity. The plants of Big Victor are remarkably vigorous, healthy and hardy, throwing out strong runners. The foliage is of the largest and thickest, entirely free from seed or blights. Price, doz. $1.50; 100, $15.00; 1,000, $150.00.

Pine Apple. (Perfect.) This makes the third season we have offered this valuable new strawberry and have as yet failed to hear a single complaint. If you have not yet planted it send your order at once. It has a rich pine apple flavor. Think of the Strawberries, Pine Apples—could there be a more luscious combination of flavors? It is within itself a three-fold pleasure, viz., to look upon, to smell and to eat. A vigorous grower. Berries large size, round and well shaped, beautiful crimson color, about same firmness as Big Victor, perfect bloomer and an abundant bearer, valuable alike for both home garden and market. Its great beauty and decided pineapple flavor make it a variety that commands a higher price on the market than the ordinary strawberry. We have fine plants of Pine Apple and will send only fresh dug ones so you will surely succeed. We hope we may have an order from each and every person receiving our catalog for Pine Apples, for it will be an advertisement to us that will do us good. In view of this, we are offering them at a very low price for a variety so valuable. Price, doz. 50c.; $1.50 per 100, $15.00 per 1,000.

Corsican. (Perfect.) A distinct new variety of value for market and home garden. The fruit is dark crimson color, rich and delicious flavor large size and quite firm. The foliage is perfectly healthy, making it a plant that will protect the fruit from sun and rain. It is a good grower, making the right number of plants and an enormous yield of the finest, largest berries imaginable. Our customers are highly pleased with this great berry. Corsican is a wonderful berry. It is a great pleasure and very profitable to haul the largest berries that go to market. That kind always sells and at the very top price. Corsican is not only big; it is a beautiful color, a great yielder, a good foliage to resist disease and drought and even weeds and neglect, and such a variety as Corsican should not be neglected if possible. Do you want big berries? Then order Corsican. Price, doz. 50c.; $1.50 per 100, $15.00 per 1,000.

Marie. One of our largest berry growers writes us that our Marie Strawberry is the most prolific and profitable berry in existence to-day. In yield we will put it up against any new or old variety. In point of beauty and general appearance when planted on sale it has no equal. It was grown from seed of Crescent, fertilized with Cumberland. As a seedling it showed great promise. We planted for field culture as soon as sufficient number of plants were obtained and as yet have failed to detect any weak points in either plant or plant of this grand variety. The plants are good growers, making plenty of runners for a good crop and show no signs of disease. The blossom is perfect; season as early as the Victor and Haverland; besides it is the most ornamental in appearance when picked and ready for market of any in our entire collection. The berries are round as a ball, dark crimson in color, firm, dark and quality first-class, holding up in size to the very last picking. Price, doz. 50c.; $1.00 per 100, $10.00 per 1,000.

NEW MARKET STRAWBERRY

“BIG VICTOR”

15 STRAWBERRIES to the QUART

$500 FROM HALF AN ACRE

That is the Record of the BIG VICTOR STRAWBERRY, Under Ordinary Farm Culture.

The seeds are very fine red to the core, of delightful aroma, rich, juicy and delicious. The seeds are sound, but slightly embedded, which adds to its firmness. The color is a rich, dark glossy scarlet. Colors uniformly all over, no white blotches nor green tips, and it has a luscious flavor, and will ripen in succession for a long period, from mid-season until the very latest, holding up its size to the last and every berry coming to maturity. The plants of Big Victor are remarkably vigorous, healthy and hardy, throwing out strong runners. The foliage is of the largest and thickest, entirely free from seed or blight. Price, doz. 75c., $1.50 per 100, $15.00 per 1,000.

100 STRAWBERRIES to the PINT

$500 FROM HALF AN ACRE

That is the Record of the BIG VICTOR STRAWBERRY, Under Ordinary Farm Culture.

The seeds are very fine red to the core, of delightful aroma, rich, juicy and delicious. The seeds are sound, but slightly embedded, which adds to its firmness. Price, doz. 75c.; $1.50 per 100, $15.00 per 1,000.
In presenting this, our Poultry Department, we first desire to thank our many friends and customers for their most liberal patronage. Their orders have been faithfully received, and, we trust, filled to their entire satisfaction. The many testimonial letters received would at least warrant our supposition that this earnest desire to deal fairly with all, and to give full value for all money received. It is on these lines that we have built up our enormous business which we feel pondarous pride in. We hope to continue to receive a share of your patronage and shall try to please you, and we will fill all orders promptly and carefully.

We have spared no expense to have the finest stock of each breed, and keep several distinct yards of each breed, so that we can send out stock not akin. The prices quoted, which are the very lowest, are for first-class breeding fowls, from the very best strains and property. We guarantee all eggs fresh and true to name, and use the utmost care in packing. We have frequently sent eggs from 1,000 to 2,000 miles, and have rarely lost a single egg. In case of breakage, customers should get the amount of damage written in ink by the agent, when you receive the goods. No eggs shipped between May 15th and December 1st.

**Silver-Spangled Hamburgs**

The Silver-Spangled Hamburgs are one of the most beautiful varieties that can be found on the poultry list. No one can pass a flock of them without a glance of admiration; for beauty they are unsurpassed, and too much could not be said of this wonderful and beautiful breed. All egg producers that stand in the right line of stock will select a few of these. They are large in size, some the feathers tipped with black, and the flesh is juicy and tender. Males weigh from 1½ to 2½ lbs.; females from 1½ to 2½ lbs. Prices: Good cockerel, $3.50; extra selected cockerel, $4.50; good female, $2.75; extra selected females, $3.50; extra selected trio, one cockerel and two females, $7.50; eggs, per 15, $2.00; per 30, $3.50; per 100, $10.00.

**Silver Penciled Plymouth Rocks**

These Silver Penciled Plymouth Rocks are one of the most beautiful breed of birds in the world. They have all the qualities usually found in the other varieties of Rocks. Their plumage is much like that of Silver Laced Wyandettes, only that they are distinctly penciled instead of laced, and make a very nice appearance on any yard or farm. They will lay handsomely and produce a most magnificent strain. They are perfect. Prices—Good cockerel, $4.00; extra selected cockerel, $5.00; good female, $2.75; extra selected female, $3.00; extra selected trio, one cockerel and two females, $8.00; eggs, per 15, $2.00; per 30, $3.50.

**Barred Plymouth Rocks**

A description of this grand and well-known American breed of Poultry. They are generally considered the best stock in the United States. Males are frequently used as sires, while females are used as dams. They are handsomely penciled, or laced, with a beautiful pattern on the plumage. The eggs are of the highest quality, and are much sought after by fanciers. They will lay handsomely, and produce a most magnificent strain. They are perfect. Prices—Extra selected male, $3.50; extra selected female, $4.50; extra selected trio, $8.50; eggs, per 15, $2.00; per 30, $3.50.

**White Plymouth Rocks**

They resemble the Barred Rocks in every respect except in color. Their flesh is fine, white, tender and very richly flavored. They are excellent egg producers, and as winter layers are unrivalled. They are large and of good quality. The hens are hardy and vigorous. Prices same as Barred Plymouth Rocks.

**Buff Plymouth Rocks**

The Buff Plymouth Rocks are a new breed of Poultry that is sure to gain great popularity in a very short time. They are most intelligent, and can be trained to do anything that is asked of them. They are also good egg layers, and will lay handsomely. Prices—Extra selected male, $4.00; extra selected female, $2.50; extra selected trio, $8.00; eggs, per 15, $2.00; per 30, $3.50.

**Partridge Plymouth Rocks**

The Partridge Plymouth Rocks are a new breed that is sure to be much handsomer than their barred or white cousins. They possess the same characteristics with the exception of color. Prices—Extra selected male, $3.50; extra selected female, $2.75; extra selected trio, $8.50; eggs, per 15, $2.00; per 30, $3.50.

**Golden Laced Wyandottes**

We have in the feathered race. They are exceptionally good layers of eggs, and are esteemed for their lacy, well-proportioned plumage, and neat, well-feeding characteristics. Males are frequently used as sire, and females as dams. They are good egg layers, and produce a most magnificent strain. Prices—Good male, $3.50; extra selected male, $4.50; extra selected female, $2.75; extra selected trio, $8.50; eggs, per 15, $2.00; per 30, $3.50.

**Columbian Wyandottes**

The Columbian Wyandotte is a beautiful, ornamental and utility fowl. Their lacy, well-proportioned plumage is of great variety and exceedingly attractive. This is one of the oldest varieties and a pure American breed. They are very hardy, and grow rapidly and mature early. Pullets often begin laying at from five to six months old.

**White Wyandottes**

They have become very popular. They are very hardy, mature early, and are ready for market at any age. Their flesh is very finely flavored and close-grained, which, with their yellow bone, makes the flesh of the finest quality. Prices—Good male, $3.50; extra selected male, $4.00; extra selected female, $2.50; extra selected trio, $8.00; eggs, per 15, $2.00; per 30, $3.50.

**for the farmer, village as well as the fancier. Our stock will be the most beautiful, and the best mated Rocks. Prices—Extra selected males, $4.00; females, $3.50; extra selected trio, $8.50; eggs, per 15, $2.00; per 30, $3.50.

**Golden Laced Wyandottes**

we have in the feathered race. They are exceptions for good layers, one of the finest market chickens, and are living pictures to the eye. Our stock is unusually good. Prices—Eggs, per 15, $2.00; per 30, $3.50; eggs, per 15, $2.00; per 30, $3.50; per trio, $8.50; eggs, per 15, $2.00; per 30, $3.50.
Silver Laced Wyandottes

Few breeds have been received with greater favor than have the Silver Laced Wyandotte. They possess superior qualities for early birds. They are of good size, their bodies being remarkably plump, their legs are small boned and their skin in clear yellow, thus making them very desirable for the market. They are good winter layers of large rich-colored eggs, just at a season when eggs are scarce and high, and the smaller breeds have suspended business until warmer weather. They are truly a living pleasure, a thing of beauty.

Prices: Selected male cock or cockerel $4.00, female $3.00, extra selected male $5.00, extra selected female $6.00, extra from fancy prize winning pens, per 15 $2.00, per 25 $3.50, per 50 $8.00.

Buff Wyandottes

Prices—Each extra selected male $4.00, female $3.00, trio $8.50, eggs per 15 $2.50, per 30 $4.50.

Black Langshans

The Black Langshan is an old Asiatic breed of fowls, of large size and fine shape. It is one of the hardest varieties of fowls that can be found anywhere. The hens are generally white on the breast and lower part of the body when first hatched and remain so until their first molt, when the white feathers disappear. They are also very hardy, grow fast and reach the age of maturity in a short time. Young pullets hatched early in the Spring will start laying in the Fall and continue on for the best part of the coming Winter and Spring. They lay a large brown egg and are a very good table fowl. They have a fine greenish black color, bear confinement well and are not large eaters. Usually good Winter layers and all-round breed; a most noted laying strain. Cocks weight, 9 to 11 pounds; hens, 7 to 10 pounds.

Prices—Extra selected male $4.00, females, $3.00, trio $8.50, eggs per 15 $2.00, per 30 $3.50.

Cornish Indian Games

The Indian Games are quick growers (have yellow skin); young cockerels are heavier in same time than any other breed; they are, therefore, excellent for broilers. They have very short feathers, thus they consume more of their food in making into excellent table fowl. They are not as good layers as some other breeds, but for market they gain more than what they lose in laying qualities. Standard weights, males 9 lbs., females 6 lbs., trio $14.00, eggs per 15 $2.25, per 50 $10.00.

Light Brahmas

The light and dark breeds differ only in color of their plumage. The Brahmas are generally white, the light brahmas, and is as popular as ever. Any breed that can stand the test of rivalry so long, and still satisfy and please the many thousands of breeders of better qualities of a very high order. They are the largest of all our poultry and furnish more pounds of flesh, meat, and yolks per pound than any other breed of fowls on earth. They are well adapted for all purposes. They are very gentle, hardy, and practical for all purposes that one cannot help but see their immense popularity in all walks of life, as excellent layers, large, rich-colored eggs, and make excellent roosters. The feather marking is unusually handsome in all varieties, and they are worth breeding for ornamentation alone. The United States Department of Agriculture, after a three years' test, pronounced them to be the best laying breed of all breeds. Our males are very select. Standard weights, males 10 to 12 lbs., females 8 to 10 lbs.

Prices—For good male $4.00, extra selected male $7.00, extra selected female $3.00, extra selected trio $8.00, eggs from prize-mated exhibition stock, per 15 $2.00, per 25 $3.50, per 50 $8.00.

White Crested Black Polish

To see a lawn decorated with a fine flock of White Crested Black Polish is a most pleasing sight. These fowls are truly among the most beautiful and ornamental birds in the feathered race. Their large and thick snowy white crests in contrast with their rich, glossy, greenish-black plumage, give them an appearance which is most striking; their ear-lobes are white and combs V-shaped. These birds are very tame, hardy and vigorous. They are good layers of large, white eggs. For ornamental fowls for the city, they cannot be excelled. Our pens of this fine breed contain the finest specimens to be had. Prices—Extra selected male $5.00, extra selected female $3.00, trio $10.00, eggs per 15 $2.50, per 30 $4.75.

Blue Andalusians

As layers they have no superiors, laying the whole year around, winter and summer; the eggs are white and large size. They are very hardy, chicks grow unusually fast, pullets laying at the age of four months. They have red wattles, face and comb, and white ear lobes. Same size as Minorcas, and are natives of Andalusia in Spain.

Prices—Extra selected male $4.00, extra selected female $3.00, extra selected trio $8.50, eggs per 15 $2.00, per 30 $3.75.

Mottled Anconas

The Mottled Ancona belongs to the Mediterranean class and resembles the Leghorn in shape. As egg producers they stand in the front rank, having the year round. They have a trap nest record of 301. In color eggs are white and large. Chicks are hardy and mature early; pullets lay in 10 weeks. In color they are black and white intermixed. They are a very rare and beautiful breed and from a utility standpoint cannot be equaled. No one passes a flock without a glance of admiration. Our breeding stock is made up of the finest stock of all good birds. Prices—Extra selected male $4.00, female $2.50, extra selected trio $8.50, eggs per 15 $2.00, per 30 $3.75, per 50 $8.00.

Sherwoods

Sherwoods are about the best general purpose fowl ever introduced and are the hardest birds on the poultry list. Our greatest claim for these birds is their hardiness. Although the Sherwood is a breed known among fanciers as a man who makes a pure race of Sherwood fowls; the color white, with yellow skin and legs, lightly feathered on legs and toes. This breed is excellent as a layer of eggs with all lovers of thoroughbred poultry. We can supply you with the finest stock. Price—Eggs from prize winning stock, per 15 $2.00, per 30 $3.75, extra selected male $4.00, extra selected female $3.50, extra selected trio $8.00.

WELL PLEASED

Please send me your Catalog. The chicken eggs hatched 18 out of 15 and 12 ducks out of 13. I am well pleased with the results.—Fred A. W. Kiney, Lewisburg, Pa.
MooRE SEED CO’S POUlTRY SUPPLIES, PHILADELPHIA, PA.

**Ideal Black Minorcas**
The Black Minorcas combine two points that render them desirable to the fancier—beauty and utility. Our strain has large shapely bodies with full breast breasts and fully oil hybrid more than any other of the Mediterranean class. Their red comb, faces and wattles, with pure white ear lobes, contrast handsomely with their greenish black plumage, which has a rich metallic lustre. As egg producers, they are remarkable layers; eggs, clear white, and very large in size. **Prices:**—Extra selected male, $4.00; extra selected female, $3.50; extra selected trio, $8.00; eggs, per 15, $2.00; per 30, $3.75; per 60, $6.00.

**Ideal Buff Orpington Trio**

**Ideal Houdans**

**Single Comb Black Minorcas** The Black Minorcas are a change in popularity every year. The plumage of the cock is a brilliant rich red, except where black appears. They are good layers, make an excellent table fowl, and are good broilers. Our strain is the best obtainable. **Prices:**—Extra selected male, $4.00; extra selected female, $3.50; extra selected trio, $8.00; eggs, per 15, $2.00; per 30, $3.75; per 60, $6.00.

**Houdans**
The Houdans is French origin, is an excellent layer of beautiful, large white eggs. They are one of the best market fowls, having a nice white flesh, juicy and tender. They belong to the non-sitters, Standard weights, male, 7 lbs.; female, 5 lbs. **Prices:**—Extra selected male, $4.50; trio, $8.00; eggs, per 15, $2.50; per 30, $4.50. 

**Silver Campines**
The Campines, Belgium, but the Campine as now bred by expert breeders is a new Campine in every respect, and there is no breed that has gained such favor and popularity as the New Campines. They are very pretty and attractive fowls; very tame and friendly, hearty, active and quick to mature, non-sitters, good foragers, but content in confinement. We breed both Silver and Golden, the vigorous strain, and they are layers of large white eggs and plenty of them, if you are looking for a breed that will make you money and will be more beautiful than any other in your neighborhood get Campines. We will start you right with the best stock obtainable. Price of eggs of both Silver and Golden prize winning stock, $2.50 per 15, $4.50 per 30 eggs. Extra selected male, $4.50, extra selected female, $3.50.

**Prize Winning Single Comb White Leghorns**

**Ideal Rhode Island Reds**

**Partridge Cochins**
The carriage is quiet and dignified. They are very large and are a profitable cross for increasing the size, hardness and early maturing of barnyard fowls, for which purpose they are in great demand. They may be confined by a low fence, three feet being ample height. Will thrive well in small yards. Standard weights, male, 9 to 12 lbs.; female, 7 to 10 lbs. **Prices:**—Extra selected male, $4.50; female, $3.50; extra selected trio, $10.00; eggs, per 15, $2.50; per 30, $4.50.

**Buff Orpingtons**

**Will Recommend Us**

Thomas Lawson, Pittsburgh, Pa., writes us: The fifty Golden Campine eggs you shipped me hatched out 38 fine healthy chicks and I raised 46 of them.

Received the turkeys in fine shape, and am very much pleased with them. I will soon send my order for eggs, and also recommend you to others. —Vernon Thornton, Spring Glen, N. Y.
White Orpingtons (bred from the famous Kemerstraas Strain.) The White Orpington has come to stay; it is claimed by the best authorities as being the best all-purpose fowl in existence today. As layers they rank with many of the Leghorns and Hamburgs. They begin laying at an early age; pullets begin laying under five months; they are of larger size and of symmetrical shape, excellent mothers and keep the egg basket filled when eggs bring the highest prices. They mature into plumage at an earlier age and at a less cost than any other breed of fowls; as to eating qualities they cannot be excelled by any other breed, their meat being juicy and full of flavor. We have high class of fine tested fancy birds which are bred to lay; only the very best layers are used to breed from; vigorous and in health, the only kind of stock you will ever want.

Selected males, cock or cockerel $4.00, female $3.00, trio $8.50, eggs from fancy prize winning stock, per 15 $3.00, per 50 $15.00.

Single Comb Black Orpingtons

Black Orpingtons are the last acquisition in the Orpington family, and as there is an Orpington craze sweeping the country, the Black and the brown should not be overlooked. As a black fowl they are the most stately of all varieties. In all other respects they are the same as the White Orpingtons. Our stock is Standard bred to perfection and we have selected flocks.

Prices—Extra selected single male $4.50, female $3.00, eggs per 15 $2.00, per 50 $8.50.

White Faced Black Spanish

They need no description as all farmers recognize them at once. When you want large, even slips, and plenty of them on a small ration of food get the White Faced Black Spanish. With their glossy jet black plumage, red combs and wattles, and large white ear-lobes, they are a majestic and showy carriage, they are not to be excelled. As the cut represents they are black with white faces, and very shewy and handsome. Like all Spanish breeds, they lay large eggs and are strictly non-sitters. They are not very extensively known and would recommend a larger and more general cultivation. Prices—Extra selected single male $4.00, female $3.00, eggs per 15 $2.00, extra selected trio $8.00, eggs per 15 $3.75, per 50 $15.75.

Black Breasted Red Game

The Black Breasted Red Game is the best known, being the oldest breed of Game and probably bred the most extensive for a variety of the Game family. They are good sitters and their quality and qualities are about all the same. Our strain is noted for laying as well as being the most courageous and hardy. Prices—Extra selected single male $4.50, females $5.00, trio $9.50, eggs per 15 $2.50, per 50 $10.75.

Pearl Guineas

They are very hardy, easy to raise, great layers, laying more than 200 eggs in a single season No farmer's flock is complete without them. They lay very attractive and can be given their liberty at all times on the lawn or garden. They never scratch. Prices—Extra selected single male $3.00, female $2.00, trio $6.00, eggs per 15 $2.00, per 50 $10.50.

White African Guineas

White African Guineas are much more valuable for eating or market purposes than any other varieties. They are of larger size, harder, much more easily raised and far better layers than common guineas. They are decidedly more profitable to grow than chickens. They are in great demand in all large cities. Another advantage over other varieties is that they are quiet and docile, seldom straying from the barnyard or barn.

Their flesh is more delicate and better flavored than any other kind of guinea. They are universal layers and will produce eggs until cold weather sets in. Guinea fowl should be on every farm as they are always on the lookout and save many a small chick from the hawks. Their fine flavored flesh resembles partridges. They are better than watch dogs, as they do not noise them to utter their shrill cries. You will find it the most profitable investment you ever made.

Prices—Extra selected males $3.50, female $2.50, trio $6.00, eggs per 15 $2.75, per 50 $13.75.

Standard Mammoth Bronze Turkeys

Our Standard Mammoth Bronze is the hardiest of all turkeys, and the most extensively raised of any breed. Gobblers frequently weigh upwards of 250 lbs. Many of the breeders are hardy and many claiming them to lay over one hundred eggs in one season. Plumage of male back and breast is a beautiful bronze, the tail being chestnut-like, bronzy and whitish gold. The wing covers are a beautiful bronze, the feathers tersely barred in a beautiful chestnut-like color, with a combination of white and a greyish black tips, separated from the primaries by a glossy black ribon-like mark, formed by the ends of the covert. The tail, each feather is plumaged with narrow bands of black extending in a broad black band, with a wide edging of white. Prices—Extra selected single male $12.50, female $9.50, extra selected trio $25.00, eggs each 50c., per 10 $4.75.

White Holland Turkeys

The White Holland Turkeys are domestic in their habits and will stay near at home, not running as far away as the Mammoth Bronze Turkeys. They are splendid for market and table purposes. Our stock is extra large size. Their plumage is snow white throughout. Prices—Extra selected single male $12.50, female $9.50, extra selected trio $25.00, eggs each 50c., per 10 $4.75.

Bourbon Red Turkeys

This valuable new and interesting type is a comparatively new variety of turkeys in this country, but are gaining with great approval with all those who try them. They are large, standard weight, tom 27 pounds, hens 18 pounds. They are very hardy and less subject to diseases than other types. They are sold to the eye, they are of rich red color, shading to a bluish white. Our stock is pure and well bred, is very limited and we advise you to order early.

Prices—Extra selected single male $11.50, female $8.50, eggs each 50c., per 10 $5.50.
Sicilian Buttercups—Buttercups are absolutely non-sitters, their whole thought and force is concentrated seemingly to run to the production of eggs, apparently to the exclusion of all other aims. Autumn and Winter, nothing but eggs, first, last and all the time. In fact, they are one of the few breeds which have made a record of nearly 300 eggs within a calendar year. Their bodies are very graceful and heavy for their size, which is about on a par with Leghorns, and come to maturity very early, our June hatched chicks beginning to lay in December and continuing without interruption through the coldest January and February weather. Eggs, per doz., $3.75; per $10, $35.00, extra selected male or female, $4.50, extra selected trio, $17.50, eggs 50c. each, per 10 $4.50.

Hong-Kong or Chinese Geese—Of the Hong-Kong, or Chinese Geese, there are two varieties; one pure white in plumage, the other an even mixture of white and brown. They lay twice as many eggs as other breeds. The peculiar knot at the base of the bill makes them at once ornamental and luxurious. They are more or less like an animal in shape and carriage than any other breed on earth. Many people prefer the Chinese. They are good foragers and the young are easy to raise. We breed both white and gray. Prices—Extra selected male or female, $6.00 each; eggs, 50c. each, $4.50 per 10.

Toulouse Geese—The Toulouse, both male and female, are very massive in proportion. Their bills and feet are dark orange color, head, neck, and back a dark gray; breast light gray, but descending lighter till the tailfeathers are pure white. Both males and females are uniform in color, being alike to a feather. Goose raising is very profitable, as they need no grain in the summer when the herbage is abundant and no grain from feeding, and all feeders in winter. Now while the expense is so light to keep them, and you can, on the other hand, pick their feathers four times in one season, making about two pounds of feathers from one goose, which is worth a dollar or two besides the young you can raise, makes them very profitable.

White Emden Geese—These originated from Africa, they resemble the Chinese and are a most desirable breed of goose. Are large in size, very hardy, good foragers, good layers, sitters and mothers. When full grown weigh about 12 pounds, often lay 250 to 300 eggs in a season. Eggs, $5.00 per 10; birds, male or female, $6.00 each.

Mammoth Imperial Pekin Ducks—Are the most extensively raised. They are of a rich, creamy white and are very hardy. We have seen ducklings at the age of eight weeks weigh over four pounds and in full feather. They are splendid layers, having known them to lay as high as 70 eggs in succession. In our strain the necks are strongly built, back broad and long, breast full and round, and the body deep and very long. Standard weight, drakes 9 lbs.; ducks 8 lbs. Prices—Drakes $4.00 to $5.00 each, females $3.50 to $4.50 each, extra selected trio, $8.00, per $25, $22.50, per $50, $45.00.

White Brazilian Squaw Ducks—This is a rather new breed of ducks, being imported from Brazil. They have the most good qualities of both Indian Runner and Pekin, color being pure white. They are named for their prolific laying. 150 eggs per year is not unusual; eggs in size, shape and color are unsurpassed, as they are large, nearly always pure white. They are very hardy, develop rapidly and are very easily raised. Our stock is the typical Indian Runner type and are now classed as the foremost Duck on account of their enormous laying qualities. We can furnish eggs from two flocks bred not akin, also stock run-of-the-mill classes. Prices—Extra selected male or female, $5.00 per 10; trio, $8.00, eggs $2.50 per 15.

Golden Sebright Bantams—We are breeding Golden Sebright Bantams from the best strains in America. The Golden Sebrights are the most popular Bantams on earth with their gay feathers—golden evenly hatched with jet black, win for themselves the admiration of all poultrymen. As a producer they are unsurpassed, laying more eggs to the acre than any other breed, even the Pekin. Cook $3.00, hens $3.50, eggs $5.50 per 15.

White Cochins—White Cochins are the most beautiful breed of the Cochins. Variety. In color they are as white as chalk. They are very hardy and make good pets and raise well. They are good and make good sitters and mothers. The cocks are fairly and easily raised. Too much cannot be said about this wonderful breed. Prices—Male, $3.50 each; female, $2.50 each; trio, $8.00, eggs $2.50 per 15.

Buff Cochins—The Cochins are a very beautiful breed of small fowls. In color they are golden buff, same as the Buff Cochins, except the cock is usually dark, almost chestnut. They are tame and quiet, make the very finest pets. In size they are just a little larger than the ordinary bantams and are good sitters and mothers. Chicks are easily raised. Too much cannot be said about this beautiful breed. Prices—Male, $2.75, female $2.50, eggs per 15 $2.00.

Borage Spinach—This useful vegetable is of easy cultivation and should be in every garden. The leaves have a distinct and delicious flavor and are used as spinach greens or salad, boiled and prepared like spinach. The beautiful blue flowers can be used to garnish salads. It is also a valuable horticultural feature, being as attractive in the garden as an ordinary spinach. The leaves, which are produced in great quantities through the summer months, can be gathered all summer up until hard frost. Our leaves grow in frames all winter. Your garden is not complete without it. 1 oz. will plant 25 to 30 ft. of drill. Price, 100 oz. 25c., 1 lb. 60c., 1 lb. $2.00.

American Turnip Spinach—This turnip makes no bulb but produces an enormous quantity of tender tops of a distinct and pleasant flavor which are used as spinach greens or salad. Variety. The tops of tops all summer when ordinary spinach has gone to seed. The same plant will afford repeated cuttings all summer. One ounce will sow 150 feet of drill. Price, 100 oz. 25c., 1 lb. 60c., 1 lb. $2.00.

Holt's Mammoth Sage—The plants are of strong growth, attain a height of 1 foot the first season and spread so that a single plant covers a space 3 feet in diameter. They are perfectly hardy and make a still larger growth the second season. Our illustration shows a leaf of natural size; they are borne well above the soil and of superior quality. It does not seed. Price, each, 15c., 5 for 50c., 7 for 55c., 14 plants for $1.00 by mail, postpaid.

Magnolia Scotch Collie
Shepherd Kennels

The Most Useful
of all Dogs

The Collie is the most useful dog for all purposes, possessing great intelligence, and remarkable for being most easily taught. A properly bred Collie thinks and acts for himself when in a quandary and is a good and faithful watch dog. The pure-bred Scotch Collies are of a kind and affectionate disposition, and become strongly attached to their master's family. They are very watchful and always on the alert, while their intelligence is really marvelous. At one year old they are able to perform full duty, herding sheep, cattle, swine and other stock, attending them all day when necessary, keeping them together and where they belong, and driving off all strange intruders. They learn to know their master's animals from others in a very short time, and a well-trained dog will gather them up with extraordinary speed. Scotch Collies are a dainty carriage and fine style, profuse silky hair of satisfaction, and can be depended on to bring the dog quickly to condition. Price, $60.00 to $80.00.

In the event of a customer buying more than one dog, we can guarantee to furnish a 25 lb. bag. Our breeding records are very carefully kept and we can always supply stock not related.

GOOD THINGS FOR THE POULTRY KEEPER

NEW CHINESE WINTER EGG BEET

Thrives on any soil and anywhere in the Middle States, and is the most valuable winter egg producing poultry feed known. It is especially valuable for feeding chickens that are confined to small enclosures and to such it should be fed the year round. The culture is the same as for ordinary field or garden beets. Both the roots and tops are eaten with great relish by all chickens the whole year round. It will be found a wonderful egg producer the year round as well as the cheapest and most valuable winter food. It will enable you to cut your grain rations in one-half. Four pounds will plant an acre. The roots can be preserved during winter same as turnips or potatoes. Culture same as for garden beets and the yield per acre may easily exceed 4,000 bushels. The flesh is a pale golden yellow and it is the most productive and most nutritious of all beets. It is likewise an excellent sort for the kitchen garden. Plant same time as field corn. It is not only a wonderful egg producer, flesh former, and economizer in grain feed, but it is a wonderful health promoter as well. Feed it freely and keep your chickens in perfect laying vigor and health. Pkt., 5c.; oz. 15c.; 1 lb. 55c.; 10 lb. $1.25.

BELGIAN POULTRY BEET

The cheapest and best form of green food for poultry. Will thrive on any soil and responds wonderfully to liberal manuring. The tops of the beets are greedily eaten by all kinds of poultry. In Belgium, where the production of eggs and the finest flavored poultry is produced, this beet forms a large part of the daily ration. It also keeps the bird in the pink of condition. Feed beets can be cut in half or less by feeding this wonderful forage. The meat of all poultry fed on this beet top is remarkably sweet and tender, while the egg yield is greatly increased. If you grow poultry for pleasure or profit, and no matter whether your flock is large or small, it pays. They have been taught to grow and produce several tons in succession. Pkt., 7c.; oz. 15c.; 1 lb. 40c.; 10 lb. $1.50, by mail postpaid.

The celebrated high priced world renowned hams grown in Westphalia, Germany, are principally produced from hogs fed on this celebrated pasture mixture, which is made up of annual varieties of grains and fodder plants, all of which give a marvelous amount of highly nutritious hog food at a very low cost.

Hogs can be turned into it in about six weeks from time of sowing and such hog eating you never saw for growing hogs or brood sows. It is a great fat producer and keeps young or old hogs in prime, thrifty, healthy condition. Hog diseases are rarely known where this pasture is used. It makes a continuous growth and its results are marvelous. Sow from 35 to 40 lbs. per acre. 25 lbs. $2.75, 50 lbs. $5.50, 100 lbs. $10.25.
Hot-Water Incubator

Advantages of Hot-Water Heating

IN THE FIRST PLACE the heat is more steady. It does not become so intense at any time as is usual with "cook" type heaters. When you take out the lamp to fill and clean it, the heat is maintained in the egg chamber without the slightest variation. Suppose you should forget to fill the lamp and it would go out, the hatch would be safe for hours as the tank would keep the eggs warm meanwhile. With the hot-water system you can heat and hold the heat so to speak, where you want it. The tank and heater are made of the best quality, brooder cold rolled heavy weight copper.

BEST OF ALL HOT-WATER HEAT is the right kind of heat for hatching, because there is not that drying out that is the case in all hot-air machines. It is unnecessary under any ordinary conditions to supply moisture in the tank, as the circulation of water through the pipes neither adds nor takes away moisture to the air to the eggs naturally, like the mother hen does. Hot-water heat is admirably the best for your house, so it must be the best for your incubator.

LOOK AT IT CAREFULLY and we will briefly go over the features that put the Queen in a class by itself and make it the best hot-water incubator.

The queen incubators are made of California redwood, with double walls, filled between with wool felt.

THE DOORS ARE DOUBLE, the inner one being of glass. Extra care in the manufacture of these doors and the use of the wooden brooder to prevent cold from passing through them, makes the insulation doubly sure. A dead air space is a non-conductor of heat, and is used wherever a good insulating wall is wanted.

THE BEST thing about the Queen regulator is that it absolutely regulates the temperature to a nicety. The care with which it is built and the carelessness of its adjustment are not equalled anywhere. If ever the temperature begins to get too high, it will automatically cut the heat off and regulate it. The Queen regulates within a quarter of a degree, though the temperature outside may vary fifty degrees. It is the only hinge that is reliable to measure such a record. Full instructions with each machine.

YOU CAN DEPEND ON A QUEEN incubator for two things—economy and reliability under sudden changes in the temperature outside.

An incubator costs only a fraction to run as against one that has poor insulation. The common, cheap machine is losing heat rapidly and needs two or three times the heat it should have in order to keep the necessary temperature.

RANCH SIZE QUEEN. Of late years there has been an insistent demand for large size hatchers. This comes principally from large poultry farms and ranches, but still a great many inquirers come from those who have only a few hundred or trying to start a large business. But we have working on such applications and the following quantities are available. The Queen incapacitated incubator is the only one of its kind to be built with the requisite accuracies and many of them have been sold on this understanding. Incubator built with the necessary temperature.

QUEEN INCUBATORS are FURNISHED COMPLETE with automatic heat regulators, jacketed copper boiler and radiant, galvanized steel lamp, bowl with steel chimney and heavy brass burner with regulators, removable metal lamp shield, best mercury thermometer, funnel, egg tilter, egg trays, chick and nursery drawers, screws and washers for attaching parts, and book of instructions which tells how to use the machine and win the Queen for big results and also gives a large amount of information, useful to the chicken raiser.

QUEEN INCUBATORS ARE BUILT COMPLETE AT THE FACTORY and DO NOT REQUIRE A MECHANIC TO SET THEM UP. READY FOR BUSINESS.

QUEEN BROODERS ARE EQUAL to Queen incubators in merit. The same study and workmanship that made the Queen incubator the sure, reliable machine that it is, were put into the Queen brooder. I ask you to investigate it and convince yourself of this fact.

IT MIGHT BE PROPER to say here that an outdoor brooder will work indoors as well as out. Also, an indoor brooder is all right for outdoor use when the weather is not stormy.

WANTS THREE MORE.

1205 79th Street, Brooklyn, New York, November 21.

Well, I have tried out one of your Queen incubators, and let me state that it has been a grand success. Out of 122 fertile eggs placed in one of your 180-egg incubators, they hatch out 117 fine, healthy chicks. In January I will give you an order for three more incubators.

Respectfully yours, HENRY T. MARTIN.

EVERYBODY PLEASED WITH THE QUEEN

I thought I must let you know what success I have had with the Queen incubator (240-egg) I bought of you last spring. I have had four good batches, the first averaged 85 per cent., the next two 92 per cent., and the last 89 per cent., so you may know I am well pleased with the Queen.

H. R. STRICKER, R. 3.

QUEEN BROODERS RAISED NEARLY ALL THE CHICKS for Watt M. Perrin, of Sargent, Neb., by using a good incubator and brooders too much.

DIDN'T KNOW HE HAD AN INCUBATOR.

Smithfield, Pa., March 29.

I promised to write my success with the Queen incubator, and think that the Queen is just fine, and it will all do that for you if it is tended. I had no trouble with it at all—it is so easy to run that I hardly knew I had an incubator at all.

WILLIAM PASTORUS.

The “Cozy” Hover

Our most popular seller. Of heaviest galvanized steel material. Ideal circular hot-air heating: built-in lamp; glass in top; visible thermometer; odorless burner; 50 to 75 chick size; positively guaranteed. A small yard of poultry netting can easily be attached.

Model D125, each $6.00

IT PAYS TO BUY THE BEST. We have all that we know to be good in HIGH GRADE POULTRY SUPPLIES—THE LARGEST COLLECTION—THE BEST SELECTION—THE BEST ATTENTION. Come see us.

THE MOORE SEED COMPANY

125 Market Street

You Can Make Poultry Raising Pay Big Profits if You Use Our Incubators

The Wonderful Golden Hatcher

America’s Never Broody Wooden Hen

This incubator we have designed and built for those of our Poultry Friends who wish to get good dependable, guaranteed, low priced, high grade, small capacity hot water wooden machine.

The heater and pipes, connecting heater to radiator or circulating pipes are all made from the best sheet brass, with brass flanges.

The case is made of No. 1 grade California redwood. This is covered with air cell or cellular fiber board which forms the insulation. The top is insulated with heavy cellular asbestos board. The outside finished case is of strong sheet steel, enamelled, olive green color, making a very strong, durable machine, absolutely fireproof, built to give years of satisfactory service.

The Golden is a Wonderful Hatcher. It will hatch from 80 to 90 per cent right along. The majority of the hatches ran nearer 90 per cent. Some hatches were better than 90 per cent. Some operators report that the Golden hatched even a larger per cent. of strong.

World’s GREATEST All Metal Hot Water Hatcher

Simplicity Combined Hot-Water Hatcher and Brooder

SIMPPLICITY INCUBATORS

Have No Cold Corners

Its Convenience. Note how compact, how comparatively small, an incubator. It looks fine.

Glass in Top. Not necessary to open incubator to view thermometer! Eggs in plain sight all the time.

Long Life. Won’t rust and leak; lasts a lifetime.

The Circular Shape of the machine is a great advantage. There are no cold corners in the hatcher or corners in the brooder for the little chicks to crowd into. No brooder could be safer than the Simplicity.

Oil Saving. No. 1. Due to great heating capacity of circular radiator; small flame radiates large volume of heat in egg chamber. No. 2. Due to air-tight, splendidly insulated metal body; keeps heat in and cold out. A 50% oil saving.

Brooder Feature. Another exclusive Simplicity feature; better than the hen; no cramped chicks; no accidents. Brooder is part of hatcher. Same heat, same even moist warmth; sanitary, light and perfectly ventilated.

Our Low Price. Never before so much real quality for so low a price. Considering what the Simplicity will do — the way it will hatch, the oil it saves, the eggs it saves — it’s the most economical hatcher and brooder in the world. Judges it by what it will do.

Three Sizes

All three sizes can be sent by Parcel Post. We give cost on application.

Model A-50—50-egg size, copper tank, $11.00, Size 17 inches in diameter. Shipping weight, 20 pounds.

Model A-100—100-egg size, copper tank, $16.00. Size 22 inches in diameter. Shipping weight, 30 pounds.

THE PEERLESS-66 BROODERS

The Peerless-66 Brooders are round like the Hatchers — no corners in which the chicks can crowd and be smothered. They are made entirely of metal, with the exception of the flannel curtain and felt insulated lining.

In the Lamp Heated Brooder the water is forced through a double coil pipe heater and kept in constant circulation by the best of the lamp. The lamp heated brooder is provided with a thermometer and regulator. Price, $8.00.

“Peerless-66” is the Most Remarkable All Metal Hot Air Hatcher in the World

No Trays to Handle

Heat, Moisture, Ventilation, All Perfect

Proven Peerless Principles Perfect

They have proven that this hatcher, all metal, round like a nest, built on the famous Sheer Water System, is just the right size to give the greatest economy. It will last for years. They have proven this by the profits this hatcher has put in their pockets. That’s why J. H. of Georgia, reports: 97 per cent. Hatches.

“Peerless-66” — 66 Eggs Only — $7.50

The machine is equipped throughout with the famous Sheer Fixtures. The wonderful Sheer Water Thermostat Regulator automatically controls heat, regulates moisture and ventilation. Overheating is impossible. The heating plant is a marvel. Simple, positive, unrequined.

THE PEERLESS-66 BROODERS

The Peerless-66 Brooders are round like the Hatchers—no corners in which the chicks can crowd and be smothered. They are made entirely of metal, with the exception of the flannel curtain and felt insulated lining.

In the Lamp Heated Brooder the water is forced through a double coil pipe heater and kept in constant circulation by the best of the lamp. The lamp heated brooder is provided with a thermometer and regulator. Price, $8.00.

Capacity 60 Eggs

The egg tray has a slip section so the chicks will drop into the nursery as fast as hatched.

The ventilation is purely automatic. You cannot make any mistake in the ventilation. It is equipped with a moisture pan, thermometer, egg tester, etc. operation. Price, complete, only $8.00.
Cyphers Incubators, Hovers and Brooders

CYPHERS SUPERIOR
Hot-Water Incubators

Guaranteed to be the Best Hatcher of the Largest Percentages of Strong, Vigorous, Healthy Chicks.
Beginners Obtain Success with Them on First Trials. Every Machine is Warranted.

MADE IN FOUR SIZES

No. 0 Incubator—Capacity, about 70 Hen Eggs, 56 Duck Eggs $18.00
No. 1 Incubator— " 144 " 112 " 26.50
No. 2 Incubator— " 244 " 300 " 46.00
No. 3 Incubator— " 390 " 300 " 60.00

We supply an X-Ray Egg Tester, a tested Cyphers Incubator Thermometer, and our booklet, "Directions for Operating and Hints to Aid the Operator," packed in every incubator.

Our No. 2 INCUBATOR holds 244 eggs, and is a most desirable machine in every way. It serves the fancier who wishes to hatch a couple of hundred chicks in a season and hatch them all at one time, or the breeder who wishes to raise from 500 to 600 during the early spring months. It is the most economical machine on the market, except our 800-egg incubator, which is generally used upon very large plants. We recommend this machine to the full-fledged fancier and the farmer who raises poultry on a good-sized scale.

No. 2 INCUBATOR, CAPACITY 244 EGGS

The No. 2 and No. 3 Standard Cyphers Incubators are equipped with what we call a drop-bottom.
These two larger-sized machines are also furnished with two nursery drawers. The drawers occupy the nursery space underneath the egg trays and are reached through a solid wooden door.
The No. 0 and No. 1 size incubators are not equipped with the nursery drawers, for the reason that they are not required in these smaller-sized machines. These two smaller-sized machines contain all other improvements, including the new metal-cap, banded heaters, the latest-improved thermostats, the removable top, the inclined egg trays, and the split lower diaphragm.

No. 3 INCUBATOR, CAPACITY 390 EGGS
Our No. 3 INCUBATOR is the machine that operators of large poultry plants are using. It holds 390 hen eggs, and is a model of usefulness and finish. They are the business machines of the Twentieth Century, and have enabled practical men to increase the size of their plants till they raise 40,000 and 50,000 ducks a year.

The Same Amount Of Feed Will Raise Each

The Same Amount Of Feed Will Raise Each

CAPON TOOLS

Anyone can turn young cockerels into capons and double their poultry profits. Cheaper and easier to raise, need less care; same amount of feed required for the experimental produces 6 lb capon, selling for 30c. per pound when capons bring only 15c. Complete directions with every set.

Philadelphia Caponizing Set, complete with instructions, in paper box. $2.25 by parcel post, insured, $2.50. Violet-lined case, $3.00; by parcel post, insured, $3.10.
The Farmer Caponizing Set in velvet case, $3.25 by parcel post, insured, $3.50.
The Millea Caponizing Set. The tools are of the latest up-to-date kind, of the finest steel and best workmanship. Velvet case, $5.00, postpaid.
Thermometers

No. 5756
“Tycos” Incubator Thermometer

No. 5780
Incubator Thermometer with Wire Hanger

No. 5782
“Tycos” Certified Incubator Thermometer

THERMOMETER FACTS WORTH KNOWING

The successful hatching of chicks is an intensely interesting and delicate operation and too much care and good judgment cannot be exercised in the selection of a thermometer. Success in operating an incubator depends more upon the accuracy of its Thermometer and the control of temperature than upon any other one feature. You will readily agree that the best incubator made, if furnished with an unimpeachable, accurate Thermometer, is little better than any dry goods box for hatching chickens. Get a “Tycos” from us and get satisfaction. They cost no more than the ordinary kind.

No. 5770 is made with metal legs, which fold under and may be adjusted to almost any desired position. Sets in among the eggs on the floor of the incubator. Each 90c., or 95c., postpaid.

No. 5774. A very popular style. Each 90c., or 95c., postpaid.

No. 5750. This straight type incubator Thermometer is considered by many to be very desirable because of its easy reading, upright scale, which can be used all day long, or supported by the flange on a wire. Each $3.30; each 90c., or 95c., postpaid.

No. 5782. “Tycos” Certified Incubator Thermometer with scale engraved on the glass tube to insure positive accuracy. This Thermometer has the additional advantage, afforded by the engraved tube, that should the tube from any cause work loose on the mounting, the efficiency of the thermometer would not be in any manner impaired. Each Thermometer furnished with certificate of accuracy. Each $1.00, by mail, postpaid, $1.10.

No. 5790. “Tycos” Brooder Thermometer. Made to set into a hole in top of brooder, the part above shoulder or flange remaining exposed, to admit of easy reading. Has magnifying lens front, making much easier reading of the scale. Each $1.50; by mail, postpaid, 90c.

No. 10. Metal Brooder Thermometer. Each, 50c.; postpaid, 60c.

No. 33. Poultry Scalding Thermometer, 200 degrees. Each, $1.50; postpaid, $1.00.

No. 5796. “Tycos” Incubator Hygrometer. In order to control the moisture conditions in your incubator, you must first be known, and for this purpose a “Tycos” Incubator Hygrometer is necessary. This instrument tells the percentage of moisture present, just as the “Tycos” Incubator Thermometer tells the degrees of heat present—notther one takes the place of or does any part of the work of the other, but both should be used together. Millions of chicks die in the shell every year for the want of proper moisture conditions. The first week about 60%; the second week about 50%; the third week about 50%; hatching time about 45%. Full directions with each instrument. Each, $1.80; postpaid, $1.75.

You Must Spray to Save Your Trees, Fruits and Crops

"AUTO-SPRAY" No. 1

A SELF-OPERATING OR AUTOMATIC SPRAYER

A practical machine for spraying potatoes, tobacco, small fruits, vineyards, greenhouses, poultry houses, etc. Also excellent for white-washing and disinfecting buildings, etc.

The "AUTO-SPRAY" No. 1 is the strongest, most useful and most generally used of all spray pumps. It will do all that any spray pump can do, and in most cases it will do the work quicker and better. It has superseded the bucket and pump sprayers, which require constant pumping, and is positively and absolutely guaranteed against all defect. Tested before leaving the factory.

For work, to operate the "AUTO-SPRAY." The user simply holds the nozzle under the air and with a few strokes of plunger. Nearly 300,000 of these sprayers are now being used with extreme satisfaction.

We recommend the brass tank as costing but little more than galvanized, and it is practically indestructible.

When desired we furnish brass extension pipes in two-foot lengths for spraying trees. The universal equipment for tree work is three lengths, and the price is as follows. With every "Auto-Spray" is supplied FREE OF CHARGE the most complete and up-to-date spray calendar ever issued.

CAPACITY ABOUT 4 GALLONS.

The space being carried by the shoulder strap leaves both hands of the person operating nothing to do but direct the spray.

By the action of the "Auto-Pop" a degreaser stem is passed through the nozzle every time the "Auto-Pop" is closed, hence the nozzle is automatically cleaned every time it is opened.

LEGGETT'S CHAMPION DRY-POWDER DUSTER

Distributes Paris Green, Helleborine, Sulphur, Dry Bordeaux Mixture, etc. Dispenses with both labor and cost of using sprays, and is especially designed for the use of farmers, fruit-growers, nurseriesmen, and horticulturists. This implement has proved itself in harnessing the vital forces of the elements without injury, and to produce the work with great economy. The Dry method is often used in breweries, flour, and other industries.

The entire force is kept up by the action of the current of air. The pump is simply reversed and the nozzle thrown to the desired position. It will distribute liquid sprays. Will do as much work in a day as a horse-power sprayer. Will clean the same amount in a third of the time.

For Farm, Garden, Vineyard, Tobacco Fields, Dust potato vines as fast as you walk, two rows at a time. Reservoir holds nearly a quart of powder. Machine weighs 8 lbs. One pump in a case complete, 8 tubes, 6 nozzles, 4 straps and can. Our Improved Little Giant differs but slightly from the Champion Duster, except in size, being a trifle smaller. Price, $7.00.
**Remedies for Insects and Fungus**

**Prices Subject to Market Changes**

---

**Ant Exterminator Powder.** Very effectual for destroying ants in gardens and lawns. Per 1 lb., 20c.; per 1 lb., 40c.; per lb., 75c.

**Aphid Killer.** Kills aphids and thrips very effectively. Especially valuable for rose-fungus. Per pkg., 50c.; $0.50 per 12 pkgs. Arsenate of Lead. Sold in 5-lb. bags. A preparation containing 25% of arsenic pentoxide, which is used in the preparation of various brands of soil fungicide.

**Bordeaux-Mixture Powder.** Guaranteed quality. This is a combination of Bordeaux of Lead and Bordeaux of Copper. sell in 5-lb. bags. Dilutes 1 oz. to 1 gal. of water. Use either fresh or thoroughly agitated.

**Bug Death.** A non-poisonous, insect-killing powder that is in high favor with gardeners. It is recommended for cabbage, cauliflower, beets, and other vegetables. It kills the bugs and prevents blight. Plants affected by it will grow more vigorously and fruits better. Price, 5 lb., 20c.; per 1 lb., 10c.; per pkg., .50c.; per box, 50c.

**Dilute Spreads, French.** This is a very popular product for use in the treatment of various diseases and pests in greenhouses. It is used to control various fungi and insect pests. Treatment with this dilute spread can be very effective, and it is relatively safe for use in greenhouses.

---

**Nov-o-icide (Conkey).** The best poultry and stock disinfectant. It mixes with water, in correct proportion for using, one gallon making 25 gallons of solution. A ready-to-use solution of insecticide. A good article of its kind ever put out. For poultry, it is an unexceeded article. For garden purposes, a very pure and potent fungicide and insecticide. It is excellent for all live stock and is a high-grade sheep dip. It cuts cures, galls, scratches, thrush, cracks, fissures, and other pestilences. It is a general fungicide and insecticide, even for humanity. Prices, 1 pt., 50c.; 1 qt., 75c.; 2 qts., $1.00; 1 gal., $1.75; 5 gals., (lacketed), $7.50; 10 gals., (jacketed), $15.00.

**Paris Green (Pure).** 1 lb., 25c.; 1 lb., 50c.; 5 lb., 85c.; 50 lb., $2.25.

**Red Corn.** For destroying rats and mice in greenhouses, etc. They decay without odor. 15c., 25c., 50c. and $1.00 per box. Also for household purposes. In bottles or tins.

**Scale Destroyer.** “Target Brand.” Guaranteed and Economical. A strong preparation of lead arsenate and copper sulfate, which is effective against all kinds of fruit and shade trees. 200 per cent more effective than lime-sulfur and salt preparations and 250 per cent more effective than lead arsenate and copper sulfate. It is used in an aqueous solution and is highly recommended for use in water and will not separate, nor does it need to be agitated while standing. It is the cheapest, easiest to prepare, and the most reliable spray for fruit growing either on a large or a small scale. It is very economical: one bottle of ten gallons covers one acre, or 20 sq. yds., 100 sq. ft., 60 sq. ft., 10 sq. ft. Price, $1.25; 5 gals., $4.75; 30 gals. in wood, $25.00; 50-gal. barrels, shipped free.

**Sulphur Fumigations.** Sulphur fumigations are widely used in the control of pests in greenhouses. Sulphur is an effective disinfectant and insecticide. It is often used in the form of sulphur powder or as a sulphur fumigant. Sulphur powder is a common ingredient in many commercial pesticides. Sulphur fumigations are effective against a wide range of pests, including ants, aphids, and other insects. They are also effective against certain fungi that cause diseases in plants. Sulphur fumigations are widely used in greenhouses and other indoor environments to control pests and diseases. They are easy to use and are relatively safe for greenhouses.

---

**Slughunter.** A non-poisonous powder insecticide; it requires no mixing or preparation. It is easy and economical for use and will not injure the person or any other living creature. It is highly recommended for use in greenhouses, for slug and algal pests. Price, per onz. in pkgs., 50c.; per box, $1.75.

**Tobacco Dust, Powdered.** Made from aged tobacco. This is a popular product used as a fungicide and insecticide. It is effective against a variety of pests and diseases, including fungus diseases, aphids, and thrips. It is commonly used in greenhouses and other indoor environments. The dust is applied directly to the soil or treated area, and it is effective against a wide range of pests and diseases. Tobacco dust is easy to use and is relatively safe for people and the environment.

**Tobacco Stem.** From domestic larvae. Usually used for controlling pests in greenhouses. It is effective against a variety of pests, including aphids, thrips, and other insects. Tobacco stem is commonly used in greenhouses and other indoor environments. It is easy to use and is relatively safe for people and the environment. Tobacco stem is a popular product for controlling pests in greenhouses and other indoor environments. It is effective against a variety of pests and diseases, and it is easy to use and is relatively safe for people and the environment.

---

**Tobacco Water Oil.** A highly refined solution of “free” nicotine, guaranteed under the National Insecticide Act to contain 40 per cent. It is a ready-to-use, insecticidal and fungicidal agent that can be used to control various pests and diseases. Tobacco water oil is a popular product for use in greenhouses and other indoor environments. It is effective against a variety of pests and diseases, and it is easy to use and is relatively safe for people and the environment. Tobacco water oil is a highly refined solution of “free” nicotine, guaranteed under the National Insecticide Act to contain 40 per cent. **Tobacco Powdered.** Made from aged tobacco. This is a popular product used as a fungicide and insecticide. It is effective against a variety of pests and diseases, including fungus diseases, aphids, and thrips. It is commonly used in greenhouses and other indoor environments. The powdered tobacco is applied directly to the soil or treated area, and it is effective against a wide range of pests and diseases. Tobacco powder is easy to use and is relatively safe for people and the environment. Tobacco powder is a popular product for controlling pests in greenhouses and other indoor environments. It is effective against a variety of pests and diseases, and it is easy to use and is relatively safe for people and the environment. Tobacco powder is a popular product for controlling pests in greenhouses and other indoor environments. It is effective against a variety of pests and diseases, and it is easy to use and is relatively safe for people and the environment.
THE "IRON AGE" FARM AND GARDEN IMPLEMENTS

The No. 6 "Iron Age" Combined Double and Single Wheel Hoe, Hill and Drill Seeder
This tool is a most practical and complete garden tool—the ease and simplicity of adjustment, the lightness combined with great strength, the accuracy by which it drills or hills the seed, and the small amount of power required to operate it, are the important features. In each form, whether a Seed Drill, a Double Wheel Hoe, or a Single Wheel Hoe, it is equal to any tool or tools made especially for the one purpose. It places the seeds in drills or in hills. Complete, as in cut, price $17.00. As a Hill and Drill Seeder only ("Iron Age," No. 317), price $14.00.

No. 15 "Iron Age" Combined Single Wheel Hoe, Hill and Drill Seeder
In combining these tools not a single advantage is lost of a separate Single Wheel Hoe or Seed Drill. As each they are in themselves complete. Changed from one form to another almost instantly. It places the seed in hills or drills. Price $12.00. As a Hill and Drill Seeder only (No. 10), $8.50.
For a plain Drill Seeder order "Iron Age" No. 18. Price $12.50.

No. 20 "Iron Age" Single Wheel Hoe
The frame of this tool, as all the "Iron Age" combined tools, is made of pipe coupled to malleable castings, thus rendering them light and strong. A pair of side hoes, a set of cultivator teeth, a pair of rakes and a land and plow are furnished with this tool. Price, complete, $8.00. As with the No. 1, a seeder attachment may be added at any time. No. 21 (Hoes only), price $5.50.

Gem Single Wheel Hoe
Complete $7.50. Gem Double Wheel Hoe, complete $8.50. Gem Single Wheel with Teeth Only, price $5.50

Useful Hand Plow,
$2.00

GEM DOUBLE WHEEL HOE
This Wheel Hoe is very similar to the single wheel, excepting for the fact of it possessing another wheel and being minus the seuffer, for which it has instead one pair of side hoes, which can be used to better advantage on such a tool. The wheels are arranged so they may be adjusted to enable various growing plants to be worked on both sides in narrow or wide rows.

Price ............... $8.50 With 6-in. Seuffer ... $9.50

Fig. 76, showing the Double Wheel Hoe set up as a Single Wheel
No. 1 "Iron Age" Double and Single Wheel Hoe. Price, complete, $11.00
Is the Wheel Hoe form of the No. 6 opposite. One great advantage which this Double Wheel Hoe possesses is that it can be made into a practical Single Wheel Hoe in a moment's time. As a Double Wheel Hoe it may be used astride the row and thus cultivate both sides of the row at the same time. The wheels are 16 inches high, enabling the Wheel Hoe to run easily and without yielding to the inequalities of the soil as a low wheel will do. The frame being made of pipe coupled with malleable castings, gives great strength, together with lightness. This tool with side hoes only ("Iron Age" No. 3), price $7.50.

"Advance" Fertilizer Drill
A shut-off, to prevent the escape of fertilizer when wheeling around end of row, is a late improvement; holds eighteen quarts. A first-class machine for the drilling of peas and corn as well as fertilizer. Price, each, $10.00.

New Model Seed Drill
For sowin all kinds of grain seeds. Easily adjusted, easy to operate. Price, $22.00.

Transplanting Trowel
Solid 4
Largely used by truckers in transplanting sweet potatoes, cabbages, etc. Price 50c.

Asparagus Knife, 30c.
By mail, postpaid, 45c.

Perfection Horse Weeder and Harrow for Truckers
The fenders serve as a protection to the plants, as no stones, lumps of dirt or soil can be thrown on them by the teeth. The fenders adjust themselves to the surface of the soil.

The side hoes thoroughly cut the surface close to the growing crop, and naturally throw it towards the centre of the row, while the sweep upon the rear standard turns the loose soil back again towards the plants. It is a great labor saver and will quickly pay for itself. No. 2028. Price $13.50.

"Gem" Double Wheel Hoe
Planet Jr. No. 3 Hill and Drill Seeder  
Price, $15.25

This seeder is the most perfect development of the hand seed drill. It serves evenly in drills, and also drops in hills at 4, 6, 8, 12 or 24 inches apart. No time is lost. No seed is wasted. It quickly sets to sow the different kinds of seeds. The accurate hill-dropping drill, which gives a regular stand of plants with the least seed, saves its cost over and over again in seed alone. We guarantee this drill to give satisfaction in every respect.

Planet Jr. No. 12 Double Wheel Hoe, Cultivator and Plow. Price, $10.25

Two acres a day can easily be worked with this implement, and when it is done it will be a better job than the men could have done in the same time with hand hoes. The No. 12 runs either astride or between the rows; kills all the weeds and leaves the earth in fine shape. Then, too, it's so easy to work. Twelve-year-old girls work gardens with them with ease and success.

Planet Jr. No. 31 Combined Seeder and Wheel Hoe. Price, $11.00

A thoroughly reliable and practical tool for the family gardener. Sows all garden seed, from the smallest up to peas and beans, and is a first-class light running wheel hoe that will delight the man, woman or growing boy who looks after the home garden. Will save time, labor and seeds. Sold as a seeder only (No. 311), $8.75, or as a Wheel Hoe without the seeder (No. 312), $5.50.

Planet Jr. No. 60 Double Wheel Onion Hoe. Price, $6.00

An entirely new wheel hoe with adjustable arch and all steel offset bars that will delight the onion grower, market gardener and trucker. Adjustable for all conditions and complete for the culture of onions or general hoeing. Fully guaranteed.

Planet Jr. No. 104 Horse Hoe and Cultivator. Price, $13.50

A new Planet Jr. Horse Hoe. Light but very strong. Lever wheel and lever expanded. A very priced tool that will please every farmer, trucker and gardener. Price without wheel, $12.75. This tool is made up to the Planet Jr. standard and is fully guaranteed.

Planet Jr. No. 4 Combined Seed Drill, Single Wheel Hoe, Cultivator and Plow. Price, $16.25

The hopper holds two quarts of seed, which can be sown in continuous rows, or dropped in hills at 4, 6, 8, 12 or 24 inches apart. The drill is telescoped and the tool frame substituted by removing but one bolt. It then becomes a single wheel hoe. It is useful in almost every day of the season, at every stage of the garden work. With this tool even the smallest farmer can do practically all the work in his small crops.

Planet Jr. No. 17 Single Wheel Hoe, Cultivator and Plow. Price, $7.00

For easy gardening and at the same time clean and perfect hoeing, nothing is quite the equal of this No. 17 Wheel Hoe. It is suited to all kinds of garden cultivation and all garden crops. You can do more and better hoeing with it in one day than you can do in three days with a hand hoe.

Planet Jr. Twelve-Tooth Harrow, Cultivator and Pulverizer

Price, $19.75; less Pulverizer, $13.75; less Twelve-Tooth Harrow, $10.50. Gardeners and cultivators better than formerly. It has been found to pay best. With the Twelve-Tooth Harrow you go as deep or shallow as you like, come up close to row without injuring plants, cut out all the weeds, stir the soil and mold it as with a garden rake. You widen and narrow as you please between 12 and 22 inches. It's a special favorite with strawberry growers, market gardeners and truckers.

No. 100 Planet Jr. Cultivator

Price, with wheel, $9.50. Packed weight, 30 lbs. Price, less wheel, $8.00. A new machine light in weight but strong. The teeth are of high carbon, beveled steel, specially hardened, will retain their cutting shape and outwear any on the market. We recommend it as the very best one-horse cultivator. Guaranteed to give satisfaction.
MOORE’S MARYLAND RED SKIN POTATO

The Wonder Potato

A GOOD AVERAGE YIELD
600 BUSHELS
PER ACRE.

Moore's Maryland Red Skin Potato

Has Won the Hearts
of Thousands of Potato Planters

Everywhere.

The Best Keeping Potato

on Earth

The Great Family Potato• Plant it for Early, Plant it for Late.

This Potato is undoubtedly one of the wonders of the agricultural world. It is quite an early variety ripening about the same time as our Early Monarch. It is one of the greatest general purpose potatoes in the world today. It is good for early, it is good for Midsummer, it is good for the late Summer; it is good for the Fall and it is a magnificent Winter keeper. The flesh is pure white, of extra fine quality, cooking dry and flaky; the skin is a reddish pink, the eyes usually a darker red. It is one of the hardest potatoes known and remarkably well adapted to light and sandy land. The vines seem to be immune from all disease, usually produce from five to eight large potatoes to the hill. The eyes are few. There is no potato that is as well adapted for late planting as our Maryland Red Skin.

There is really no sort that beats it for a general purpose family potato. As a market sort it ranks among the most profitable. Under good cultivation a yield of from 200 to 400 bushels per acre is not uncommon and we challenge the world to produce a better or sooner cropper or a better potato for late planting or a better winter keeper. We advise every potato grower to plant it, no matter whether for home use or market. It is sure to please. Price, \( \frac{1}{2} \) pt. 75c., pk. $1.25. \( \frac{1}{2} \) bu. $2.00, bu. $3.75, hhd. $8.00.

Moore’s Early Buck Mountain Garden Corn

MOORE’S BUCK MOUNTAIN GARDEN CORN should be planted by everyone growing for home use, home market or shipping. A sure variety for satisfaction and profit for all who plant it. It is ready a week earlier than Adams’ Extra Early and nearly twice the size; rows straight and parallel. It presents a very attractive appearance and it is of excellent table quality. It is very hardy; should be planted a month earlier than Evergreen Sugar. It adapts itself to any kind of soil, either sand or heavy clay. Three ears to a stalk is not unusual and many nearly as large as Moore’s Snow White Evergreen.

Plant it early. It has become so popular that in no season have we been able to fill all the orders from the many thousands of our customers. Don’t be afraid to plant it freely. Plant it early and you will not only have early corn but early money as well. Its quality and sweetness leave nothing to be desired in so early and heavy yielding corn. Our word for it. Pkt. 10c, pt. 30c, qt. 60c, 4 qts. $2.00, pk. $3.75, bu. $14.00.
